Great Mistake The Battle For Antwerp And The Beveland Peninsula September 1944:

The Great Mistake Peter Beale, 2004-08-19 On 4 September 1944 the British 11th Armoured Division entered Antwerp capturing the docks intact Basing his account on official war diaries unit histories and personal recollections Peter Beale examines the background considers the actions taken and forgone between 4 and 26 September and reviews their effects on subsequent operations The Great Mistake: the Battle for Antwerp and the Beveland Peninsula, September 1944, (by) Peter Beale Peter Beale, 2004 **Monty's Men** John Buckley, 2013-11-26 Historian John Buckley offers a radical reappraisal of Great Britain's fighting forces during World War Two challenging the common belief that the British Army was no match for the forces of Hitler's Germany Following Britain's military commanders and troops across the battlefields of Europe from D Day to VE Day from the Normandy beaches to Arnhem and the Rhine and ultimately to the Baltic Buckley's provocative history demonstrates that the British Army was more than a match for the vaunted Nazi war machine This fascinating revisionist study of the campaign to liberate Northern Europe in the war's final years features a large cast of colorful unknowns and grand historical personages alike including Field Marshal Sir Bernard Montgomery and the prime minister Sir Winston Churchill By integrating detailed military history with personal accounts it evokes the vivid reality of men at war while putting long held misconceptions finally to rest **Patton Versus the Panzers** Steven Zaloga, 2023-11-30 In September 1944 Hitler ordered an attack on Gen George Patton's Third Army which was deep inside France making for the Rhine and threatening the German industrial heartland beyond The ensuing battle near Arracourt the U S Army's largest tank versus tank clash until the Bulge went badly for the Germans who committed their armor piecemeal and whose offensive was shattered in a series of intense close range tank duels with the Americans Armor expert Steven Zaloga deftly reconstructs the battle and shows how American Sherman tanks bested superior German Panthers *Diamonds and War* David De Vries, 2010-04 Based on previously unexamined historical documents found in archives in Belgium England Israel the Netherlands and the United States this book is the first in English to tell the story of the formation of one of the world's main strongholds of diamond production and trade in Palestine during the 1930s and 1940s The history of the diamond cutting industry characterized by a long standing Jewish presence is discussed as a social history embedded in the international political economy of its times the genesis of the industry in Palestine is placed on a broad continuum within the geographic and economic dislocations of Dutch Belgian and German diamond cutting centers In providing a micro historical and interdisciplinary perspective the story of the diamond industry in Mandate Palestine proposes a more nuanced picture of the uncritical approach to the strict boundaries of ethnic based occupational communities *Forward Air Bases in Europe from D-Day to the Baltic* Trevor Stone, 2025-08-05 The largely sea borne invasion of Northern France in June 1944 Operation Overlord is acknowledged as one of the key actions which hastened the end of the Second World War The RAF played a vital part in the landings It then supported the subsequent advance of Montgomery's 21st Army and the Allies as a whole through

France Belgium Holland and into Germany Following the breakout from the Normandy bridgehead in early August 1944 the RAF s Second Tactical Air Force moved forward in support of the troops occupying a number of temporary airfields as it went The ground support for this operation was complex a situation that was exacerbated by the fact that much of it had to be highly mobile The advance however was rapid and soon ran into problems as the supply lines grew longer by the day The planners had envisaged that capturing the Belgian port of Antwerp would eventually enable them to bring in vitally needed supplies much further north on the Continent Although the city and its port were liberated in September 1944 the port s route to the sea along the River Scheldt was still controlled by German forces It took nearly three months until this was resolved and the port opened for business Until then in the RAF s equivalent of the US Army s famed Red Ball Express it was some 300 miles by road from Normandy with the Second Tactical Air Force largely reliant on the Army for transporting its needs For an air force needing large volumes of fuel and ammunition demand soon began to outpace supply A number of emergency measures were put in place to keep the aircraft operational which saw the RAF resorting to the use of its heavy bombers to fly in supplies Even when Antwerp was up and running supplying the Second Tactical Air Force remained a hand to mouth affair right through until the enemy s surrender in May 1945 In Forward Air Bases in Europe from D Day to the Baltic the author explores the challenges of supporting a mobile air force in those uncertain days as Hitler s forces were retreating to their homeland As the Allies found things can go badly wrong when thinking loses touch with the art of the possible logistics In the end miraculously it worked but it was a close run thing

Operation Market-Garden 1944 (1)

Steven J. Zaloga,2014-08-20 Overshadowed by the dramatic British failure at Arnhem the US 82nd and 101st Airborne Divisions were a vital component of Operation Market Garden and succeeded in capturing their objectives at Eindhoven and Nijmegen In the summer of 1944 plans began for a complex operation to seize a Rhine river bridge at Arnhem in the Netherlands The American portion of the airborne mission was to employ two divisions of the US XVIII Airborne Corps to seize key terrain features that otherwise might delay the advance of British tanks towards the bridge The 82nd and 101st Airborne Divisions succeeded in their tasks of capturing the vital bridges at Eindhoven at Nijmegen in the face of fierce German resistance However the delays caused to the British armored advance combined with stronger than expected fighting at Arnhem led to the withdrawal of the remnants of the British 1st Airborne Division in one of the Western Allies most costly defeats of World War II Contemporary photographs maps and detailed color artwork complement extensive archival research that reveals the successes of those American airborne missions largely overshadowed by the failure of the operation as a whole

