World's major religions, doctrines and sects Abdul Waheed , Most of the population of the world is still of those who believe in religion Religion is the priceless heritage of man There are many religions in almost every country of the world The ancient history of that country is still present in the holy books of that religion Religion books are the only source of knowledge of ancient history but today in the modern age scientific age the new generation is turning away from religion The biggest reason for this is lack of proper knowledge about religion and not reading holy books In today's era identification of sects in every religion is due to new things concoctions in religion It is almost impossible to get information about religious sects because there is lack of books related to it and no one gives correct information I wanted to know about this in many religions but no one told about it and I met many alims scholars but could not get any clear information and I went to Parsi Zarathustra pastor but there also got disappointed And met Arya Samaj and many other people but everyone said that you should read your holy book Quran Sharif Then I thought why these people are not giving any information Many people provoked me not to get into its affair otherwise there could be a fight Then I took support of libraries but that too lacked Hindi language books so I took support of English Urdu B A M A books and some encyclopedias dictionaries helped a lot Tafseers explanation of
