## Great Whitewater Fiasco:

The Great Whitewater Fiasco Martin Louis Gross,1994 Discusses the Whitewater affair describes what has been learned by investigators and suggests judicial reforms to dilute the influence of special interest groups on elections **Warmonger** Jeremy Kuzmarov,2023-12-01 During the 2016 presidential election many younger voters repudiated Hillary Clinton because of her husband s support for mass incarceration banking deregulation and free trade agreements that led many U S jobs to be shipped overseas Warmonger How Clinton s Malign Foreign Policy Launched the Trajectory from Bush II to Biden shows that Clinton s foreign policy was just as bad as his domestic policy Cultivating an image as a former anti Vietnam War activist to win over the aging hippie set in his early years as president Clinton bombed six countries and by the end of his first term had committed U S troops to 25 separate military operations compared to 17 in Ronald Reagan s two terms Clinton further expanded America s covert empire of overseas surveillance outposts and spying and increased the budget for intelligence spending and the National Endowment for Democracy NED a CIA offshoot which promoted regime change in foreign nations The latter was not surprising because according to CIA operative Cord Meyer Jr Clinton had been recruited into the CIA while a Rhodes Scholar at Oxford and as Governor of Arkansas in the 1980s he had allowed clandestine arms and drug flights to Nicaraguan counter revolutionaries Contras backed by the CIA to be taken from Mena Airport in the western part of the state Rather than being a time of tranquility when the U S failed to pay attention to the gathering storm of terrorism as New York Times columnist David Brooks frames it the Clinton presidency saw rising tensions among the U S China and Russia because of Clinton s malign foreign policies and U S complicity in terrorist acts In so many ways Clinton s presidency set the groundwork for the disasters that were to follow under Bush II Obama Trump and Biden It was Clinton building off of Reagan who first waged a War on Terror ridden with double standards one that adopted terror tactics including extraordinary rendition bombing and the use of drones It was Clinton who cried wolf about human rights abuses and the need to protect beleaguered peoples from genocide to justify military intervention in a post Cold War age And it was Clinton s administration that pressed for regime change in Iraq and raised public alarm about the mythic WMDs all while relying on fancy new military technologies and private military contractors to distance US shady military interventions from the public to limit dissent *America Hijacked* S M Carlson,2019-02-03 All throughout recorded history politicians have taken bribes from outside parties to push certain agendas either profiting themselves or helping others profit through illicit and illegal actions We know this common practice is wrong and yet we all tend to look the other way Before examining these actions should we look at the commonalities Just how did Deep State actors from LBJ to Obama hijack the country that we love How did the Clinton Foundation and the Bush Foundation change the course of American domestic politics and international policy On the surface it may seem as though the course of history has diverted and deviated from the path throughout our time as a nation but who is leading the ship Who is in control And more importantly why What are their motives As ordinary Americans we

are the ones who suffer from the repercussions Let s take a deeper look into the Clintons the Bushes Kennedy Johnson and even Donald Trump himself to see just how the Deep State has impacted the world we love and the country we love Motivated by money and power Deep State actors grasped control of this country long ago and since the election of Donald Trump they ve been grabbing and grasping for any last shred of power that they once held over us Understanding how these actors received their power is critical in understanding why they abused it Through America Hijacked we ll take a critical look into the policies and practices of nearly every administration up until modern day to see just how the Deep State came to be and how they hijacked America for their own personal benefit So where does the issue lie It lies in the fact that when our elected representatives use their status and political power to cover up crimes and purposefully make conscious unlawful decisions that impact the lives of ordinary Americans they hijack our country our principles and everything that we stand for all for the profit and political gains of the few This is the Deep State The Failure of Madison Guaranty Savings and Loan Association and Related Matters United States. Congress. House. Committee on Banking and Financial Services,1996

