**The Great Heroin Coup** Henrik Krüger, 1981-08-01      **Deep Politics and the Death of JFK** Peter Dale Scott, 1993 Meticulously documented investigation uncovering the political secrets surrounding John F Kennedy s assassination      Opium's Orphans P. E. Caquet, 2022-07-06 Upending all we know about the war on drugs a history of the anti narcotics movement s origins evolution and questionable effectiveness *Opium's Orphans* is the first full history of drug prohibition and the war on drugs A no holds barred but balanced account it shows that drug suppression was born of historical accident not rational design The war on drugs did not originate in Europe or the United States and even less with President Nixon but in China Two Opium Wars followed by Western attempts to atone for them gave birth to an anti narcotics order that has come to span the globe But has the war on drugs succeeded As opioid deaths and cartel violence run rampant contestation becomes more vocal and marijuana is slated for legalization *Opium's Orphans* proposes that it is time to go back to the drawing board

**Strength of the Pack** Douglas Valentine, 2010-11-15 Through interviews with former narcotics agents politicians and bureaucrats this expos documents previously unknown aspects of the history of federal drug law enforcement from the formation of the Bureau of Narcotics and Dangerous Drugs and the creation of the Drug Enforcement Administration DEA up to the present day The narrative examines how successive administrations expanded federal drug law enforcement operations at home and abroad investigates how the CIA comprised the war on drugs analyzes the Reagan Bush and Clinton administrations failed attempts to alter the DEA s course and traces the agency s evolution into its final and current stage of narco terrorism

**The Darkest Sides of Politics, II** Jeffrey M. Bale, 2017-10-04 This book examines a wide array of phenomena that arguably constitute the most noxious extreme terrifying murderous secretive authoritarian and or anti democratic aspects of national and international politics Scholars should not ignore these dark sides

of politics however unpleasant they may be since they influence the world in a multitude of harmful ways The second volume in this two volume collection focuses primarily on assorted religious extremists including apocalyptic millenarian cults Islamists and jihadist terrorist networks as well as CBRN chemical biological radiological and nuclear terrorism and the supposedly new nexus between organized criminal and extremist groups employing terrorist operational techniques A range of global case studies are included most of which focus on the lesser known activities of certain religious extremist milieus This collection should prove to be essential reading for students and researchers interested in understanding seemingly arcane but nonetheless important dimensions of recent historical and contemporary politics HAUNEBU: THE SECRET FILES David Childress,2020-01-01

David Childress popular author and star of the History Channel show Ancient Aliens brings us the incredible tale of the German flying disk known as the Haunebu Although rumors of German flying disks have been around since the late years of WWII it was not until 1989 when a German researcher named Ralf Etzl living in London received an anonymous packet of photographs and documents concerning the planning and development of at least three types of unusual craft which we would classify today as UFOs or flying saucers Etzl went on to make several television documentaries based on the material in the packet and released most of the documents and photos to researchers in Austria and other parts of Europe What the Ralf Etzl document dump shows us is what many have suspected for a long time that WWII did not end in the manner in which we have been told and a remnant of the Nazi military particularly the SS continued to operate flying saucers and submarines around the world in the decades after the end of the war This activity involving a flying saucer known as the Haunebu was particularly notable in South America but it ultimately involved all the continents of the world including Antarctica Join Childress as he shows us the secret files involving the Haunebu the Vril craft the Andromeda craft and others Includes a 16 page color section Over 120 photographs and diagrams **Hitmen** Scott M.

