easy homosociality of his London polytechnical school where he launched a student literary society in the mold of the city's private men's clubs. Throughout his life as he wandered from England to Patagonia to the United States he tried to recreate similarly open spaces such as Gayeta his would be art colony in Arkansas. But it was through his idiosyncratic magazine *All's Well* that he constructed his most successful social network writing articles filled with coded signals and winking asides for an inner circle of understanding readers. Capitalizing on the publishing opportunities of the day, Finger used every means available to express his twin loves literature and men. He produced an enormous body of work and his short semiautobiographical fiction won some critical acclaim. Ultimately the children's book that won Finger a Newbery Medal ushered him into the public eye ending his development as an author of serious queer literature. *Shared Secrets* is both the story of Finger's remarkable adventurous life and a rare look at a community of gay writers and artists who helped shaped twentieth century American culture even as they artfully concealed their own identities.

Advertising and Advertisements Elbert Hubbard, 1929

Tourists and Trade Bruce A. Austin, 2023-06-01 Amid the economic turmoil of the Great Depression in 1929 Clarence Wemett an upstate New York petroleum merchant underwrote a craft shop bordering U S Route 20 and a few years later a different one 15 miles away. At precisely the wrong time for such things to happen the improbable idea of selling

discretionary goods targeted to a consumer market characterized by 25 percent unemployment at a rural highway s roadside achieved traction the first shop was in business for a quarter century the second for nearly 40 years More significant than their surprising longevity is the shops long lasting contribution to a nascent national movement that spans crafts personally created for individual use to the commercial work that sees craft elevated to a fine art craft objects moved from pantry shelves to museum vitrines and craftworkers from hobbyists to professionals The roadside shops introduced a business model that 70 years later is widely experienced on a very different but equally super highway the Internet and their story is a chapter in the pre history of the modern crafts movement The Culture of Tourism, the Tourism of Culture William P. Clements Center for Southwest Studies,2003 The Southwest has long been an American dreamscape and inherently this has had its affect on the land and its people Among other topics discussed in the package of essays is how the area is transformed by tourism and how native people gain autonomy by presenting their experiences and cultures to tourists
