From Honto Jin to Bensheng Ren Shih-jung Tzeng,2009-05-16 This book attempts to use numerous volumes of mostly unpublished diaries for examining issues of Taiwanese identity Using the diaries of two Taiwanese intellectuals the author examines how the Taiwanese national consciousness emerged and was reconstructed under the Japanese and Chinese Nationalist rule between 1920 and 1955 suggesting that a multi dimensional Taiwanese national consciousness was created in the 1920s Nevertheless between 1937 and 1945 it was reconstructed by the imperial war mobilization It then underwent a further reconstruction during and after the regime change from Japan to China leading to the emergence of the bensheng ren native Taiwanese consciousness The emerging international Cold War environment enabled the creation of a de facto independent state based on Taiwan size governance which had an impact on shaping the bensheng ren identity Thailand at the Margins Jim Glassman,2004-03-04 Jim Glassman addresses the role of the state in the industrial transformation of what was before the economic crisis of 1997 98 one of Southeast Asia s fastest growing economies Approaching this issue from a different angle to those dominating 1980s and 1990s debates about the role of states in East Asian growth Glassman argues that the Thai state has been both proactive and interventionist in encouraging industrial transformation contrary to what neo liberals have asserted but at the same time has not been a developmental state of the sort championed by neo Weberian analysts of East Asia Analyzing the Cold War period the period of the economic boom as well as the economic crisis and its political aftershock Thailand at the Margins recasts the story of the Thai state s post World War II development performance by focusing on uneven industrialization and the interaction between internationalization and the transformation of Thai labour **List of Titles Added to the Catalogue** University of London. The Global Impact of South Korean Popular Culture Valentina Marinescu, 2014-09-24 This volume fills a gap in the existing literature and proposes an interdisciplinary and multicultural comparative approach to the impact of Hallyu worldwide. The contributors analyze the spread of South Korean popular products from different perspectives: popular culture, sociology, anthropology, linguistics, and from different geographical locations: Asia, Europe, North America, and South America. The contributors come from a variety of countries: UK, Japan, Argentina, Poland, Bulgaria, Czech Republic, Indonesia, USA, Romania. The volume is divided into three sections and twelve chapters that each bring a new perspective on the main topic. This emphasizes the impact of Hallyu and draws real and imaginary maps of the export of South Korean cultural products. Starting from the theoretical backgrounds offered by the existing literature, each chapter presents the impact of Hallyu in a particular country. This applied character does not exclude transnational comparisons or critical interrogations about the future development of the phenomenon. All authors are speaking about their own native cultures. This inside perspective adds an important value to the understanding of the impact of a different culture on the national culture of each respective country. The contributions to this volume illustrate the globalization of the cultural products of Hallyu and show the various faces of Hallyu around the world.
