Levin Rojo, 2014-03-10 Long before the Spanish colonizers established it in 1598 the Kingdom of Nuevo M xico had existed as an imaginary world and not the one based on European medieval legend so often said to have driven the Spaniards' ambitions in the New World What the conquistadors sought in the 1500s it seems was what the native Mesoamerican Indians who took part in north going conquest expeditions also sought a return to the Aztecs' mythic land of origin Aztlan Employing long overlooked historical and anthropological evidence Danna A Levin Rojo reveals how ideas these natives held about their own past helped determine where Spanish explorers would go and what they would conquer in the northwest frontier of New Spain present day New Mexico and Arizona *Return to Aztlan* thus remaps an extraordinary century during which for the first time Western minds were seduced by Native American historical memories Levin Rojo recounts a transformation of an abstract geographic space the imaginary

world of Aztlan into a concrete sociopolitical place Drawing on a wide variety of early maps colonial chronicles soldier reports letters and native codices she charts the gradual redefinition of native and Spanish cultural identity and shows that the Spanish saw in Nahua or Aztec civilization an equivalence to their own A deviation in European colonial naming practices provides the first clue that a transformation of Aztlan from imaginary to concrete world was taking place Nuevo Mexico is the only place name from the early colonial period in which Europeans combined the adjective new with an American Indian name With this toponym Spaniards referenced both Mexico Tenochtitlan the indigenous metropolis whose destruction made possible the birth of New Spain itself and Aztlan the ancient Mexicans place of origin Levin Rojo collects additional clues as she systematically documents why and how Spaniards would take up native origin stories and make a return to Aztlan their own goal and in doing so overturns the traditional understanding of Nuevo Mexico as a concept and as a territory A book in the Latin American and Caribbean Arts and Culture initiative supported by the Andrew W Mellon Foundation

*Squirrel Nation* Peter Coates, 2023-09-12 A wide ranging meditation on belonging and citizenship through the story of

two squirrel species in Britain Squirrel Nation is a history of Britain's two species of squirrel over the past two hundred years the much loved though rare red squirrel and the less desirable though more populous grey squirrel A common resident of British gardens and parks the grey squirrel was introduced from North America in the late nineteenth century and remains something of a foreign interloper By examining this species rapid spread across Britain Peter Coates explores timely issues of belonging nationalism and citizenship in Britain today Ultimately though people are swift to draw distinctions between British squirrels and squirrels in Britain Squirrel Nation shows that Britain's two squirrel species have much more in common than at first appears

**Body and Tradition in Nineteenth-Century France** William G. Pooley, 2019-12-05 The moorlands of Gascony are often considered one of the most dramatic examples of top down rural modernization in nineteenth century Europe From an area of open moors they were transformed in one generation into the largest man made forest in Europe Body and Tradition in Nineteenth Century France explores how these changes were experienced and negotiated by the people who lived there drawing on the immense ethnographic archive of Félix Arnaud 1844-1921 The study places the songs stories and everyday speech that Arnaud collected as well as the photographs he took in the everyday lives of agricultural workers and artisans It argues that the changes were understood as a gradual revolution in bodily experiences as men and women forged new working habits new sexual relations and new ways of conceiving of their own bodies Rather than merely presenting a story of top down reform this is an account of the flexibility and creativity of the cultural traditions of the working population William G Pooley tells the story of the folklorist Arnaud and the men and women whose cultural

traditions he recorded then uncovers the work carried out by Arnaudin to explore everyday speech about the body stories of werewolves and shapeshifters tales of animal cunning and exploitation and songs about love and courtship The volume focuses on the lives of a handful of the most talented storytellers and singers Arnaudin encountered showing how their cultural choices reflect wider patterns of behaviour in the region and across rural Europe *The Mysterious Death of Mary Rogers* Amy Gilman Srebnick, 1995 Srebnick uses the famous unsolved murder of a Manhattan woman in 1841 as a window into urban culture in the mid nineteenth century *Sartorial Practices and Social Order in Eighteenth-Century Sweden* Mikael Alm, 2021-07-26 The interplay between clothes and social order in early modern societies is well known Differences in dress and hierarchies of appearances coincided with and structured social hierarchies and notions of difference However clothes did not merely reproduce set social patterns They were agents of change actively used by individuals and groups to make claims and transgress formal boundaries This was not least the case for the revolutionary decades of the late eighteenth century the period in focus of this book Unlike previous studies on sumptuary laws and other legal actions taken by governments and formal power holders this book offers a broader and more everyday perspective on late eighteenth century sartorial discourse In 1773 there was a publicly announced prize competition on the advantages and disadvantages of a national dress in Sweden Departing from the submitted replies the study opens a window onto the sartorial world Several fields of cultural history are brought together social culture in terms of order hierarchies and notions of difference sartorial culture with contemporary views on dress and moral aspects of sartorial practices and visual culture in terms of sartorial means of making a difference and the emphasis on the necessity of a legible social order
