Lifestyle Migration Michaela

Benson, 2016-05-06 Relatively affluent individuals from various corners of the globe are increasingly choosing to migrate spurred on by the promise of a better and more fulfilling way of life within their destination Despite its increasing scale migration academics have yet to consolidate and establish lifestyle migration as a subfield of theoretical enquiry until now This volume offers a dynamic and holistic analysis of contemporary lifestyle migrations exploring the expectations and aspirations which inform and drive migration alongside the realities of life within the destination It also recognizes the structural conditions and constraints which frame lifestyle migration laying the groundwork for further intellectual enquiry Through rich empirical case studies this volume addresses this important and increasingly common form of migration in a

manner that will interest scholars of mobility migration lifestyle and culture across the social sciences **Urban Enigmas**

Johanne Sloan,2007-02-12 The practice of comparison is implicit in every act of imagining representing and studying urban experience Urban Enigmas contributes to recent interdisciplinary interest in cities by introducing comparison as a key methodology for urban cultural analysis *Opting for Elsewhere* Brian Hoey,2014-12-31 Do you get told what the good life

is or do you figure it out for yourself This is the central question of Opting for Elsewhere as the reader encounters stories of people who chose relocation as a way of redefining themselves and reordering work family and personal priorities This is a book about the impulse to start over Whether downshifting from stressful careers or being downsized from jobs lost in a surge of economic restructuring lifestyle migrants seek refuge in places that seem to resonate with an idealized potential self Choosing the option of elsewhere and moving as a means of remaking self through sheer force of will are basic facets of American character forged in its history as a developing nation of immigrants with a seemingly ever expanding frontier Building off years of interviews and research in the Midwest including areas of Michigan Brian Hoey provides an evocative illustration of the ways these sweeping changes impact people and the communities where they live and work as well as how both react devising strategies for either coping with or challenging the status quo This portrait of starting over in the heartland of America compels the reader to ask where we are going next as an emerging postindustrial society *Writing*

Off the Rural West Parkland Institute,2001-09 This collection reveals the situation in rural Canada in a new light but more than that it shows us that the ability to renew our rural communities remains within our grasp if we have the will to do so

Citizenship Engin F. Isin,Greg M. Nielsen,2013-04-04 This book introduces the concept of act of citizenship and in doing so re orients the study of what it means to be a citizen Isin and Nielsen show that an act of citizenship is the event through which subjects constitute themselves as citizens They claim that such an act involves both responsibility and answerability but is ultimately irreducible to either This study of citizenship is truly interdisciplinary drawing not only on new

developments in politics sociology geography and anthropology but also on psychoanalysis philosophy and history Ranging from Antigone and Socrates in the ancient world to checkpoints euthanasia and flash mobs in the modern one the acts and chapters here build up a dynamic and wide ranging picture Acts of Citizenship provides important new insights for all those concerned with the relationship between individuals groups and politics

Unsettling Absences Eric C. Thompson,2007 In Unsettling Absences Eric Thompson argues that urbanism is a cultural force unbound from the city and is a pervasive presence in the Malaysian countryside Transported to rural communities urbanism has motivated migration transformed the social lives of rural inhabitants and created a deep ambivalence about personal identity This has left rural Malays feeling out of place in both the city and the village Kuala Lumpur epitomises modernity but rural Malays who move there are often marginalised in squatter settlements on its periphery The kampung symbolises home and the locus of Malay identity but schoolbooks and television have projected urbanism that marks rural life as backwards and marginal in a forward looking nation into the kampung The book challenges city bound urban studies by locating urbanism in a wider world that extends outside of the city and shows the conflicted realities of rural dwellers in an overwhelmingly urban world As others have challenged the meaning of modernity Thompson challenges the meaning of urban while still recognising the powerful effects of an ideology of urbanism Unsettling Absences is a call to take seriously place based identities and cultural geographies in a world where the urban rural divide is dissolving in practice but in cultural terms remains as powerful as ever

diverse clashes over beliefs a site that exhibits interpretive collisions over globalization gentrification innovation preservation market value popular culture crowds consumption urban governance and different strategies for healing the democratic city s ever present conflicts over these concerns Each chapter uses a problem of urban life to observe and analyze assumptions and values that are typically taken for granted and unspoken using elements of the philosophy of Plato as well as the work of modern thinkers such as Georg Simmel Gertrude Stein Ludwig Wittgenstein Virginia Woolf Hannah Arendt and Jacques Lacan The Material City translates contested views of everyday life and its management into a deeper reflection on urbanity as a system of desire The historical and the contemporary metropolis alike are shown to be sites where the enigma of mortality and its relation to pleasure comedy and fate plays out **Place, Space and Hermeneutics** Bruce B.
