*The Great Diamond Hoax and Other Stirring Incidents in the Life of Asbury Harpending* Asbury Harpending, 2020-09-28  
My father was one of the largest landed proprietors of Kentucky in the southwestern section of the State That was still on the frontier of the Far West Beyond stretched the land of enchantment and adventure the plains the mountains the unbroken solitudes the wild Indians the buffaloes and the Golden State on the shore of the Pacific Youngsters whose minds are occupied today with baseball and tennis and who still retain a lingering love for taffy sixty years ago on the frontier were dreaming of wild adventures that were nearly always realized to some extent We lived on the border line where the onward wave of emigration broke and scattered over the vast vacancies of the West and it is hardly saying too much to assert that fully seven boys in ten were caught and carried forward with the flood before they had gone very far in their teens For myself I simply gave up to the spirit of the times At the age of fifteen I ran away from college to join an aggregation of young gentlemen but little older than myself who enlisted under the banner of General Walker the filibuster The objective was the conquest of Nicaragua The Walker expedition sailed to its destination and what followed is a matter of well known history But for my companions and myself numbering 120 in all it ended in a humiliating disaster For as we sailed down the Mississippi River the long arm of Uncle Sam reached out and caught us like a bunch of truant kids I managed to elude my captors and after various wanderings and strange experience made my way to the paternal home in a condition that made the Prodigal Son look like 30 cents That didn't abate the wandering fever in the slightest and in order that I might not commit myself to another Walker expedition my father consented that I should try my luck in California and I started with his blessing and what seemed to me a liberal grub stake I had just turned sixteen

*The Great Diamond Hoax of 1872* Charles River Editors, 2016-09-17 Includes pictures Includes contemporary accounts of the hoax written by victims and newspapers Includes online resources and a bibliography for further reading Includes a table of contents The most gigantic and barefaced swindle of the age The San Francisco Chronicle's description of the Great Diamond Hoax of 1872 It's only natural that people have always been attracted to get rich quick schemes and in spite of their best efforts almost everyone has been tempted at one time or another by a promise of riches that can be obtained with little or no work The attraction is even stronger during periods when ordinary people have indeed struck it rich particularly the California Gold Rush and the Yukon Gold Rush in the mid 19th century and late 19th century respectively Having heard stories of men who went west with nothing and returned as millionaires people were more inclined than ever before to believe that there's gold or silver or diamonds in them there hills It would take decades of research to fully understand that most of the miners in the West did not strike it rich and that those who fared best were mining companies and those who sold goods to miners But regardless fraudsters also understood that the best way to make a profit off the gold rush was to fleece the people trying to find the gold and before long a large number of shysters hoped to make their own pot of riches in a far less honorable way As Patricia O

Toole author of Money and Morals in America A History noted I see the Diamond Hoax as one in a long line of scams made possible by the fact that the United States truly was a land of opportunity Many a legitimate fortune seemed to be made overnight so it was particularly easy for a con artist to convince a gullible American that he too could wake up a millionaire There were many schemes carried out in the 19th century and even professional con men like Soapy Smith but perhaps no fraud in the region was as infamous as the Great Diamond Hoax of 1872 It began with a major legitimate diamond strike in South Africa From there the fever quickly spread to America spurred on by tall tales told by trappers from Jim Bridger to Kit Carson of diamonds and other precious gems that could be picked up by the side of the road as one walked through the deserts of the West Most of these men told these stories as harmless tall tales for the amusement of their audiences but there were a few that had bigger and at least in the own minds better ideas They decided to use the rumors to line their own pockets That is where two cousins entered the picture With the help of a friend cousins Philip Arnold and John Slack managed to take otherwise sensible people including highly successful businessmen and politicians like former Civil War General George McClellan for nearly half a million dollars They accomplished this by playing the long game reinvesting initial sums of money to salt the ground they claimed was rich in minerals with enough diamonds and other gemstones to convince a few respected experts that they really had struck it big They then sold shares in the land to investors before skipping town with their ill gotten gains In the end the scam was only discovered because of a coincidental meeting on a train one that sent a renowned geologist back to their claim where he quickly determined it to be a fraud Of course by then the cousins had their money and thanks to the embarrassment that most of their victims felt Arnold and Slack were able to keep the money There were hearings and lawsuits both in the United States and England but in the end almost no one got back any of the money they had invested under false pretenses The Great Diamond Hoax of 1872 The History of 19th Century America s Most Notorious Fraud chronicles the story of one of the most infamous scams in the history of the United States

Not content with simply swindling some of the country's brightest luminaries, politicians, and high-profile celebrities of the day, Arnold did so in grand style, making himself and his story the subject of nationwide headlines. *American El Dorado* is the true story of how Philip Arnold and John Slack, cousins from Kentucky, convinced some of America's most notable citizens to invest in their discovery of an untouched field of precious stones in an unspecified Western location. So convincing was the scheme that even America's most famous jeweler, Charles Lewis Tiffany, was taken in. The con game made the pair rich until the fraud was eventually revealed. *Barren Lands* Kevin Krajick, 2016-02-02 First published in 2001, *Barren Lands* is the classic true story of the men who sought and found a great diamond mine on the last frontier of the far north. From a bloody 18th-century trek across the Canadian tundra to the daunting natural forces facing protagonists Chuck Fipke and Stewart Blusson as they struggle against the mighty DeBeers cartel, this is the definitive account of one of the world's great mineral discoveries. Combining geology, science, history, raw nature, and high intrigue, it is also a tale of supreme adventure, taking the reader into a magical and now fast-vanishing wild landscape. Now in a newly revised and updated edition. *Treasure and Empire in the Civil War* Neil P. Chatelain, 2024-03-21 Across North America's periphery, unknown and overlooked Civil War campaigns were waged over whether the United States or Confederacy would dominate lands, mines, and seaborne transportation networks of North America's mineral wealth. The U.S. needed this wealth to stabilize their wartime economy, while the Confederacy sought to expand their own treasury. Confederate armies advanced to seize the West and its gold and silver reserves, while warships steamed to intercept Panama route ships transporting bullion from California to Panama to New York. United States forces responded by expelling Confederate incursions and solidified territorial control by combating
