In Search of Ghosts Hans Holzer,2012-02-21 Famed ghost hunter Hans Holzer once told an interviewer There are three dirty words in my vocabulary belief disbelief and supernatural They don't exist There's no supernatural world Everything that exists is natural Yet there is a dimension of existence that is as real as your living room even if the average person cannot access it with all their senses For five decades this meticulous Vienna born researcher has been delving into manifestations that seem miraculous moving among ghosts with a calm resolve that might have startled even the spooks In book after book he has documented these spirit presences building an unprecedented bibliography of The Other Side In Search of Ghosts brings together some of The Ghost Hunter's famous astonishing and controversial cases Holzer recreates eerie scenes with a skillful sense of telling detail His long deep immersion in the field is evidenced by the vast diversity of his subjects He writes about Bavarian poltergeists and Connecticut left behinds spectral murder victims and a ghostly spy courier who refuses to disappear a noisy spirit in a San Francisco suburb and a Revolutionary War traitor whose imprint stubbornly remains Some posthumous visitors tiptoe others thrash some require the gentle coaxing of mediums Holzer brings alive not only phantoms who emerge from the shadows but also the average people whose everyday lives were interrupted by these unexpected nocturnal visitors and their intrusive rumblings Like any good researcher he realizes that context is everything With tireless attention he pursues his vaporish subjects back into history separating the chaff from the wheat and puzzling out the true stories of their uneasy exits For Hans Holzer things that go bump in the night are no longer phenomena

The following pages represent in the main a discussion of certain celebrated mysteries as viewed in the light of the discoveries set forth in the writer's earlier work *The Riddle of Personality* That dealt it may briefly be recalled with the achievements of those scientists whose special endeavor it is to illumine the nature of human personality On the one hand it reviewed the work of the psychopathologists or investigators of abnormal mental life and on the other hand the labors of the psychical researchers those enthusiastic and patient explorers of the seemingly supernormal in human experience Emphasis was laid on the fact that the two lines of inquiry are more closely interrelated than is commonly supposed and that the discoveries made in each aid in the solution of problems apparently belonging exclusively in the other To this phase of the subject the writer now returns The problems under examination are all of them problems in psychical research yet as will be found the majority in no small measure depend for elucidation on facts brought to light by the psychopathologists Of course it is not claimed that the last word has here been said with respect to any one of these human enigmas But it is believed that thanks to the knowledge gained by the investigations of the past quarter of a century approximately correct solutions have been reached and that in any event it is by no means imperative to regard the phenomena in question as inexplicable or as explicable only on a spiritistic basis Before attempting to solve the problems it manifestly was necessary to state them In doing this the writer has sought to present them in a readable and attractive form but without any distortion or omission of material facts **Ghost Hunters of the South** Alan Brown, 2006 From across Dixie profiles of irrepressible investigators of the paranormal