Deitche,2022-06-15 From the author of the star reviewed Garden State Gangland comes an in depth expos on East Harlem s notorious Purple Gang whose murderous exploits became a media obsession and Mafia lynchpin In the late 1970s a string of seemingly unconnected murders had Harlem police and federal authorities at their wits end until they realized several commonalities The victims were all either Mafia members or potential witnesses of Mafia activity and they d all been shot from 22 pistols traced back to a single private sale in Florida From these details the FBI and police were able to build a profile of a rogue sect of Mafia hitmen known as the East Harlem Purple Gang Starting on the fringes of Mafia families the Purple Gang members became indispensable and installed members in the highest ranks of the Genovese Bonanno and Lucchese families Often serving as freelance hitmen kidnappers and drug traffickers the Purple Gang s exploits quickly crossed into mythology as media outlets scrambled to keep up with new murders and the law s crusade to bring the gang members to justice Sifting through the mystery and mythos author Scott M Deitche brings readers into Harlem s gritty streets to experience the Purple Gang s reign of terror the investigators who tried to bring them down and the gang members

who either suffered violent ends or are still at large today      **Compassionate Conservatism by Dummys** Marley Roberts,2000 Last Gasp is proud to present this revealing collection of quotes by and about presidential hopeful George W Bush Topics include his elitist background his intelligence or lack of it his wealth and the questionable ways in which it was created the death penalty and much more What you see with George W Bush is not what you get What you get is the family business      *Murder by Madness 9/11* Rachel Verdon,2012-02-02 Murder By Madness 9 11 is not just the history of the most notorious attack upon American shores it is a banking caper Just who are the financiers of terrorism As always follow the money      **The Final Empire** Wm. H. Kötke,2007-11 In spite of its tough message there is much compassion and humanity in The Final Empire Right away as you begin to read this work you sense increasingly the grand perspective in K tke s words He is not speaking of anarchy He is offering vital common sense It s just that his meaning is so unavoidably political And so much against what we have been taught all our lives The materialistic values of civilization teach us that the accumulation of wealth is progress The material wealth of the civilization is derived from the death of the earth the soils the forests the fish stocks the free resources of flora and fauna The ultimate end of this is for all human species to live in giant parasitical cities of cement and metal while surrounded by deserts of exhausted soils The simple polar opposites are the richness and wealth of the natural life of earth versus the material wealth of people living out their lives in artificial environments This amounts to a direct challenge to humankind A demand for radical change A re envisioning of our part in the community of life and the precepts of individuality And Mr K tke provides a strong argument for this case He traces the environmental scars of civilization through the ages Empire after empire desertification of the top soil winds its way around the globe in an erosive helix from China to India to Mesopotamia to Italy to North America As radical as it may seem at first glance The Final Empire is a necessary and sensible primer for the recovery of the planet It blends a critical statistical analysis of our deteriorating environment with a positivism of hope for a post empire age and a new whole human relation to the living community of Earth Dan Armstrong Author of the Novels Prairie Fire and Taming the Dragon      **Covert Wars and Breakaway Civilizations** Joseph P. Farrell,2020-12-05 Oxford educated historian Joseph P Farrell really delivers in this latest addition to his best selling book series on suppressed technology Nazi survival and postwar hidden conflicts His customary meticulous research and sharp analysis blow the lid off of a worldwide web of nefarious financial and technological control few people even suspect exists Farrell delves into the creation of a breakaway civilization by the Nazis in South America and other parts of the world He discusses the advanced technology that they took with them at the end of World War II and the psychological war that they waged for decades against America and NATO He shows how the breakaway civilization has created a huge system of hidden finance with the involvement of the Vatican Bank among others and how NATO established a large covert warfare network and political slush fund He investigates the secret space programs currently sponsored by the breakaway civilization and the current militaries in control of planet Earth Farrell includes a fascinating discussion of emulational

technologies those that can manipulate acts of god nature like earthquakes and storms from the standpoint of the culture of full spectrum dominance and the culture of plausible deniability yes there are plans for mass destruction that can never be traced back to their real source Farrell also discusses the historical origin of the breakaway civilization with the continuing airship mystery incredibly bold counterfeiting operations and the nexus of spy satellites nuclear weapons and UFOs He includes plenty of astounding accounts documents and speculation on the amazing alternative history of hidden conflicts secret super finance and technology

