year nine million people are diagnosed with tuberculosis every day over 13 400 people are infected with AIDs and every thirty seconds malaria kills a child For most of the world critical medications that treat these deadly diseases are scarce costly and growing obsolete as access to first line drugs remains out of reach and resistance rates rise Rather than focusing research and development on creating affordable medicines for these deadly global diseases pharmaceutical companies instead invest in commercially lucrative products for more affluent customers Nicole Hassoun argues that everyone has a human right to health and to access to essential medicines and she proposes the Global Health Impact global health impact org new system as a means to guarantee those rights Her proposal directly addresses the pharmaceutical industry s role it rates pharmaceutical companies based on their medicines impact on improving global health rewarding highly rated medicines with a Global Health Impact label Global Health Impact has three parts The first makes the case for a human right to health and specifically access to essential medicines Hassoun defends the argument against recent criticism of these proposed rights The second section develops the Global Health Impact proposal in detail The final section explores the proposal s potential applications and effects considering the empirical evidence that supports it and comparing it to similar ethical labels Through a thoughtful and interdisciplinary approach to creating new labeling investment and licensing strategies Global Health Impact demands an unwavering commitment to global justice and corporate responsibility

Mulnix,2015-05-25 Happy Lives Good Lives offers a thorough introduction to a variety of perspectives on happiness Among the questions at issue Is happiness only a state of mind or is it something more Is it the same for everyone Is it under our control and if so to what extent Can we be mistaken about whether we are happy What role if any does happiness play in living a good life Is it sometimes morally wrong to pursue happiness Should governments promote happiness through public policy Asking and answering these questions is worthwhile not only as an intellectual exercise but also as a means of gaining practical insight into how best to pursue a happy life **A Minimally Good Life** Nicole Hassoun,2024-07-12 What do we owe to each other simply out of respect or concern for our common humanity What can we claim The United Nations Sustainable Development Goals and the Universal Declaration of Human Rights as well as many states constitutions embody competing answers to these questions

Different accounts of what we owe to others out of concern for our common humanity ground divergent accounts of the basic minimum just societies and the international community must help people secure A Minimally Good Life argues that concern for our common humanity requires helping others live minimally good lives when doing so does not require sacrificing our own ability to live well enough This it suggests provides a unified answer to the question of what we must give to and can demand from others as a basic minimum More precisely Nicole Hassoun argues that people must obtain the things that let them secure the relationships pleasures knowledge appreciation worthwhile activities and other things that a reasonable and caring person free from coercion and constraint would set as a minimal standard of justifiable aspiration That is as reasonable caring free people we should put ourselves into each other s shoes and think about what we need to live well enough as each person Hassoun makes this case by engaging with the main competitors in the literature those that offer different accounts of the basic minimum and the limits of our obligations She then defends a new way of helping people in present and future generations reach the sufficiency threshold and of responding to apparent tragedy when helping everyone seems impossible

*Philosophical Foundation of Human Rights* Paul Tiedemann,2020-06-27 This textbook presents a range of classical philosophical approaches in order to show that they are unsuitable as a foundation for human rights Only the conception of human dignity based on the Kantian distinction between price and dignity can provide a sufficient basis The derivation of human rights from the principle of human dignity allows us to identify the most crucial characteristic of human rights namely the protection of personhood This in turn makes it possible 1 to distinguish between real moral human rights and spurious ones 2 to assess the scope of protection for many codified human rights according to the criteria of core and yard and 3 offers a point of departure for creating new unwritten human rights This philosophical basis supports a substantial reassessment of the case law on human rights which will ultimately allow us to improve it with regard to legal certainty clarity and cogency The textbook is primarily intended for advanced law students who are interested in a deeper understanding of human rights It is also suitable for humanities students and for anyone in the political or social arena whose work involves human rights and their enforcement Each chapter is divided into four parts Abstracts Lecture Recommended

of the debate from a sometimes overly narrow focus. The book is of interest not only to political philosophers but also to international lawyers, diplomats, representatives of civil society, human rights activists, and specialists in development economics.