**Investigation of Whitewater Development Corporation and Related Matters: The inquiry into whether improper conduct occurred regarding the way in which White House Officials handled documents in the office of White House Deputy Counsel Vincent W. Foster, Jr., following his death** United States. Congress. Senate. Special Committee to Investigate Whitewater Development Corporation and Related Matters,1997 **The Rattle and Hiss of the Tin Gods** Evelyn L. Damore,2002-05-27 The Rattle and Hiss of the Tin gods compares the basic tenets of humanism and Christianity and documents the impact secular humanistic thought has had on all aspects of American life from movies to politics It raises the question What role if any does Christianity play in solving our social problems The book also forces the reader to view the drama being played out in the media and the political arena on the issue of separation of church and state in a more thoughtful way Although these questions are answered in every chapter of the book they are best explained when the focus is on the issue of political Christians The author s views are presented in a straightforward manner even as she counters the one sided view that the media has taken over the years belittling a way of life principles and values that so many Americans hold **National Suicide** Martin L. Gross,2009-09-01 From the New York Times bestselling author of The Government Racket A Call for Revolution and The Tax Racket comes a scathing indictment of the dysfunctional federal government and its reckless disregard for the future of our country The government of the United States is a juggernaut of mismanagement malfeasance and incompetence Despite the strong foundation laid down by the founding fathers it is headed to extinction From the Alternative Minimum Tax to Zip Codes New York Times bestselling author Martin L Gross outlines the programs that have exploded financially the laws that had completely unintended consequences and the scams perpetrated by legislators intent upon remaining in office no matter what the cost to the nation and its citizens **Dysfunctional President** Paul Fick,Paul M. Fick,2000-06 Featuring a special chapter on our current Chief Executive s sexual compulsions

the newly updated edition of Fick's book draws a chilling portrait of Clinton as one who often indecisively denies personal responsibility and regularly indulges in self-destructive acts of photos

**Where Did the Party Go?** Jeff Taylor, 2006 Using a twelve-point model of Jeffersonian thought Taylor appraises the competing views of two Midwestern liberals William Jennings Bryan and Hubert Humphrey on economic policy, foreign relations and political reform to demonstrate how the Democratic party lost its place in Middle America Provided by publisher

**Politics on a Human Scale** Jeff Taylor, 2013-09-27 Featuring a foreword by Congressman Glen Browder Politics on a Human Scale examines political decentralization in the United States from the founding of the republic to the present Part of the desirable equilibrium is a sense of proportionality Some sizes, some amounts, some levels are more appropriate than others Decentralism is the best political tool to ensure equilibrium to promote proportionality and to obtain appropriate scale Power distribution should be as wide as possible Government functions should be as close to the people as practicable In this way individual human beings are not swallowed by a monstrous Leviathan Persons are not at the mercy of an impersonal bureaucracy led by the far away few Decentralism gives us politics on a human scale It gives us more democracy within the framework of a republic The longest chapters in the book deal with crucial turning points in U.S. history specifically when decentralists lost the upper hand in the two major political parties Decentralism in our nation runs deep both intellectually and historically It also has considerable popular support Yet today it is a virtual political orphan In Washington neither major political party is serious about dispersing power to lower levels of government or to the people themselves Still there are dissident politicians and political movements that remain committed to the decentralist principle Power needs to be held in check partly through decentralization because power holds a great and dangerous attraction for humans Recognition of this human tendency is the first step in guarding against it and getting back on a better path

Bernard Ryan, 2009 A biography of the New York senator and wife of the former forty-second president of the United States

Bill Clinton Nigel Hamilton, 2007-07-10 A decade and a half after President William Jefferson Clinton first took the oath of office, biographer Nigel Hamilton tells the riveting story of what was possibly the greatest self-reinvention of a president in office in modern times. The Clinton presidency began disastrously, kicking off with the worst transition in living memory and deteriorating through a series of fiascos: from gays in the military to Hillary Clinton's failed health care reform. How Bill Clinton faced up to his failures and refashioned himself in the White House thereafter is an epic, hitherto unwritten story—a story that climaxes with the trouncing of Bob Dole in the landslide presidential election in 1996. Clinton began his second term as the undisputed and tremendously popular leader of the Western world. In vivid prose, Hamilton charts Clinton's dramatic reversal of fortune and his ultimate triumph over himself and his foes. *Bill Clinton: Mastering the Presidency* is a riveting narrative of American politics, an incisive character portrait, and a powerful reminder of what a great president can accomplish. **Postwar America**
