Going beyond common stereotypes, Samuel W. Mitcham and Gene Mueller recount the compelling lives of a varied group of army, navy, Luftwaffe and SS men. Weaving in dramatic stories of tank commanders, fighter pilots in aerial combat and U Boat aces, the authors bring the battlefields of World War II to life. *Strategy and Tactics of the Great Commanders of World War II and Their Battles* John Norton Westwood, Patrick Jennings, Judith A. Steeh, 1990. Focuses on seventeen commanders and their most famous battles by land, sea and air during World War II. *Great Commanders [Illustrated Edition]* Dr. Christopher Gabel, 2014-08-15. Includes 3 maps and 7 illustrations. The command of military forces in combat is unlike any other field of human endeavor. If war is the ultimate form of human competition, then the commander is the ultimate competitor. The commander operates in an environment of chance, uncertainty and chaos in which the stakes are quite literally life and death. He or she contends against an adversary who is using every means, fair or foul, to foil his plans and bring about his defeat. The commander is ultimately responsible for every variable that factors into military success or failure: training, logistics, morale, equipment, planning and execution. The commander reaps the lion's share of plaudits in victory but also must accept the blame in defeat, warranted or not. Very often the line that separates fame and ignominy is slender indeed. It is not difficult to identify great commanders, though the overwhelming majority of generals who win battles are never considered great. Something more than a favorable ratio of wins to losses is needed to establish greatness. The truly great commander is generally considered to be one who attains the unexpected or the unprecedented, one who stands above his contemporaries through his skill on the battlefield or through the sheer magnitude of his accomplishments. The commanders selected were masters of warfare in their particular time and environment. Each capitalized upon the social, political, economic and technological conditions of his day to forge successful military forces and win significant and noteworthy victories that profoundly altered the world in which he lived. Dr. Christopher R. Gabel. The Great Commanders covered by this volume are Alexander the Great, Genghis Khan, Napoleon, John J. Pershing, Erwin Rommel and Curtis E. LeMay. **The Great Commanders of World War II** Victor A. Salamone, Charles E. Pfannes, 1985-08-01 *Generals of the Bulge* Jerry D. Morelock, 2015-03-01. The Battle of the Bulge lives in history as the U.S. Army's largest and bloodiest battle of World War II. This innovative study of American military leadership in action during the battle examines the performance of six generals in the days and weeks after the German attack in December 1944. Generals covered include Dwight Eisenhower and Omar
