Great Experiment An Autobiography:

A Great Experiment Edgar Algernon Robert Gascoyne Cecil, Robert Cecil (vicomte de Chelwood.), 1941 A great experiment Edgard Algernon Robert Gascoyne-Cecil Cecil, 1941 **The Absent-minded Imperialists** Bernard Porter, 2004

The British empire was a huge enterprise To foreigners it more or less defined Britain in the nineteenth and early twentieth centuries Its repercussions in the wider world are still with us today It also had a great impact on Britain herself for example on her economy security population and eating habits One might expect this to have been reflected in her society and culture Indeed this has now become the conventional wisdom that Britain was steeped in imperialism domestically which affected or infected almost everything Britons thought felt and did This is the first book to examine this assumption critically against the broader background of contemporary British society Bernard Porter a leading imperial historian argues that the empire had a far lower profile in Britain than it did abroad Many Britons could hardly have been aware of it for most of the nineteenth century and only a small number was in any way committed to it Between these extremes opinions differed widely over what was even meant by the empire This depended largely on class and even when people were aware of the empire it had no appreciable impact on their thinking about anything else Indeed the influence far more often went the other way with perceptions of the empire being affected or distorted by more powerful domestic discourses Although Britain was an imperial nation in this period she was never a genuine imperial society As well as showing how this was possible Porter also discusses the implications of this attitude for Britain and her empire and for the relationship between culture and imperialism more generally bringing his study up to date by including the case of the present day USA **A Great Experiment** Robert Gascoyne-Cecil Cecil of Chelwood (Viscount), 1941 A Great Experiment Edgar Algernon Robert Gascoyne Cecil (Viscount Cecil of Chelwood), 1941 **The Morbid Age** Richard Overy, 2009-05-07 British intellectual life between the wars stood at the heart of modernity The combination of a liberal uncensored society and a large educated audience for new ideas made Britain a laboratory for novel ways to understand the world The Morbid Age opens a window onto this creative but anxious era the golden age of the public intellectual and scientist Arnold Toynbee Aldous and Julian Huxley H G Wells Marie Stopes and a host of others Yet as Richard Overy argues a striking characteristic of so many of the ideas that emerged from this new age from eugenics to Freud s unconscious to modern ideas of pacifism and world government was the fear that the West was facing a possibly terminal crisis of civilization The modern era promised progress of a kind but it was overshadowed by a growing fear of decay and death an end to the civilized world and the arrival of a new Dark Age even though the country had suffered no occupation no civil war and none of the bitter ideological rivalries of inter war Europe and had an economy that survived better than most The Morbid Age explores how this strange paradox came about Ultimately Overy shows the coming of war was almost welcomed as a way to resolve the contradictions and anxieties of this period a war in which it was believed civilization would be either saved or utterly destroyed *Memoir, Autobiography and Correspondence of Jeremiah Mason*

Jeremiah Mason,1917 *The British Defence of Egypt, 1935-40* Steve Morewood,2004-11-25 A comprehensive and challenging analysis of the British defence of Egypt primarily against fascist Italy in the critical lead up period to the Second World War Culminating in the decisive defeat of the Italian military threat at Sidi Barrani in December 1940 this is a fascinating new contribution to the field The security of Egypt a constant of British imperial strategy is a curiously neglected dimension of the still burning appeasement debate Steven Morewood adds to the originality of his interpretation by suggesting the old view should be reinstated that Mussolini should and could have been stopped in his empire building at the Abyssinian hurdle Thereafter as Nazi Germany tore the Versailles peace settlement to shreds the drift to war accelerated as British resolve and credibility were brought into question The fascist dictators in Rome and Berlin held no respect for weakness and Mussolini became the conduit through which Hitler could apply pressure to a sensitive British interest through reinforcing Libya at critical moments **Autobiography of Thomas Guthrie, D. D.,** Thomas Guthrie,David Kelley Guthrie,1875 *A Great Experiment* Edgar Cecil,1941 **Autobiography of Thomas Guthrie, D.D., and Memoir by His Sons** Thomas Guthrie,1874 **Autobiography of Thomas Guthrie ... and memoir by his sons D.K. and C.J. Guthrie** Thomas Guthrie,1875 **A Great Experiment an Autobiography** Edgar Algernon Robert Gascoyne-Cecil Cecil (1st Viscount),1941 **Lord Robert Cecil** Gaynor Johnson,2016-04-22 Lawyer politician diplomat and leading architect of the League of Nations Robert Cecil 1st Viscount Cecil of Chelwood was one of Britain s most significant statesmen of the twentieth century His views on international diplomacy cover the most important aspects of British European and American foreign policy concerns of the century including the origins and consequences of the two world wars the disarmament movement the origins and early course of the Cold War and the first steps towards European integration His experience of the First World War and the huge loss of life it entailed provoked Cecil to spend his life championing the ethos behind and work of the League of Nations a role for which he was awarded the Nobel Peace Prize in 1937 Yet despite his prominence in the international peace movement Cecil has never been the focus of an academic biography Cecil has perhaps been judged unfairly due to his association with the League of Nations which has since been generally regarded as a failure However recent academic research has highlighted the contribution of the League to the creation of many of the institutions and precepts that have since the Second World War become accepted parts of the international system not least the United Nations In particular Cecil and his work on arms control lay the basis for understanding this new area of international activity which would bear fruit during the Cold War and after Through an evaluation of Cecil s political career the book also assesses his reputation as an idealist and the extent to which he had a coherent philosophy of international relations This book suggests that in reality Cecil was a Realpolitiker pragmatist whose attitudes evolved during two key periods the interwar period and the Cold War It also proposes that where a coherent philosophy was in evidence it owed as much to the moral and political code of the Cecil family as to his own experiences in politics Cecil s social and familial world is therefore

