Althusser and the Traditions of French Marxism William S. Lewis, 2005-01-01 In a careful exposition of French Marxism William Lewis places Althusser and his thought alongside the pre and post war French communist intellectual climate the result is an excellent and unique work Part theoretical treatise on some of Althusser s more complicated and less explored ideas part intellectual history Louis Althusser and the Traditions of French Marxism is in total an important text for philosophy French and francophone studies political thought cultural studies marxist thought and several other disciplines interested in the intellectual life and times of the twentieth century *The Oxford Handbook of European History, 1914-1945* Nicholas Doumanis, 2016-05-05 The period spanning the two World Wars was unquestionably the most catastrophic in Europe s history Despite such undeniably progressive developments as the radical expansion of women s suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a

sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis The Oxford Handbook of European History 1914 1945 reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional continental and global developments Readers will find innovative and stimulating chapters on various political social and economic subjects by some of the leading scholars working on modern European history today

The Home Front David Bilton, 2017-06-30 In the 4th volume of the series *The Home Front* the author looks at the main events that happened at home in Britain and in other countries Allied or enemy as well as the neutral nations during 1917 The text provides an overview of the year and sets out to show the effects of war on the civilian population how it impacted on their daily lives and how they coped with it Each book is international in scope and draws parallels between the warring nations in their experiences As in the previous books the focus is on images in order to best understand how they represented themselves and how their world was portrayed to them and with little censorship bomb damage was freely shown even though it was obvious that the Germans would get hold of the images With the text are over 200 photographs and illustrations that are divided into discrete sections of the civilian experience of the war Readers will be familiar with but a few of the illustrations as most have not been used since they were

taken in 1917 For those on the Home Front 1917 was a year when Total War started to become an actuality The U boat campaign meant that food did not get through resulting in shortages As a result more land was worked and people started an allotment With army s demands for men and material seemingly never ending there were even fewer men about The majority of those still working were involved in some form of war work and during the year they were joined by thousands more women keen to do their bit Women replaced men in many traditional male roles It was a new world 1917 was a year of belt tightening increasing hard work and strain It would once again not be over by Christmas no matter how much they wished
