Lux, 2016-01-01 Separate Beds is the shocking story of Canada s system of segregated health care Operated by the same bureaucracy that was expanding health care opportunities for most Canadians the Indian Hospitals were underfunded understaffed overcrowded and rife with coercion and medical

experimentation Established to keep the Aboriginal tuberculosis population isolated they became a means of ensuring that other Canadians need not share access to modern hospitals with Aboriginal patients Tracing the history of the system from its fragmentary origins to its gradual collapse Maureen K Lux describes the arbitrary and contradictory policies that governed the Indian Hospitals the experiences of patients and staff and the vital grassroots activism that pressed the federal government to acknowledge its treaty obligations A disturbing look at the dark side of the liberal welfare state Separate Beds reveals a history of racism and negligence in health care for Canada s First Nations that should never be forgotten

Depression and the Social Environment Philippe Cappeliez, Robert J. Flynn, 1993-08-10 The authors of the essays in Depression and the Social Environment explore the etiological role of the social environment suggesting that for neglected populations immigrants and refugees native Indians the unemployed the physically disabled the elderly caregivers of the impaired elderly children and adolescents and women depression has significant environmental roots These populations and the manifestations of depression that they exhibit have been largely overlooked because the importance of the social environment itself has been insufficiently investigated The contributors of most of the essays discuss empirical findings and taken together provide a unique in depth review and analysis of the international literature on etiology intervention and policy implications The approach developed in this volume has obvious significance for other mental health problems with social environmental roots In bridging the academic practice divide the authors address the interrelated concerns of researchers practitioners and policy makers Eldercare, Distributive Justice, and the Welfare State Derek G. Gill, Stanley R. Ingman, 1994-02-03 The essays in this book describe the situation of the elderly today taking into account the major political economic and social variations of service provided in a variety of countries Although the welfare state exists in all developed and developing countries its content and administration varies substantially The editors first develop a framework of concepts and perspectives that establish links between eldercare distributive justice and the welfare state This is followed by analyses of the services provided to the elderly in selected countries Finally the editors show how and in what ways the concepts developed earlier in the introduction equity uniformity public accountability individualism collectivism institutional or residual welfare state orientation high or low wage economy apply to and explain the differences in care of the elderly The Hidden Curriculum in Higher Education Eric Margolis, 2002-05-03 The Hidden Curriculum in Higher Education is a daring look at the way colleges and universities produce race class and gender hierarchies and reproduce conservative ideology These original and provocative essays shed light on all that remains hidden in higher education

and European social scientists to identify who uses CAM why they use it and how they find out about it Presenting research from psychology sociology anthropology and public health they alert us to the current context of CAM use and provide new models and techniques for understanding its future place in health care Health Psychology Elizabeth D.