considered alongside his more public life **The Nobel Peace Prize and the Laureates** Irwin Abrams,2001 Presents brief biographical portraits of the 106 recipients of the Nobel Peace Prize during its 100 year history **Great Experiments in Physics** Morris H. Shamos,2012-10-16 Starting with Galileo s experiments with motion this study of 25 crucial discoveries includes Newton s laws of motion Chadwick s study of the neutron Hertz on electromagnetic waves and more *Hitler's Refugees and the French Response, 1933-1938* Julius Fein,2021-03-01 Julius Fein examines the French response to the large number of German refugees between 1933 and 1938 Fein demonstrates how the Quai d Orsay sought a compromise between the Republican canon which said France must help the persecuted and the factors that limited its willingness to accept refugees including economic depression mass unemployment anti Semitism and anti German sentiment Autobiography of Thomas Guthrie ... and memoir by his sons D.K. and C.J. Guthrie. Popular ed Thomas Guthrie,1877 *Violet Oakley* Bailey Van Hook,2016-03-04 Violet Oakley An Artist s Life is the first full length biography of Violet Oakley 1874 1961 the only major female artist of the beaux arts mural movement in the United States as well as an illustrator stained glass artist portraitist and author There is much human interest here a pampered and spoiled young woman who suddenly finds herself in near poverty forced to make a living in illustration to support her parents a sensitive and idealistic young woman who in a desperate attempt to save her neurasthenic father embraces Christian Science a religion derided by her family and friends a 28 year old woman who receives one of the plum commissions of the era a mural cycle in the Pennsylvania State Capitol in a field dominated by much older and predominantly male artists a woman in her forties who although professionally successful finds herself very much alone and bonds with her student Edith Emerson a friend of artists like dancer Ruth St Denis and violinist Albert Spalding who nevertheless was supremely conscious of social mores the Miss Oakley of the Social Register who preferred the company of upper class to bohemian society the tireless self promoter who traveled abroad to become the unofficial visual historian of the League of Nations yet who ironically was increasingly regarded as a local artist

Guarantee of Peace Peter J. Yearwood,2009-01-15 Peter Yearwood reconsiders the League of Nations not as an attempt to realize an idea but as an element in the day to day conduct of Britain s foreign policy and domestic politics during the period 1914 25 He challenges the usual view that London reluctantly adopted the idea in response to pressure from Woodrow Wilson and from domestic public opinion and that it was particularly wary of ideas of collective security Instead he examines how London actively promoted the idea to manage Anglo American relations in war and to provide the context for an enduring hegemonic partnership The book breaks new ground in examining how London tried to use the League in the crises of the early 1920s Armenia Persia Vilna Upper Silesia Albania and Corfu It shows how in the negotiations leading to the Draft Treaty of Mutual Assistance the Geneva Protocol and the Locarno accords Robert Cecil Ramsay MacDonald and Austen Chamberlain tried to solve the Franco German security question through the League This involves a re examination of how these leaders tried to use the League as an issue in British domestic politics and why it emerged as central to British foreign

policy Based on extensive detailed archival research this book provides a new and authoritative account of a largely misunderstood topic
