Staunton, 2003 Religious beliefs and spiritual traditions have molded Ireland s past and present in spectacular ways Ranging across a rich tapestry from early Celtic culture to the Christian missionaries from the Golden Age of monastic life to the diverse influence of the Vikings and the Normans the Reformation the wars of religion to the people now engaged in the Peace Process The Voice of the Irish offers a balanced account of the religious social and political life of the Irish A sweeping history of faith in Ireland it brings to life the island s people and events including the legacy of pagan Celtic spirituality the real and the legendary St Patrick the religious roots of English involvement in Ireland the Famine and new life in America the

origins of the Troubles in the North and predicts a future between tradition and modernity Book Jacket **A Brief History of Ireland** Paul F. State, 2009 Follows the political economic and social development of Ireland from the pagan past to the contemporary religious strife and hope for reconciliation The Art of Eloquence Matthew Bevis, 2010-09-09 In the course of these fifty years we have become a nation of public speakers Everyone speaks now We are now more than ever a debating that is a Parliamentary people The Times 1873 The Art of Eloquence considers how Byron Dickens Tennyson and Joyce responded to this Parliamentary people and examines the ways in which they and their publics conceived the relations between political speech and literary endeavour Drawing on a wide range of sources classical rhetoric Hansard newspaper reports elocutionary manuals treatises on crowd theory this book argues that oratorical procedures and languages were formative influences on literary culture from Romanticism to Modernism Matthew Bevis focuses attention on how the four writers negotiated contending political demands in and through their work and on how they sought to cultivate forms of literary detachment that could gain critical purchase on political arguments Providing a close reading of the relations between printed words and public voices as well as a broader engagement with debates about the socio political inflections of the aesthetic realm this is a major study of how styles of writing can explore and embody forms of responsible political conduct *The Politics of Speech in Later Twentieth-Century Poetry* William Fogarty, 2022-07-30 The Politics of Speech in Later Twentieth Century Poetry Local Tongues in Heaney Brooks Harrison and Clifton argues that local speech became a central facet of English language poetry in the second half of the twentieth century It is based on a key observation about four major poets from both sides of the Atlantic Seamus Heaney Gwendolyn Brooks Tony Harrison and Lucille Clifton all respond to societal crises by arranging reproducing and reconceiving their particular versions of local speech in poetic form The book's overarching claim is that local tongues in poetry have the capacity to bridge aesthetic and sociopolitical realms because nonstandard local speech declares its distinction from the status quo and binds people who have been subordinated by hierarchical social conditions while harnessing those versions of speech into poetic structures can actively counter the very hierarchies that would degrade those languages The diverse local tongues of these four poets marshaled into the forms of poetry situate them at once in literary tradition in local contexts and in prevailing social constructs **Great Irish Voices** Gerard Reid, 1998 About 70 speeches given by some of Ireland's greatest stateswomen and men are compiled in this volume The selections spanning 400 years are arranged in ten categories i.e. Speeches from the Dock The Birth of a Nation The Ulster Question and then chronologically within each category Each speech is introduced by the editor to set the context A final section contains a brief biography of each speaker Distributed by ISBS Annotation copyrighted by Book News Inc Portland OR Masculinity and Power in Irish Nationalism, 1884-1938 Aidan Beatty, 2016-09-23 This book is a comparative study of masculinity and white racial identity in Irish nationalism and Zionism It analyses how both national movements sought to refute widespread anti Irish or anti Jewish stereotypes and create more prideful and highly gendered images of

their respective nations Drawing on English Irish and Hebrew language archival sources Aidan Beatty traces how male Irish nationalists sought to remake themselves as a proudly Gaelic speaking race rooted both in their national past as well as in the spaces and agricultural soil of Ireland On the one hand this was an attempt to refute contemporary British colonial notions that they were somehow a racially inferior or uncomfortably hybridised people But this is also presented in the light of the general history of European nationalism nationalist movements across Europe often crafted romanticised images of the nation s past and Irish nationalism was thus simultaneously European and postcolonial It is this that makes Irish nationalism similar to Zionism a movement that sought to create a more idealized image of the Jewish past that would disprove contemporary anti Semitic stereotypes
