*Old Masters Worldwide* Susanna Avery-Quash,Barbara Pezzini,2020-10-15 As a result of the Napoleonic wars vast numbers of Old Master paintings were released on to the market from public and private collections across continental Europe The knock on effect was the growth of the market for Old Masters from the 1790s up to the early 1930s when the Great Depression put an end to its expansion This book explores the global movement of Old Master paintings and investigates some of the changes in the art market that took place as a result of this new interest Arguably the most important phenomenon was the diminishing of the traditional figure of the art agent and the rise of more visible increasingly professional dealerships firms such as Colnaghi and Agnew's in Britain Goupil in France and Knoedler in the USA came into existence Old Masters Worldwide explores the ways in which the pioneering practices of such businesses contributed to shape a changing market

**The Old Roman World** John Lord,2018-01-19 A little city founded by robbers on the banks of the Tiber rises gradually into importance although the great cities of the East are scarcely conscious of its existence Its early struggles simply arrest the attention and excite the jealousy of the neighboring nations The citizens of this little state are warriors and either for defense or glory they subdue one after another the cities of Latium and Etruria then the whole of Italy and finally the old monarchies and empires of the world In two hundred and fifty years the citizens have become nobles and a great aristocracy is founded which lasts eight hundred years Their aggressive policy and unbounded ambition involve the whole world in war which does not cease until all the nations known to the Greeks acknowledge their sway Everywhere Roman laws language and institutions spread A vast empire arises larger than the Assyrian and the Macedonian combined a universal empire a great wonder and mystery having all the grandeur of a providential event It becomes too great to be governed by an oligarchy of nobles Civil wars create an emperor who uniting in himself all the great offices of state and sustained by the conquering legions rules from East to West and from North to South with absolute and undivided sovereignty The Caesars reach the summit of human greatness and power and the city of Romulus becomes the haughty mistress of the world The emperor is worshiped as a deity and the proud metropolis calls herself eternal An empire is established by force of arms and by a uniform policy such as this world has not seen before or since
