latest statistics on the economy crime health care education and culture religion the environment and much more It is a book filled with surprising revelations For most categories of crime for instance America is safe and peaceful by European standards But the biggest surprise is that though there are many differences between America and Europe in almost all cases these differences are no greater than the differences among European nations Europe and the US are in fact part of a common big tent grouping America is not Sweden for sure But nor is Italy Sweden nor France nor even Germany And who says that Sweden is Europe Any more than Vermont is America Meticulous insistent and elegant John Lloyd Financial Times A must read filled with intriguing facts that add nuance to what can often be a black and white debate Foreign Affairs An exhaustive and enthralling catalogue of our commonalities that begs a reconsideration of just what it means to be European or American Publishers Weekly
