Great Central Signalman:

The Great Central Railway John Palmer, 2021-01-30 Sets out to address what really happened through its LNER days and into British Railways custodianship A well researched and presented tome Key Model World For generations of railway enthusiasts and more lately for social historians the life and times of the former Great Central Railway and in particular its extension towards London in the 1890s and closure seventy years later have generated considerable interest and controversy Although many books have been written about the Railway the majority in recent times have concentrated upon providing a photographic record and a nostalgic look in retrospect to what was generally perceived as happier times for the route None of the books have presented the outcome from thorough research into the business aspects of the Railway and its successive private LNER and public BR ownerships through war and peace and times of industrial social and political change that influenced and shaped the demand for a railway service While retaining a strong railway theme throughout the book identifies the role played by successive governments the electricity and coal industries and the effect of social change that together resulted in a case for closure The content of the book replaces much supposition with fact and places on record what really happened The final part of the book acknowledges the fine work over half a century of volunteers dedicated to saving a section of the line in Leicestershire A valuable addition to the social and political history of railways The Railway Correspondence and Travel Society *Signalman's Nightmare* Adrian Vaughan, 2012-02-15 Life as a signalman on Western Region in the 1960s and 1970s *Signalman's Twilight* Adrian Vaughan, 2011-10-15 The second book in Adrian Vaughan's Signalman's trilogy A classic of railway literature **Great Central Signalman** Iain Mackenzie, P. Ministry of Transport, 1898 **The Railway Engineer**, 1900 **Respectable Radicals** David Howell, 2017-03-02 Railway workers were a uniformed and respectable section of the Victorian and Edwardian working class They built their trade unions in the face of employer hostility and their organisations played a crucial role in the construction of effective labour politics Local political organisations owed much to the patience and creativity of railway workers not least in small towns and country districts *Respectable Radicals* uses rich archival sources to analyse this history through a series

of case studies It focuses among other topics on disasters strikes the modernisation policies of companies inter union rivalries and the promises and frustrations of labour politics A dominant theme is the complex relationship between changing experiences of work shifting trade union strategies and political identities The result is a new perspective on a significant sector of trade unionism and on the character of labour politics from the 1890s to the 1950s Report Commonwealth Shipping Committee,1910 *Monthly Bulletin* International Railway Congress Association,1900 *Bulletin of the International Railway Congress Association [English Edition]* International Railway Congress Association,1900 **Report of the Royal Commission Appointed to Investigate and Report on the Working of the Railway Conciliation and Arbitration Scheme of 1907 ...** Great Britain.
