Great Pyramid Its Builder And Its Prophecy 1905:

The Great Pyramid, Its Divine Message David Davidson, Herbert Aldersmith, 1927

A History of the Apocalypse

Catalin Negru, 2023-01-20 Religion For thousands of years this thing has dictated which people should live and which people should die what shape our buildings should have or what colors our garments should contain what food people should eat or what words people should speak If religion is the opium of the masses then beliefs about the end of the world are like overdoses People touched by such beliefs no longer rely on a hidden personal and intimate god contemplated upon from the safe distance of the beating human heart They live with the promise of divine intervention at a grand scale on the current coordinates of space and time This can be an exceptional motivator and a game changer in terms of civil obedience both at an individual and collective level In the name of an immediate and palpable deity people can commit shocking cruelties However such belief can also account for some of the most exceptional social developments in human history **Antiquity**

Imagined Robin Derricourt, 2015-06-26 Outsiders have long attributed to the Middle East and especially to ancient Egypt meanings that go way beyond the rational and observable The region has been seen as the source of civilization religion the sciences and the arts but also of mystical knowledge and outlandish theories whether about the Lost City of Atlantis or visits by alien beings In his exploration of how its past has been creatively interpreted by later ages Robin Derricourt surveys the various claims that have been made for Egypt particularly the idea that it harbours an esoteric wisdom vital to the world's survival He looks at alternative interpretations of the pyramids from maps of space and time to landing markers for UFOs at images of the Egyptian mummy and at the popular mythology of the pharaoh's curse and at imperialist ideas of racial superiority that credited Egypt with spreading innovations and inventions as far as the Americas Australia and China Including arcane ideas about the Lost Ten Tribes of biblical Israel the author enlarges his focus to include the Levant His book is the first to show in depth how ancient Egypt and the surrounding lands have so continuously and seductively tantalised the Western imagination **History and Significance of the Great Pyramid** Basil Stewart, 1935 **The Great**

The Victorians and the Holy Land Allan

Chapman, 2025-02-06 Why were people in the Victorian age fascinated with the archaeological mysteries of the Holy Land In this engaging study Allan Chapman shows how the Holy Land took on new meaning for Europeans during the Victorian era Previously most Europeans had viewed the area between the Mediterranean Sea and the eastern bank of the Jordan River as a literary backdrop for biblical narratives During the nineteenth century however they began to take interest in this region as a literal physical place Technological inventions such as steam powered travel telegraphy and photography made the Holy Land more accessible In public museums ordinary people could view artifacts ranging from Egyptian mummies to statues from Nimrud and Nineveh In linguistics translations of Egyptian hieroglyphs and Assyrian cuneiform broadened Europeans awareness of myths legends and history These discoveries in archaeology and linguistics brought new energy to nineteenth

century debates about whether the Scriptures were based on factual history In addition to explaining how Holy Land studies changed during the Victorian era Allan Chapman identifies key people who facilitated those changes He introduces readers to a diverse demographic that includes adventurers astronomers missionaries ministers learned women of independent means and Queen Victoria s eldest son Driven by a wide range of professional and personal motives these individuals had a powerful impact on the Victorian public s understanding of the Holy Land

Konczyk,2008-11-24 The current world confusion and condition of human affairs is a natural phase within an evolutionary process that will ultimately lead to the unification of the human race into a single social order This process has passed through stages we should consider as being analogous to those of infancy and childhood and is now in the culminating period of adolescence approaching its long awaited coming of a new age of universal peace and justice This has been the promise given throughout all the major faiths of the world The social fabric of the world is out of balance and through Divine intervention nations will form together in a collective consciousness recognizing the need for a revolutionary shift of spirit to undertake those measures creating lasting harmony and peace Dr M Scott Peck speaks of world views as being religious To move away from war we must distinguish between true religions and false religions true prophets and false prophets and that truth in religion is characterized by inclusivity while falsity in religion can be detected by its one sidedness and failure to integrate the whole History clearly shows that some form of a universal legislative body is not only essential but also inevitable Such a system is not conceived from the mind of mortal man rather it is a Divine System that was set in motion over 6000 years ago The purpose in writing Melchizedek the Temple is to show the story of this evolutionary process a journey through time culminating with the promise of an earthly kingdom an all inclusive world government free from tyranny hate prejudice and war Melchizedek the Temple offers a practical and compelling alternative to antiquated ideas that in reality prevent humankind from achieving what it longs for universal peace and justice It is a message of warning and of promise **University Library Bulletin** Cambridge University Library,1906

Schoch,Robert Aquinas McNally,2005-06-02 The Egyptologist acclaimed for re dating the Great Sphinx at Giza sets his sights on one of the true mysteries of antiquity the Great Pyramid of Giza What is the Great Pyramid of Giza Ask that basic question of a traditional Egyptologist and you get the basic traditional answer a fancy tombstone for a self important pharaoh of the Old Kingdom This Egyptologists argue is the sole finding based on the data and the only deduction supported by science By implication anyone who dissents from this point of view is unscientific and woolly minded a believer in magic and ghosts Indeed some of the unconventional ideas about the Great Pyramid do have a spectacularly fabulous ring to them Yet from beneath the obvious terms of this controversy a deeper more significant question arises how is it that the Great Pyramid exercises such a gripping hold on the human psyche adding cryptic grace to the back of the one dollar bill and framing myriad claims of New Age pyramid power In *Pyramid Quest* Robert M Schoch and Robert Aquinas McNally use the rigorous intellectual analysis of scientific inquiry to investigate what we know about the Great Pyramid and develop a stunning hypothesis This ancient monument is the strongest proof yet that civilization began thousands of years earlier than is generally thought extending far back into a little known time In tracing that story we come to understand not only the Great Pyramid but also our own origins as civilized beings *The Strange Case of "The Angels of Mons"* Richard J.

Bleiler,2015-06-15 World War I began disastrously for the English when the Germans routed them at Mons Belgium on August 23 and 24 1914 On September 29 1914 the Anglo Welsh writer Arthur Machen fictionalized this encounter in a newspaper story claiming that the English were saved by the appearance of angelic bowmen sent by St George But his fiction became accepted as fact The believers notables G K Chesterton Arthur Conan Doyle and C S Lewis along with almost forgotten figures like Harold Begbie Phyllis Campbell and T W H Crosland wrote pamphlets testimonies and poems performed music and created motion pictures attesting to the existence of the guardian angels This history of the Angels of Mons controversy for the first time collects and annotates Machen s work and the responses it inspired most of which have not been available since their publication a century ago Also reprinted for the first time are several of Machen s responses to the believers including *The Angels of Mons Absolutely My Last Word on the Subject* and *The Return of the Angels This Time They Are at Ypres* **The Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1904
