Hacsí, 2009-06-30 Head Start Bilingual education Small class size Social promotion School funding Virtually every school system in America has had to face these issues over the past thirty years Advocates and dissenters have declared confidently that the research is on their side But is it In the first book to bring together the recent history of educational policy and politics with the research evidence Timothy Hacsí presents the illuminating often forgotten stories of these five controversial topics He sifts through the complicated evaluation research literature and compares the policies that have been adopted to the best evidence about what actually works He lucidly explains what the major studies show what they don't and how they have been misunderstood and misrepresented Hacsí shows how rarely educational policies are based on solid research evidence and how programs that sound plausible simply do not satisfy the complex needs of real children