The Devil's Bridge Anthony Tucker-Jones,2020-06-25 This fascinating title offers a new look at Operation Market Garden and the Arnhem campaign from the perspective of the German forces who defended against the Allies In the late summer of 1944 SS Obergruppenführer Wilhelm Willi Bittrich found himself in the Netherlands surveying his II SS Panzer Corps which was in a poor state having narrowly escaped the defeat in Normandy He was completely unaware that his command lay directly in the path of a major Allied thrust the 17 September 1944 launch of the largest airborne and glider operation in the history of warfare Codenamed Operation Market Garden it was intended to outflank the German West Wall and bounce the Rhine at Arnhem from where the Allies could strike into the Ruhr Nazi Germany s industrial heartland Such a move could have ended the war However Market Garden and the battle for Arnhem were a disaster for the Allies Put together in little over a week and lacking in flexibility the operation became an all or nothing race against time The plan to link the airborne divisions by pushing an armoured division up a sixty five mile corridor was optimistic at best and the British drop zones were not only too far from Arnhem Bridge but also directly above two recuperating SS Panzer divisions The Devil s Bridge explores the operation from the perspective of the Germans as renowned historian Anthony Tucker Jones examines how they were able to mobilise so swiftly and effectively in spite of depleted troops and limited intelligence **A**

Magnificent Disaster David Bennett,2008-07-08 Reveals much of what history has tended to gloss over should be a must read for all who have an interest in this operation Airborne Quarterly After Normandy the most spectacular Allied offensive of World War II was Operation Market Garden which planned to join three divisions of paratroopers dropped behind German lines with massive armored columns breaking through the front The object was to seize a crossing over the Rhine to outflank the heartland of the Third Reich and force a quick end to the war The operation utterly failed of course as the 1st British Airborne was practically wiped out the American 82nd and 101st Airborne Divisions became tied down in vicious combat for months and the vaunted armored columns were foiled at every turn by improvisational German defenses Some have called

the battle Hitler's last victory In this work many years in the making David Bennett puts forward a balanced and comprehensive account of the British American Polish Canadian and German actions as well as the strategic background of the operation in a way not yet done He shows for example that rather than a bridgehead over the Rhine Montgomery's ultimate aim was to flank the Ruhr industrial area from the north The book also deals as never before with the key role of all three Corps of British Second Army not just Brian Horrocks' central XXX Corps For the first time we learn the dramatic untold story of how a single company of Canadian engineers achieved the evacuation of 1st Airborne's survivors back across the Rhine when all other efforts had failed Also revealed is the scandal of how Polish Gen Sosabowski was treated by the British military authorities and how the operation would have failed at the outset but for the brilliant soldiery of the two American airborne divisions Respectfully nodding to *A Bridge Too Far* and other excellent works on Market Garden the author has interviewed survivors walked the ground and performed prodigious archival research to increase our understanding of the battle from the actions of the lowliest soldier to the highest commander Allied and German *56th Infantry Brigade and D-Day* Andrew Holborn, 2010-08-12 **Flyers Far Away** Michael Enright, 2025-06-06 First one volume history covering Australian airmen in World War II **From Victory to Stalemate** Charles J. Dick, 2016-11-07 By the summer of 1944 the war in Europe had reached a critical point Both the western Allies and the Soviets possessed the initiative and forces capable of mounting strategic offensives against the German enemy Writing a study of operations on first the Western then Eastern Front respected military analyst C J Dick offers rare insight into the strengths and weaknesses of generalship on both fronts especially the judgments choices and compromises made by senior commanders At the same time he clarifies the constraints imposed upon leadership and upon operations by doctrinal shortcomings by logistics and not least by the nature of coalition war *From Victory to Stalemate* focuses on the Western Front specifically American British and Canadian operations in France and the Low Countries Dick's lens throughout is operational art which links individual tactical battles to broader strategic aims Beginning with the D Day landings in Normandy and the strengths and weaknesses of the armies including their military doctrines Dick goes on to analyze the offensives launched in the high summer of 1944 He considers the strategic factors and plans that provide the context for his main concern the Allied commanders' handling of army army group and theatre offensive operations Dick's analysis shows us an Allied command limited by thinking that is firmly rooted in the experience of small wars and the World War I The resulting incremental approach was further complicated by a divergence in the ideas and interests of the Allied forces The man responsible for pulling it all together Dwight D Eisenhower proved remarkably capable in his role as statesman he was to be less effective as a military technician who could govern such difficult subordinates as Bradley and Montgomery As a result the Allied offensive faltered and became a war of attrition in contrast to the Soviet effort on the Eastern Front *Operation Market-Garden: Ultra Intelligence Ignored* Major Joel Jeffson, 2015-11-06 Authors and historians have made the words Market Garden and intelligence failure

virtually synonymous Is this really the case Operation Market Garden the plan envisioned by Field Marshal Montgomery would open the gate into Germany and simultaneously force General Eisenhower to abandon his broad front strategy in favor of his narrow front strategy Executed on 17 September 1944 this operation became one of the greatest defeats suffered by the Allies during the Second World War Until 1974 when the British Government declassified Ultra no one beyond the producers and consumers of Ultra intelligence knew of its existence With the program now declassified it was learned that Ultra allowed Allied commanders an unprecedented capability to read high level German messages that were thought to be unbreakable The release of these documents now showed that senior Allied commanders knew that the 9th and 10th SS Panzer Divisions were located on the corridor that the Allies planned to make their narrow front thrust on Despite this new information numerous authors still continue to describe as an intelligence failure While intelligence was not perfect in supporting this operation it is not justifiable to say that Operation Market Garden failed due to the intelligence system s failure to warn commanders of the threat to the operation The Bulletin ,2004 **Attack on the Scheldt** Graham A.
