Great Reading From Life:

Read for Your Life Pat Williams, Peggy Matthews Rose, 2007-06 With a deluge of electronic conveniences and cable channels well into the hundreds it's no wonder that many people aren't sitting down with a good old fashioned book more often. Motivational speaker and lifelong reader Pat Williams is changing all of that in this energetic book *Read for Your Life*. With anecdotes and interviews from some of today's greatest icons in business, sports, and academia including Phoenix Suns star Steve Nash, voted NBA's Most Valuable Player in 2005-06, Yankees star Alex Rodriguez, Grant Hill of the Orlando Magic, and former New York City mayor Rudy Giuliani, *Read for Your Life* will help readers discover how reading can enhance their personal and professional thinking. *Read for Your Life* features 11 ways to transform one's life through books. Publisher

How to Get a Good Reading from a Psychic Medium Carole Lynne, 2025-09-12 *How to Get a Good Reading from a Psychic Medium* was born from Carole Lynne's desire to help her own potential clients, plus the thousands of people interested in contacting those who have gone to live in the world of spirit, know what to expect from a reading with a medium. For the grieving, the curious, the skeptical, but desperate, Lynne offers straightforward, plain talk about what mediums can and can't do, and how to prepare to get the most out of an encounter with the world of spirit. Chapters on: The great and not so great reasons to see a medium; Where to find a good medium; and How long is a reading and what does it cost, explain the very practical elements of dealing with a spirit communicator. This is not a scientific book, writes Lynne. I'm not going to try to prove anything to you. But she does dispense invaluable advice about getting the most out of working with a medium. What questions should you ask? When should you listen? When should you talk? What can you do with the information you get? Answers to all these questions, and so many more. There is no other place where readers will find such useful advice about how to evaluate a reading and what to do with the evidence and advice they might receive. Unlike many, Lynne doesn't set herself up as a guru and advises against treating any reading from any medium that way. Her wise counsel: Trust yourself. You are the one who knows best what this reading means in your life.

Rehabilitation David E. Tupper, Keith D. Cicerone, 2012-12-06 For a period of some fifteen years following completion of my internship training in clinical psychology 1950-1951 at the Washington University School of Medicine and my concurrent successful navigation through that school's neuroanatomy course, clinical work in neuropsychology for me and the psychologists of my generation consisted almost exclusively of our trying to help our physician colleagues differentiate patients with neurologic disorders from those with psychiatric disorders. In time, experience led all of us from the several disciplines involved in this enterprise to the conclusion that the crude diagnostic techniques available to us circa 1945-1965 had garnered little valid information on which to base such complex differential diagnostic decisions. It now is gratifying to look back and review the remarkable progress that has occurred in the field of clinical neuropsychology in the four decades since I was a graduate student. In the late 1940s, such pioneers as Ward Halstead, Alexander Luria, George Yacorzynski, Hans Lukas Teuber, and Arthur Benton already were involved in clinical studies that by the late 1960s would markedly have improved the quality of clinical practice. However, the only psychological tests that the clinical psychologist of my immediate post-Second World War generation had as aids for the diagnosis of neurologically based conditions involving cognitive deficit were such old standbys as the Wechsler Bellevue, Rorschach, Draw-A-Person, Bender Gestalt, and Graham Kendall Memory for Designs Test.
