Healing Bond The Patient Practitioner Relationship And Therapeutic Responsibility:

The Healing Bond Susan Budd, Ursula Sharma, 1994 This book combines the expertise of practitioners and researchers to address the wide range of debates currently taking place in relation to the politics of the practitioner client relationship

The Healing Bond Susan Budd, Ursula Sharma, 2002-09-11 The growing popularity of alternative therapies poses challenging questions for the medical establishment and the state By confronting these questions The Healing Bond makes an important contribution to current debates about health care The contributors who are all experts in the fields of health care social science and the law focus on the relationship between patient and healer in both orthodox and non orthodox forms of healing practice They consider whether different forms of healing involve widely differing conceptions of the role and responsibilities of the healer and deal with topical issues such as medical litigation codes of ethics for complementary practitioners and co operation between orthodox and complementary medicine *Recordkeeping, Ethics and Law* Livia Iacovino, 2006-07-20 Distributed networks such as the Internet have altered the fundamental way a record is created captured accessed and managed over time and therefore who controls has access to and is responsible for its authenticity Law and ethics provide the major sources of regulatory controls over participants in such networks This book analyses the interrelationship of recordkeeping ethics and law in terms of existing regulatory models and their application to the Internet environment It proposes the legal and social relationship model as an analytical tool for identifying the rights and obligations of recordkeeping participants in networked business transactions within communities of common interest based on trust The model is also used to examine the legal concepts of property access privacy and evidence with particular reference to its Internet context As legal relationships have their basis in the law of obligations found in both common and civil law systems as well as archival science the model has a broad based application The approach in this book has been to reconcile a number of archival traditions the common strands rather than the differences in particular concepts of identity trust acts actors and social relationships as fundamental concepts to social regulation It is therefore primarily directed to archives and records academics and practitioners especially those working within the realm of electronic records in order to provide them with a sound theoretical and practical knowledge of the legal and ethical dimensions of records created in distributed environments American Rehabilitation ,1995 Toward an Integrative Medicine Hans A. Baer, 2004 This book chronicles the transformation of the holistic health movement over the past three decades as it increasingly influences the delivery of health care in America In it he describes the battle for legitimacy by alternative therapeutic practitioners and the biomedical profession s increasing interest in the possibilities of a complementary and integrative medical system Baer examines a variety of professionalized and lay heterodox therapeutic systems including chiropractors naturopaths and acupuncturists homeopaths bodyworkers and lay midwives He shows ironically how the holistic movement may become more limited as it gains acceptance and becomes integrated into mainstream professional medicine This book is a valuable resource for

instructors students professionals and others interested in public health issues health policy medical studies health economics medical anthropology and sociology

Mary Douglas Richard Fardon, 2002-01-04 This is the first full length account of the life and ideas of Mary Douglas the British social anthropologist whose publications span the second half of the twentieth century Richard Fardon covers Douglas family background and the pervasive influence of her catholic faith on her writings before providing an analysis of two of her most influential works Purity and Danger 1966 and Natural Symbols 1970 The final section deals with Douglas more controversial writings in the fields of economics consumption religion and risk analysis in contemporary societies Throughout Fardon highlights the centrality of Douglas role in the history of anthropology and the discipline s struggle to achieve relevance to contemporary western societies

Religion and Politics Bernhard Giesen, Daniel Šuber, 2005-06-01 This volume brings together essays by such eminent scholars like Shmuel N Eisenstadt Mary Douglas Thomas Luckmann Reinhart Koselleck and Jan Assmann on the topic of politics and religion The relationship between religious and cultural visions on the one hand and socio political structures on the other becomes elaborated from a wide historical and culturalist perspective These accounts are flanked by contributions of a younger generation of scholars that focus on new aspects of secularisation The book aims at reviving the interdisciplinary discourse on a matter which seems to be crucial to the question of future solidarity between different cultures and religions in a globalising world

The Arts Therapies Phil Jones, 2005 The Arts Therapies provides in one volume a guide to the different disciplines and their current practice and thinking It presents A clear analysis of the relationship between client therapist and art form An exploration of research practice and key contributions made to the field by practitioners internationally and within many different contexts Discussion of how the arts therapies relate to established health services The Arts Therapies A revolution in healthcare is a unique book that provides a thorough and up to date overview of the arts therapies It will prove invaluable to arts therapists health professionals and all those who wish to learn more about the field

Pity and Power in Ancient Athens Rachel Hall Sternberg, 2005-07-25 Ancient Athenians resemble modern Americans in their moral discomfort with empire Athenians had power and used it ruthlessly but the infliction of suffering did not mesh well with their civic self image Embracing the concepts of democracy and freedom they proudly pitted themselves against tyranny and oppression but in practice they were capable of being tyrannical Pity and Power in Ancient Athens argues that

the exercise of power in democratic Athens especially during its brief fifth century empire raised troubling questions about the alleviation and infliction of suffering and pity emerged as a topic in Athenian culture at this time **The Beauty**

