The Great Dock Strike, 1889 Terry McCarthy, 1988 **The Great Dock Strike in London, August, 1889** Henry Hyde Champion, 1890 **The Great Dock Strike, 1889** David Wasp, Alan Davis, 1974 The Great Dock Strike, 1889 London Metropolitan Archives, 1997 **The Great Dock Strike in London, August, 1889. (With Portraits.)** Henry Hyde Champion, 1890 *Australia and the Great London Dock Strike, 1889* Peter Francis Donovan, 1968 The Great Dock Strike in London, August, 1889 Henry Hyde Champion, 1890 **The Development of Trade Unionism in Great Britain and Germany, 1880-1914** Wolfgang J. Mommsen, Hans-Gerhard Husung, 2017-06-14 This stimulating collection of essays by distinguished British American Australian and German scholars originally published in 1985 offers a picture of the upsurge of New Unionism and the growth of old unions and looks at the severe setbacks which occurred in the labour movements of Britain and Germany between the 1880s and the First World War Labour history is seen from a European perspective and special emphasis is placed on the role of the state in Britain and Germany in its desire to contain and suppress trade union activity by law or force Insights are provided into the political allegiances of the unions and their members to the parties of the working class and the state The Persistence of Victorian Liberalism Robert F. Haggard, 2000-12-30 The Persistence of Victorian Liberalism examines the question of where to locate the ideological break between classical liberalism and the underlying principles of the modern Welfare State While most historians of 19th century Britain argue that such a shift occurred prior to 1900 Haggard challenges the contention that classical liberalism had been so undermined by this point that the modern Welfare State was largely inevitable He considers the public discussion of progress poverty charity socialism and social reform and he concludes that the vast majority of the Victorian middle and upper classes remained wedded to the tenets of classical liberalism up to the close of the century In contrast to traditional characterizations Haggard argues that progress individualism and character continued to resonate within Victorian society throughout the late Victorian period Private philanthropy grew increasingly active as a remedy to urban poverty The London Socialist movement the New Unionism the Independent Labour Party and the New Liberalism each proponents of socialistic reforms found themselves marginalized politically The key to the social debates of the day was the concept of the deserving versus the undeserving poor Although the deserving might expect some private or public aid the undeserving were to be punished for their lack of character Until this notion was overturned the Welfare State would remain outside the realm of practical politics *British Imperialism and Australian Nationalism* Luke Trainor, 1994 As the debate about an Australian Republic becomes more heated this first detailed study examines the relationship of the Australian colonies with Britain and the Empire in the late nineteenth century and looks at the beginnings of Australian nationalism **Engines of Influence** Elizabeth Morrison, 2005 Engines of Influence is a fifty year history of Victoria's country newspapers beginning with James Harrison's Geelong Advertiser in 1840 and ending in December 1890 when 166 papers were being published in 122 country towns This

significant book identifies all press sites and newspapers of the era whether long lasting or short lived and highlights the major part played by them in helping construct the machinery of government lay the foundations of party politics and foster a sense of rural Victorian identity The country press was an important agent of political change leading up to events such as the separation of the Port Phillip District from New South Wales in 1851 and the federation of the colony of Victoria with other British dependencies into a single nation at the end of the nineteenth century Engines of Influence shows how country newspapers also exercised cultural authority circulating ideas generated both within local communities and from the wider world Towards the end of the fifty years examined this rural press was becoming a close part of a unified political state linked through the metropolitan press and agencies to a technologically based global communications network *The Rise of the Labour Party 1880-1945* Paul Adelman, 2014-09-25 This popular study covers two major topics the formation of the Labour Party and its emergence as the main rival to the conservatives This transformation of the British political scene has been accounted for in a variety of ways Dr Adelman examines these explanations and concludes that while there is a consensus about the reasons for the creation of the Labour Party there is no agreement about why it rose to such prominence

Tom Mann's Memoirs Tom Mann, 1923 *Sound and Modernity in the Literature of London, 1880-1918* Patricia Pye, 2017-10-13 This book explores the literary representation of late Victorian and early Edwardian London from an auditory perspective arguing that readers should listen to impressions of the city as described by writers such as Conrad Doyle Ford and Gissing It was in this period that London began to sound modern and through a closer hearing of its literature writers wider responses to modernity are revealed The book is structured into familiar modernist themes revisiting time and space social progress and popular culture through an exploration of the sound impressions of some key works Each chapter is contextualized by these themes revealing how the sound of the news social protest music hall and suburbanization impacted on writers literary imaginations Suitable for students of modernist literature and specialists in sound studies this book will also appeal to readers with a wider interest in London s history and popular culture between 1880 1918 *Lord Salisbury's World* Michael Bentley, 2001-09-06 Lord Salisbury 1830 1903 is now a subject of intense historical attention This important study moves away from conventional biography and presents an original portrait of the mental world inhabited by late Victorian Conservatives at the time when their world view was coming under severe strain At the centre of the picture is the 3rd Marquess of Salisbury but Lord Salisbury s World does not simply tell the story of his life and politics Instead it asks sensitive questions about how the political intellectual and religious environments of the late Victorian period seemed to one of its sharpest intellects and it situates Salisbury and his immediate entourage in a wide landscape of relationships perceptions and problems Professor Bentley takes the reader into Conservative assumptions about time and space property

and society religion and the state and the past and the future the very language in which they expressed themselves
