was composed of the following members Lieut Schwatka U S A commanding Dr George F Wilson U S A Surgeon

Topographical Assistant Charles A Homan U S Engineers Topographer and Photographer Sergeant Charles A Gloster U S A Artist Corporal Shircliff U S A in charge of stores Private Roth assistant and Citizen J B McIntosh a miner who had lived in Alaska and was well acquainted with its methods of travel Indians and others were added and discharged from time to time as hereafter noted The main object of the expedition was to acquire such information of the country traversed and its wild inhabitants as would be valuable to the military authorities in the future and as a map would be needful to illustrate such information well the party s efforts were rewarded with making the expedition successful in a geographical sense I had hoped to be able through qualified subordinates to extend our scientific knowledge of the country explored especially in regard to its botany geology natural history etc and although these subjects would not in any event have been adequately discussed in a popular treatise like the present it must be admitted that little was accomplished in these branches The explanation of this is as follows When authority was asked from Congress for a sum of money to make such explorations under military supervision and the request was disapproved by the General of the Army and Secretary of War This disapproval combined with the active opposition of government departments which were assigned to work of the same general character and coupled with the reluctance of Congress to make any appropriations whatever that year was sufficient to kill such an undertaking When the military were withdrawn from Alaska by the President about the year 1878 a paragraph appeared at the end of the President s order stating that no further control would be exercised by the army in Alaska and this proviso was variously interpreted by the friends of the army and its enemies as a humiliation either to the army or to the President according to the private belief of the commentator It was therefore seriously debated whether any military expedition or party sent into that country for any purpose whatever would not be a direct violation of the President s proscriptive order and when it was decided to waive that consideration and send in a party it was considered too much of a responsibility to add any specialists in science with the disapproval of the General and the Secretary hardly dry on the paper The expedition was therefore to avoid being recalled kept as secret as possible and when on May 22d it departed from Portland Oregon upon the Victoria a vessel which had been specially put on the Alaska route only a two or three line notice had gotten into the Oregon papers announcing the fact a notice that in spreading was referred to in print by one government official as a junketing party by another as a prospecting party while another bitterly acknowledged that had he received another day s intimation he could have had the party recalled by the authorities at Washington Thus the little expedition which gave the first complete survey to the third river of our country stole away like a thief in the night and with far less money in its hands to conduct it through its long journey than was afterward appropriated by Congress to publish its report

Along Alaska's Great River Frederick Schwatka, 2019-12-06 In *Along Alaska's Great River* Frederick Schwatka embarks on a vivid exploration of the Alaskan frontier detailing the expedition along the Yukon River Written in a rich narrative style reminiscent of the 19th century adventure literature this work blends meticulous observation with engaging storytelling

Schwatka's prose is infused with a deep appreciation for the landscapes and cultures he encounters providing readers with a comprehensive understanding of the region's natural beauty as well as insights into the indigenous peoples of Alaska. His meticulous documentation of the geography, wildlife, and local customs offers a significant contribution to the genre of travel writing and ethnography during a time when such explorations were pivotal in mapping out the American West. Frederick Schwatka, a passionate explorer and military officer, cultivated his interest in the Alaskan wilderness through previous expeditions. His firsthand experiences coupled with his commitment to documenting the American landscape, particularly during the Gold Rush era, propelled him toward writing this significant work. His background in cartography and public service allowed him to provide invaluable geographical and cultural insights that shaped the narrative of the expedition. Readers seeking a compelling journey through untamed landscapes and rich indigenous cultures will find *Along Alaska's Great River* to be an essential read. Schwatka's authentic voice and vivid descriptions not only enhance the historical understanding of Alaska during this era but also invite modern audiences to reflect on the profound connections between humanity and the natural world. *The Great River* Amazon Steam Navigation Company, 1904

Great River of the West Professor of History William L. Lang, Robert Carriker, 2013-10-10. In the Pacific Northwest, the river of dominance is the Columbia, and in ways both profound and mundane, its history is the history of the region. In *Great River of the West*, historians and anthropologists consider a range of topics about the river, from Indian rock art, Chinook jargon, and ethnobotany on the Columbia to literary and family history, the creation of an engineered river, and the inherent mythic power of place. Since first contact between Euro-Americans and Native peoples during the late 18th century, the river's history has been characterized by dramatic demographic, social, and economic changes. The remarkable set of essays in *Great River of the West* investigate these changes by highlighting important episodes in the history of the river. Readers meet mariners who challenge the Columbia River bar, a family torn by insanity, Native people who preserve fishing traditions, and dam builders who radically change the Columbia. **The Great River** Amazon Steam Navigation Company, 1904