Industry Paula Black, 2004-08-02 The beauty industry is now a multinational multi million dollar business In recent years its place in contemporary culture has altered hugely as salons have become not simply places to have your hair cut or your nails done but increasingly sites of physical and even spiritual therapy In this fascinating and nuanced study Paula Black strips away many popular assumptions about the beauty industry including the one that says it exploits people's insecurity by projecting an illusory beauty myth The interviews in this book both with the beauty industry's workers and its clients reveal a far more complex and interesting picture and in their presentation Black reformulates many feminist debates around choice and constraint The debates addressed include issues around the body the construction and maintenance of gender identity changing definitions of health and well being and labour processes **Nature, Technology and the Sacred**

Bronislaw Szerszynski, 2008-04-15 This provocative and timely book argues that contemporary ideas and practices concerning nature and technology remain closely bound up with religious ways of thinking and acting Using examples from North America Europe and elsewhere it reinterprets a range of secular phenomena in terms of their conditioning by a complex series of transformations of the sacred in Western history The contemporary practices of environmental politics technological risk behaviour alternative medicine vegetarianism and ethical consumption take on new significance as sites of struggle between different sacral orderings Nature Technology and the Sacred introduces a radically new direction for today's critical discourse concerning nature and technology one that reinstates it as a moment within the ongoing religious history of the West Heaven's Kitchen

Courtney Bender, 2011-04-15 How do people practice religion in their everyday lives How do our daily encounters with people who hold different religious beliefs shape the way we understand our own moral and spiritual selves In Heaven's Kitchen Courtney Bender takes a highly original approach to answering these questions For more than a year she worked in New York City as a volunteer for a nonprofit nonreligious organization called God's Love We Deliver helping to prepare home cooked meals for people with AIDS Paying close attention to what was said and not said Bender traces how the volunteers gave voice to their moral positions and religious values She also examines how they invested their conversations and mundane activities such as cooking with personal meaning that in turn affected how they saw their own spiritual lives Filled with vibrant storytelling and rich theoretical insights Heaven's Kitchen shows faith as a living practice reshaping our understanding of the role of religion in contemporary American life *Plural Medicine, Tradition and Modernity, 1800-2000* Waltraud Ernst, 2002-11 This book brings together current critical research into medical pluralism during the last two centuries It includes a rich selection of historical anthropological and sociological case studies

Teratologies Jackie Stacey, 2013-07-23 Stories of cancer are full of monster and marvels the monstrousness of the disease and the treatments the marvels of the cures and the saved lives Still one of the most dreaded diseases to haunt our

imaginations cancer is more than an illness it is a cultural phenomenon People who have cancer are bombarded with competing explanations of their conditions it is genetically inherited it is environmentally produced it is the result of their personality Teratologies A Cultural Study of Cancer investigates how this disease is perceived experienced and theorised in contemporary society It explores changing beliefs about the causes of and the cures for cancer in both biomedicine and its increasingly popular alternative counterparts Analysing conventional and alternative medical accounts self help manuals and patients personal stories Jackie Stacey takes a critical look at the place of heroes metaphors the self and the body in these competing bids to produce the authoritative definition of the meaning of cancer today Interspersed with these detailed textual investigations are discussions of broader issues such as the feminist debates about the history of science the place of consumer culture in health practices and the status of patients and of health professionals in postmodern society Combining autobiographical narratives with contemporary theoretical debates the author carves out a specifically feminist analysis of the cultural dimensions of cancer She brings accounts of her own illness under the critical lens of academic scrutiny and situates these personal stories within a discussion of contemporary cultural change

Analyst of the Imagination Jenny Pearson, 2018-06-04 Charles Rycroft's lucid jargon free approach to psychoanalysis inspired a whole generation Taking inspiration from many fields outside psychoanalysis including history literature linguistics and ethology he established the important link between mental health and the imagination creating a broader perspective and encouraging free thinking This solitary and creative rebel rarely received the recognition he deserved but this collection of articles and papers by people who felt the benefit of his ever curious expanding wealth of knowledge goes some way to acknowledging the debt owed to him and introducing a new generation to this innovative analyst

The Consultation in Phytotherapy E-Book Peter Conway, 2010-09-20 The Consultation in Phytotherapy considers the means by which the herbal practitioner can seek to appreciate the patient's predicament Written for both herbal medicine students and practitioners the book takes a radical approach challenging readers to reflect on the nature scope and methods of the consultation in herbal practice The author asserts that the effective consultation represents a therapeutic act in and of itself and proposes strategies for maximising and realising this therapeutic potential The book provides both a complement to and a critique of mainstream texts on clinical diagnosis and case management It contrasts the herbal consultation with that occurring in conventional medicine and offers rationales arguments and tools aimed at developing an enhanced capacity to achieve profound results in the herbal clinical encounter About the Author Peter Conway is a practising medical herbalist and has been involved in developing and teaching on several BSc and MSc courses in herbal medicine He is the President of the College of Practitioners of Phytotherapy and a Director of the European Herbal and Traditional medicine Practitioners Association Peter helped draft the National Professional Standards for Herbal Medicine and sat on the Department of Health Steering Group on the Statutory Regulation of Acupuncture and Herbal Medicine Key features Provides a context for understanding and appreciating what is meant by