**Poetry and Terror** Peter Dale Scott, 2018-08-15 A study at many levels of Scott s long poem Coming to Jakarta a book length response to a midlife crisis triggered in part by the author s initial inability to share his knowledge and horror about American involvement in the great Indonesian massacre of 1965 Interviews with Ng supply fuller information about the poem s discussions of a how this psychological trauma led to an explorations of violence in American society and then after a key recognition in the poet himself b the poem s look at east west relations through the lens of the yin yang spiritual secular doubleness of the human condition c how the process of writing the poem led to the recovery of memories too threatening at first to be retained by his normal presentational self and d the mystery of right action guided by the Bhagavad Gita and the maxim in the Gospel of Thomas that If you bring forth what is within you what you bring forth will save you Led by the interviews to greater self awareness Scott then analyses his poem as also an elegy not just for the dead in Indonesia but for the passing of the Sixties era when so many of us imagined that a Movement might achieve major changes for a better America Subsequent chapters develop how human doubleness can lead to an inner tension between the needs of politics and the needs of poetry and how some poetry can serve as a non violent higher politics contributing to the evolution of human culture and thus our second nature The book also reproduces a Scott prose essay inspired by the poem on the U S involvement in and support for the 1965 massacre It then discusses how this essay was translated into Indonesian and officially banned by the Indonesian dictatorship and how ultimately it and the poem helped inspire the ground breaking films of Josh Oppenheimer that have led to the first official discussions in Indonesia of what happened in 1965

**Black Terror White Soldiers** David Livingstone, 2013-06-16 Far too ignorant of the histories of the

rest of the world being aware of only the accomplishments of Greece Rome and Europe Westerners have been made to believe that their societies represent the most superior examples of civilization However the Western value system stems from a misconception that as in nature human society too is evolving The idea derives from the hidden influence of secret societies who followed the belief in spiritual evolution of the Kabbalah which taught that history would attain its fulfillment when man would become God and make his own laws Therefore the infamous Illuminati gave its name to the Enlightenment of the eighteenth century which claimed that human progress must abandon superstition meaning Christianity in favor of reason Thus the Illuminati succeeded in bringing about the French and American revolutions which instituted the separation of Church and State and from that point forward the Western values of Humanism seen to include secularism human rights democracy and capitalism have been celebrated as the culmination of centuries of human intellectual evolution This is the basis of the propaganda which has been used to foster a Clash of Civilizations where the Islamic world is presented as stubbornly adhering to the anachronistic idea of theocracy Where once the spread of Christianity and civilizing the world were used as pretexts for colonization today a new White Man s Burden makes use of human rights and democracy to justify imperial aggression However because after centuries of decline the Islamic world is incapable of mobilizing a defense the Western powers as part of their age old strategy of Divide and Conquer have fostered the rise of Islamic fundamentalism to both serve as agent provocateurs and to malign the image of Islam These sects known to scholars as Revivalists opposed the traditions of classical Islamic scholarship in order to create the opportunity to rewrite the laws of the religion to better serve their sponsors Thus were created the Wahhabi and Salafi sects of Islam from which were derived the Muslim Brotherhood which has been in the service of the West ever since But the story of the development of these Islamic sects involves the bizarre doctrines and hidden networks of occult secret societies being based on a Rosicrucian myth of Egyptian Freemasonry which see the Muslim radicals as inheritors of an ancient mystery tradition of the Middle East which was passed on to the Knights Templar during the Crusades thus forming the foundation of the legends of the Holy Grail These beliefs would not only form the cause for the association of Western intelligence agencies with Islamic fundamentalists but would fundamentally shape much of twentieth century history

