Moguls Michael Palmer,Jeremy Tunstall,2006-10-19 The emergence of a few powerful individuals in control of large sections of mass communication industries has coincided with world wide media de regulation In the first book to take a close look at media moguls as a species Jeremy Tunstall and Michael Palmer show how a handful of own and operate entrepreneurs run their empires with a highly eccentric and highly political management style Individuals such as Berlusconi Hersant and Murdoch in France Germany Italy Britain and the US are considered in the context of the changing European media industry The book considers other non mogul trends the emergence of a European media policy and a European US Japanese world media industry Additional case studies focus on Reuters as a news and data super agency and the part played by advertising and other media lobbies in shaping media policy **Tales from the National Press Club** Gil Klein,2020-04-27 A behind

the scenes history of the organization behind the White House Correspondents Dinner and the news breakers and newsmakers who ve been part of it Since the beginning of the twentieth century the National Press Club has been the hub of Washington journalism Started by reporters as a watering hole for late night card games the Club soon attracted not only icons from Edward R Murrow to Bob Woodward to Helen Thomas but every US president from Theodore Roosevelt onward and various newsmakers who shaped American and world history While adapting to changes in the news media it continues to stand for the values of journalism and press freedom in the twenty first century Now journalist and longtime member Gil Klein tells just a few of the tales that stand out in the history of the Club which CBS commentator Eric Sevareid once called

the only hallowed place I know of that is absolutely bursting with irreverence Narrating Media History Michael Bailey, 2009 Explores British media history as a series of competing narratives This collection identifies and contrasts the various interrelationships between media histories and also encourages dialogue between different historical political and theoretical perspectives including liberalism feminism populism nationalism and libertarianism **A History of the English-Speaking Peoples since 1900** Andrew Roberts, 2010-12-16 Prize winning British historian tells the story of the English speaking peoples in the 20th century Winston Churchill's History of the English Speaking Peoples ended in 1900 Andrew Roberts Wolfson History prizewinner has been inspired by Churchill's example to write the story of the 20th century Churchill wrote Every nation or group of nations has its own tale to tell Knowledge of the trials and struggles is necessary to all who would comprehend the problems perils challenges and opportunities which confront us today It is in the hope that contemplation of the trials and tribulations of our forefathers may not only fortify the English speaking peoples of today but also play some small part in uniting the whole world that I present this account As the greatest of all the trials and tribulations of the English speaking peoples took place in the twentieth century Roberts book covers the four world historical struggles in which the English speaking peoples have been engaged the wars against German Nationalism Axis Fascism Soviet Communism and now the War against Terror But just as Churchill did in his four volumes Roberts also deals with the cultural social and political history of the English global diaspora *Media Ownership and Agenda Control* Justin Schlosberg, 2016-11-10 Media Ownership and Agenda Control offers a detailed examination of media ownership amidst the complexities of the information age from the resurgence of press barons to the new influence wielded by internet giants Much of the discussion pivots around recent revelations and controversies in the media industry such as the findings published in 2012 from the Leveson Inquiry the US Federal Communications Commission's ruling on net neutrality in 2015 Edward Snowden's decision to leak National Security Agency NSA documents in 2013 and the legal battles over ancillary copyrights waged in Germany and elsewhere Justin Schlosberg traces the obscure and often unnoticed ways in which agendas continue to be shaped by a small number of individual and institutional megaphones despite the rise of grassroots and participatory platforms and despite ubiquitous displays of adversarial journalism Above all it explores the web of connections and interdependence that binds old and new media gatekeepers and cements them to the surveillance and warfare state This ultimately foregrounds the book's call for a radical rethink of ownership regulation situating the movement for progressive media reform alongside wider struggles against the iniquities and injustices of global capitalism This book's re-evaluation of the nature of media ownership and control in a postdigital world will prove to be an invaluable resource for students of media studies and journalism as well as all those with an interest in the changing dynamics of media power Get involved Reclaimthemedialogue.org The Atlantic Monthly, 1928 Reorienting a Nation: Consultants and Australian Public Policy John F. Martin, 2018-08-20 First published in 1998 this volume examines how in the 1980s Australian

governments experienced dramatic change in the policy making environment The use of consultants by successive Hawke Labour governments in the mid to late 1980s to facilitate reviews of public policy was a strategy important to dealing with the complexity of these issues This book shows how the use of policy consultants complements traditional policy making processes and the management of public policy change by government In the 1980s Australian governments experienced dramatic and often unprecedented change in policy making environment Moves towards market orientated small government in a context of worlds economic liberalisation created new and challenging issues for national governments The use of consultants by successive Hawke Labour governments in the mid to late 1980s to facilitate reviews of public policy was a strategy important to dealing with the complexity of these issues Using insights from a range of public policy literatures the research investigated the hypothesis that the use of consultants to review important policy areas could be an effective strategy for devising major new directions needed in a context of economic turbulence In this situation the book suggests use of policy consultants complements traditional policy making processes and the management of public policy change by government
