**The Great Revolutions and the Civilizations of Modernity** Shmuel N. Eisenstadt, 2006-02-01 This book is the analysis of the civilizational and historical context of the development of the Great Modern Revolutions their relations to modernity to the civilization of modernity and to the development of multiple modernities and the fate of revolutionary symbolism and dynamics in modern regimes in the continually changing civilization of modernity its dynamics and tribulations

Handbook of Revolutions in the 21st Century Jack A. Goldstone, Leonid Grinin, Andrey Korotayev, 2022-05-19 The 21st century has witnessed a considerable and increasing number of political revolutions around the world This contradicts the popular belief of many experts in the 1970s that revolutions occurred mainly in monarchies and empires Instead the revolutions of this century have several new characteristics which call for a renewed analysis of the subject This handbook offers a comparative perspective on the new wave of revolutions of the last decade Presenting case studies on the color revolutions the Arab revolutions of 2010 2011 and the global wave of revolutions in 2013 2018 that spanned regions ranging from Africa to the Caucasus it offers a better understanding of the varied forms features and historical backgrounds of revolutions as well as their causes Accordingly it highlights recent revolutions in their historical and world systems contexts The handbook is divided into seven parts the first of which examines the history of views on revolution and important aspects of the theory of revolution The second part analyzes revolutions within long term historical trends and in their world system contexts In turn the third part explores specific major revolutionary waves in history The fourth part analyzes the first revolutionary wave of the 21st century 2000 2009 the so called color revolutions while the fifth discusses the second wave the Arab Spring 2010 2013 as an important turning point The sixth part is dedicated to analyzing revolutions and revolutionary movements beyond the Arab Spring and some revolutionary events from the third wave that began in 2018 The seventh and final part offers forecasts on the future of revolutions Given its scope the book will appeal to scholars and students from various disciplines interested in historical trends sociopolitical change contentious politics social movements and revolutionary processes involving both nonviolent campaigns and political violence Once again this volume demonstrates the kind of open minded systematic analysis that the field of revolutionary studies requires Prof George Lawson Department of International Relations Australian National University Canberra

*Revolutions* Paul Caringella, Glenn Hughes, 2013-02-21 *Revolutions Finished and Unfinished From Primal to Final* is an important philosophical contribution to the study of revolution It not only makes new contributions to the study of particular revolutions but to developing a philosophy of revolution itself Many of the contributors have been

inspired by the philosophical approaches of Eric Voegelin or Eugen Rosenstock Huessy and the tension between these two social philosophies adds to the philosophical uniqueness and richness of the work Comparison and History Deborah Cohen, Maura O'Connor, 2004 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company **The Great Restoration: Post-Communist Transformations from the Viewpoint of Comparative Historical Sociology of Restorations** Zenonas Norkus, 2023-09-20 The revolutions of 1989 remains the standard term used to describe the onset of post communist transformations more than thirty years ago Zenonas Norkus proposes a completely new perspective theorising them as the next wave of modern social restorations starting with the post Napoleonic restorations in 1815 A comparison of the 1789 French and 1917 Russian revolutions was seminal for the rise of comparative historical and sociological research on modern revolutions The book extends and supplements the sociology of modern revolutions by the first systematic outline of the sociology of modern social restorations grounded in a comparison of post Napoleonic and post communist restorations *The Origin and Principles of the American Revolution, Compared with the Origin and Principles of the French Revolution* Friedrich von Gentz, 1800 Revolution Saïd Amir Arjomand, 2019-05-02 A revolution is a discontinuity one political order replaces another typically through whatever violent means are available Modern theories of revolutions tend neatly to bracket the French Revolution of 1789 with the fall of the Soviet Union two hundred years later but contemporary global uprisings with their truly multivalent causes and consequences can overwhelm our ability to make sense of them In this authoritative new book Sa d Amir Arjomand reaches back to antiquity to propose a unified theory of revolution Revolution illuminates the stories of premodern rebellions from the ancient world as well as medieval European revolts and more recent events up to the Arab Spring of 2011 Arjomand categorizes revolutions in two groups ones that expand the existing body politic and power structure and ones that aim to erode but paradoxically augment their authority The revolutions of the past he tells us can shed light on the causes of those of the present and future as long as centralized states remain powerful there will be room for greater and perhaps forceful integration of the politically disenfranchised

