Jews and Germans in Eastern Europe Tobias Grill, 2018-09-24 For many centuries Jews and Germans were economically and culturally of significant importance in East Central and Eastern Europe Since both groups had a very similar background of origin Central Europe and spoke languages which are related to each other German Yiddish the question arises to what extent Jews and Germans in Eastern Europe share common historical developments and experiences This volume aims to explore not only entanglements and interdependences of Jews and Germans in Eastern Europe from the late middle ages to the 20th century but also comparative aspects of these two communities Moreover the perception of Jews as Germans in this region is also discussed in detail

A Social and Economic History of Central European Jewry Yehuda Don, 2021-11-29 This volume is a pioneering effort to examine the social demographic and economic changes that befell the Jewish communities of Central Europe after the dissolution of the Habsburg Empire It consists of studies researched and written especially for this volume by historians sociologists and economists all specialists in modern Central European Jewish affairs The era of national rivalry economic crises and political confusion between the two World Wars has been preceded by a pre World War I epoch of Jewish emancipation and assimilation During that period Jewish minorities had been harbored from violent anti-Semitism by the Empire and they became torchbearers of industrialization and modernization This common destiny encouraged certain common characteristics in the three major

components of the Empire Austria Hungary and the Czech territories despite the very different origins of the well over one million Jews in those three lands The disintegration of the Habsburg Empire created three small economically marginal national states inimical to each other and at liberty to create their own policies toward Jews in accord with the preferences of their respective ruling classes Active and openly discriminatory anti Semitic measures resulted in Austria and Hungary The only liberal heir country of the Empire was Czechoslovakia although simmering anti Semitism and below surface discrimination were widespread in Slovakia While one might have expected Jewish communities to return to their pre World War I tendencies to go their independent ways after the introduction of these policies social and economic patterns which had evolved in the Habsburg era persisted until the Anschluss in Austria German occupation in Czechoslovakia and World War II in Hungary Studies in this volume attest to continuing similarities among the three Jewish communities testifying to the depth of the Empire s long lasting impact on the behavior of Jews in Central Europe

Everyday Zionism in East-Central Europe Jan Rybak, 2021-08-05 Everyday Zionism examines Zionist activism in East Central Europe during the years of war occupation revolution the collapse of empires and the formation of nation states in the years 1914 to 1920 Against the backdrop of the Great War its brutal aftermath and consequent violence the day to day encounters between Zionist activists and the Jewish communities in the region gave the movement credibility allowed it to win support and to establish itself as a leading force in Jewish political and social life for decades to come Through activists efforts Zionism came to mean something new Rather than being concerned with debates over Jewish nationhood and pioneering efforts in Palestine it came to be about aiding starving populations organizing soup kitchens establishing orphanages schools kindergartens and hospitals negotiating with the authorities and leading self defence against pogroms Through this engagement Zionism evolved into a mass movement that attracted and inspired tens of thousands of Jews throughout the region Everyday Zionism approaches the major European events of the period from the dual perspectives of Jewish communities and the Zionist activists on the ground demonstrating how war revolution empire and nation held very different meanings for people depending on their local circumstances Based on extensive archival research the study shows how during the war and its aftermath East Central Europe saw a large scale nation building project by Zionist activists who fought for and led their communities to shape for them a national future
