## **Great Leaders Of Greece And Rome:**

Great Leaders, Great Tyrants? Arnold Blumberg, 1995-01-16 Can a political leader be effective without being tyrannical Most biographies tend to treat the tyrannical aspect of a great leader's career as a contradiction to be minimized This book examines both the creative and tyrannical aspects as the anticipated consequences of the exercise of power Biographical profiles of 52 major world leaders throughout history feature pro con essays reflecting contemporary views of the creative and tyrannical aspects of their record Coverage is global from Indira Gandhi to Fidel Castro and spans history from the Egyptian king Akhenaton to Mikhail Gorbachev Among the leaders profiled are Otto von Bismarck Oliver Cromwell Charles de Gaulle Elizabeth I Ho Chi Minh Lenin Louis XIV Mao Zedong Napoleon I Kwame Nkrumah Juan Peron and Tito All biographies are written by subject specialists This work encourages critical thinking and debate about the exercise of power Coverage is global from Indira Gandhi to Fidel Castro and spans history from the Egyptian king Akhenaton to Mikhail Gorbachev Among the leaders profiled are Otto von Bismarck Oliver Cromwell Charles de Gaulle Elizabeth I Ho Chi Minh Lenin Louis XIV Mao Zedong Napoleon I Kwame Nkrumah Juan Peron and Tito Each biography begins with full name dates of the leader's lifetime offices held and a general introduction placing the leader in historical context A full biographical essay follows The editor then presents two essays in debate format contrasting the creative and tyrannical roles of the subject from a contemporary viewpoint Each biography concludes with suggestions for additional reading about the subject An important resource tool students will use **Great Leaders Great Tyrants** for debate and critical examination of periods of world history and the exercise of power **Young Folks' History of Greece and Rome** Elizabeth Jane Cotton, 1898 **The Ancient Near East, Greece and Rome** Jack L. Schwartzwald, 2014-03-13 This book offers a concise survey of Western Civilization from the Stone Age through the fall of the last Western Roman Emperor in AD 476 Each of the three sections chronicle a critical epoch in human history Section I encompasses man's ascent from barbarism to civilization in the Ancient Near East Section II witnesses the development of Western Civilization in Ancient Greece and Section III catalogs the failed attempt to build the West's first nation state in Ancient Rome Human foibles are abundantly portrayed but so too is the ascent of humankind **The Oxford encyclopedia of ancient Greece and Rome. - Vol. 1 - 7** Michael Gagarin, 2010 *Conflict in Ancient Greece and Rome* Sara Elise Phang, Iain Spence Ph.D., Douglas Kelly Ph.D., Peter Londey Ph.D., 2016-06-27 The complex role warfare played in ancient Greek and Roman civilizations is examined through coverage of key wars and battles important leaders armies organizations and weapons and other noteworthy aspects of conflict Conflict in Ancient Greece and Rome The Definitive Political Social and Military Encyclopedia is an outstandingly comprehensive reference work on its subject Covering wars battles places individuals and themes this thoroughly cross referenced three volume set provides essential support to any student or general reader investigating ancient Greek history and conflicts as well as the social and political institutions of the Roman Republic and Empire The set covers ancient Greek history from archaic times to the

Roman conquest and ancient Roman history from early Rome to the fall of the Western Roman Empire in 476 CE. It features a general foreword, prefaces to both sections on Greek history and Roman history, and maps and chronologies of events that precede each entry section. Each section contains alphabetically ordered articles, including ones addressing topics not traditionally considered part of military history, such as noncombatants and war and gender, followed by cross references to related articles and suggested further reading. Also included are glossaries of Greek and Latin terms, topically organized bibliographies, and selected primary documents in translation.

*Ancient Greece and Rome in Modern Science Fiction* Ross Clare, 2022-11-24. *Ancient Greece and Rome in Modern Science Fiction* introduces and analyses the reception of classical antiquity in contemporary science fiction. By using up-to-date methods from classical reception theory, science fiction analysis, and fictional world studies, the book will help furnish the reader's understanding of the ways in which the literature, culture, history, and mythology of ancient Greece and Rome are appropriated and represented across multiple media platforms in the science fiction genre today. The book will therefore serve as an entry point into several areas of study: the reception of classics in popular culture, antiquity in modern media, the uses of the ancient world in science fiction, and broader science fiction criticism. The chapters, structured by medium, principally offer a roughly chronological overview of that medium and its treatment of ancient history, mythology, literature, and culture. An abundance of case studies from literature, film, and television, and videogames, including *Star Trek*, *Battlestar Galactica*, *Fallout*, *New Vegas*, the *Mass Effect* franchise, and *Assassin's Creed*, show how classical antiquity is reused, encountered, re-encountered by creators and consumers of the present, how we bounce off it, and it bounces off us, and how this reciprocation creates new visions of Greece and of Rome.

*Heroes and Heroines of Greece and Rome* Brian Kinsey, 2012-01-15. Explores well-known heroic figures as well as the demigods, nymphs, sorceresses, and other creatures that inhabited the mortal world and figured prominently in the myths of the heroes and heroines of Greece and Rome.

***A Companion to Ancient Greece and Rome on Screen*** Arthur J. Pomeroy, 2017-06-01. A comprehensive treatment of the Classical World in film and television. *A Companion to Ancient Greece and Rome on Screen* closely examines the films and TV shows centered on Greek and Roman cultures and explores the tension between pagan and Christian worlds. Written by a team of experts in their fields, this work considers productions that discuss social settings as reflections of their times and as indicative of the technical advances in production and the economics of film and television. Productions included are a mix of Hollywood and European, spanning from the silent film era through modern-day television series, and topics discussed include Hollywood politics, film soundtrack and sound design, high art and low art, European art cinemas, and the ancient world as comedy. Written for students of film and television as well as those interested in studies of ancient Rome and Greece, *A Companion to Ancient Greece and Rome on Screen* provides comprehensive current thinking on how the depiction of Ancient Greece and Rome on screen has developed over the past century. It reviews how films of the ancient world mirrored shifting attitudes towards Christianity, the impact of changing techniques in film production, and

fascinating explorations of science fiction and technical fantasy in the ancient world on popular TV shows like Star Trek Babylon 5 Battlestar Galactica and Dr Who

The World's Great Speeches Lewis Copeland, Lawrence W. Lamm, Stephen J. McKenna, 1999-09-21 Provides almost three hundred speeches delivered from ancient to modern times

**Famous Men of Rome and Greece** John Haaren, 2021-08-16 The study of history like the study of a landscape should begin with the most conspicuous features The famous men of ancient times are the mountain peaks of history It is logical then that the study of history should begin with the biographies of these men Prominent educators appreciating these truths have long recognized the value of biography as a preparation for the study of history and have given it an important place in their scheme of studies The series of historical stories to which this volume belongs was prepared in conformity with the foregoing recommendations and with the best practice of leading schools It has been the aim of the authors to make an interesting story of each man's life and to tell those stories in a style so simple that pupils in the lower grades will read them with pleasure and so dignified that they may be used with profit as text books for reading In this book you will find important biographies every man should read at least once in their lives Romulus Nero Julius Caesar Marcus Aurelius Pericles Socrates Alexander the Great