**Comparative Civilizations and Multiple Modernities** Shmuel N. Eisenstadt, 2022-11-07 This collection of essays provides an analysis of the dynamics of Civilizations The processes of globalization and of world history are described from a comparative sociological point of view in a Weberian tradition These essays were written between 1974 and 2002 by one of the most eminent sociologists of today The print edition is available as a set of two volumes 9789004129931

**Protestantism and Catholicity compared in their effects on the civilisation of Europe, tr. from the Fr. version by C.J. Hanford and R. Kershaw** Jaime Luciano Balmes, 1849 **Revolution and Terror** Graeme Gill, 2024 This book is a study of the relationship between revolution and terror Graeme Gill uses a detailed analysis of the French Russian and Chinese revolutions to show that in order to understand that relationship it is necessary to distinguish between different types of terror revolutionary transformational and inverted *Protestantism and Catholicity Compared in Their Effects on*

*the Civilization of Europe* Jaime Luciano Balmes, 1854      *Caribbean Revolutions and Revolutionary Theory* Brian Meeks, 2001 This volume re-examines the meaning of revolution as a useful concept in politics. It traces the history of the concept from its ancient beginnings but especially in connection with the idea of progress since the French Revolution. More recent statements are examined as a prelude to arriving at a less deterministic entrenched definition than has often been the case but which retains the idea of revolution as a potential window and facilitator of change      **Revolutions and the Collapse of Monarchy** Zhand Shakibi, 2007-02-23 What causes revolution? What brought about the end of the last major monarchies of the modern period? Were Louis XVI, Nicholas II and Mohammad Reza Pahlavi the unwitting victims of historical circumstance or did their own actions help to bring about the revolutions that overthrew them? This powerful and original book is the first comparative study of the revolutions in Bourbon France, Romanov Russia and Pahlavi Iran. Zhand Shakibi analyses fully the timing and causes of these three revolutions and reveals the important similarities between them. *Revolutions and the Collapse of Monarchy* argues provocatively that it is often the monarch's own personality that provides the vital spark which produces revolution. This ambitious and important book challenges the Marxist interpretation of history and adds a compelling new perspective to theories of revolution      *Theory of the Constitution, Compared with Its Practice in Ancient and Modern Times* James Bernard, 1834      **Modern Revolution** Daniel Brook, 2005-09-15 Using a comparative historical methodology, this book analyzes and contrasts the 1989 Velvet Revolution in Czechoslovakia with China's Tiananmen Square rebellion from socio-cultural and political-economic perspectives      **Revolution in the Church: Challenging the Religious System with a Call for Radical Change**, 2002      *The Magnificent Ride* Thomas A. Fudge, 2018-03-29 *The Magnificent Ride* examines the social and religious dimensions of the Hussite revolutionary movement in 15th-century Bohemia. It argues that the magnificent ride was in fact the first reformation and not merely a precursor to the reformations of the 16th century. The religious revival which had begun in Prague in the later middle ages reached its zenith in the period between Jan Hus and the Council of Basel. This book reconstructs the Hussite myth and shows how that myth evolved into the historical phenomenon of heresy. Acts of heretical practice in Bohemia, condemnation of Jan Hus, defiance of ecclesiastical authority and attempts by the official church to deal with the dissenters are fascinating chapters in the history of late medieval Europe      **Iran and the World** Bahram Navazeni, 2010-05-11 Both Iran and the World had witnessed changes which have had profound effects in their past as well as current events. Despite its long history, rich oil and gas resources and the strategic position in the Persian Gulf, Iran has enjoyed stability in its blend of religion and politics of social affairs in the face of profound change. Contemporary international relations, known for its dominating principles of equal sovereignty and self-determination, are also undergoing change, the most obvious ones being the Soviet collapse, the new world order and globalization, all of which have affected Iran. This book aims to emphasize recent developments in Iran and the world, study their interaction, thus attracting the attention of think tanks in international relations, political science

and other experts in various scientific fields Subjects covered are the developments in mystical vision of the Islamic Revolution in the discourse of Martyr Mortaza Motahhari legal and ethical issues of the human right to democracy nation state system and Islam Iran s religio constitutional institutions in the 20th century Iran s addmision policy of international students Obama and the policy of changing relations with Iran Arab Israeli conflict development strategies in Iran and Algeria Shanghais Cooperation Organization