**American War Machine** Peter Dale Scott, 2010-11-16 This provocative thoroughly researched book explores the covert aspects of U.S. foreign policy. Prominent political analyst Peter Dale Scott marshals compelling evidence to expose the extensive growth of sanctioned but illicit violence in politics and state affairs especially when related to America's long standing involvement with the global drug traffic. Beginning with Thailand in the 1950s Americans have become inured to the CIA's alliances with drug traffickers and their bankers to install and sustain right wing governments. The pattern has repeated itself in Laos Vietnam Italy Mexico Thailand Nigeria Venezuela Colombia Peru Chile Panama Honduras Turkey Pakistan and now Afghanistan to name only those countries dealt with in this book. Scott shows that the relationship of U.S. intelligence operators and agencies to the global drug traffic and to other international criminal networks deserves greater attention in the debate over the U.S. presence in Afghanistan. To date America's government and policies have done more to foster than to curtail the drug trade. The so called war on terror and in particular the war in Afghanistan constitutes only the latest chapter in this disturbing story.

Last Resort Beyond Last Resort Walter Herbst, 2025-04-29 John F. Kennedy was an embattled president. He was consistently at odds with the Joint Chiefs the CIA the radical right and Fascist groups in America and Western Europe who considered him too weak to contain the spread of communism. After the Cuban Missile Crisis the animosity for the young President grew as JFK cracked down on right wing Cuban exile groups in America by preventing them from running sabotage raids against the Cuban mainland. Confusion reigned for at the same time Robert Kennedy was putting together a coalition of left wing Cuban exiles to launch a second invasion of Cuba at the end of 1963. Meanwhile a right wing Cuban exile group operating independently of the Kennedys was looking to assassinate JFK which they believed would be a catalyst to compel the United States to invade Cuba with its military in retaliation. The plan could have worked because of Lee Harvey Oswald. He was a Marxist and Castro supporter who had defected to the Soviet Union in 1959 had renounced his citizenship and had revealed military secrets to the Russians. He allegedly tried to shoot right wing General Edwin Walker who was a member of the pro Castro Fair Play for Cuba Committee and in the summer of 1963 he was arrested in New Orleans for handing out pro Castro literature in public. He traveled to Mexico City and tried to reach Havana two months before the JFK assassination. He wrote a letter to the Russian Embassy in Washington D.C. upon his return saying

he used an alias while he was in Mexico He was measured as 5 9 tall during his autopsy which was two inches shorter than when he left the Marines four years before All this made him the perfect patsy to be used to justify a second invasion of Cuba So why didn t the United States invade Cuba after the JFK assassination when they had the opportunity to do so once and for all The answer to that question is West Berlin the gateway to Western Europe and a city President Kennedy was determined to protect at all costs even if it meant sacrificing Cuba to the Communists And a second invasion of Cuba placed Berlin in jeopardy so it could not be allowed to happen Another group came together in the spring of 1963 made up of CIA right wing Cold War veterans like Allen Dulles James Angleton Henry Hecksher William Harvey and Tracy Barnes These men had fought the Nazis during World War but came to consider them the lesser of two evils compared to the Soviet Union when the war was over And they were hell bent on keeping communism out of Europe by any means possible For over a decade leading up to JFK s Presidency they had collaborated with ex Nazis European Monarchists and French military Fascists in the war against communism to keep Europe safe So it was not surprising that they all came together once again to assassinate President Kennedy not to justify an invasion of Cuba but to prevent that from occurring They knew that if a second invasion of Cuba were to happen the Soviets would take West Berlin which would almost certainly have led to World War III So as a Last Resort Beyond Last Resort this group inevitably concluded that the only choice they had was to remove JFK from power before it was too late And mixed up in the middle of it all was Lee Harvey Oswald      **Fleshing Out Skull & Bones** Kris Millegan,2004-10-01 This chronicle of espionage drug smuggling and elitism in Yale University s Skull Dr Ralph Bunch professor emeritus of political science at Portland State University Webster Griffin Tarpley and Anton Chaitkin authors and historians A complete list of members including George Bush George W Bush and John F Kerry and reprints of rare magazine articles are included
