Great Northwest The Search For Regional Identity:

The Great Northwest William G. Robbins, 2001 For more than 150 years Pacific Northwest writers have sought out the region's shared stories and traditions in an attempt to explain the common features of its places and people A key element in the study of place and region is the relationship between human experience and the natural world This newest volume in the acclaimed Culture and Environment in the Pacific West series offers a compelling blend of ideas and perspectives on regional identity in the Pacific Northwest In *The Great Northwest* historian William G Robbins gathers writings that explore the idea and reality of the Pacific Northwest from a surprising variety of viewpoints Descriptions of and stories about such distinct places as Celilo Falls on the Columbia River Alaska interior British Columbia and the reforested Tillamook Burn in Oregon show why the search for regional identity is a complex but ultimately rewarding endeavor The business of understanding the Pacific Northwest is messy but important writes series editor William Lang Knowing what we think about our place and our region offers opportunities to understand ourselves our communities and our relationships to the larger world [Nikkei in the Pacific Northwest](#) Louis Fiset, Gail M. American borderlands in the cultural imagination fluctuated greatly during the Progressive Era as it was affected by similarly changing concepts of identity and geopolitical issues influenced by the Mexican Revolution and the First World War. Such shifts became especially evident in films set along the Mexican and Canadian borders as filmmakers explored how these changes simultaneously represented and influenced views of society. At large, *Borderland Films* examines the intersection of North American borderlands and culture as portrayed through early twentieth century cinema. Drawing on hundreds of films, Dominique Br. gent Heald investigates the significance of national borders, the ever changing concepts of race, gender, and enforced boundaries, the racialized ideas of criminality that painted the borderlands as unsafe and in need of control, and the wars that showed how international conflict significantly influenced the United States relations with its immediate neighbors. *Borderland Films* provides a fresh perspective on American cinematic cultural and political history and on how cinema contributed to the establishment of societal narratives in the early twentieth century.

None of the Above Joel Thiessen, Sarah Wilkins-Laflamme, 2020-04-14. Compares secular attitudes characterizing religious nones in the United States and Canada. Almost a quarter of American and Canadian adults are nonreligious, while teens and young adults are even less likely to identify religiously. *None of the Above* explores the growing phenomenon of religious nones in North America. Who are the religious nones? Why and where is this population growing? While there has been increased attention on secularism in both Europe and the United States, little work to date has focused on Canada. Joel Thiessen and Sarah Wilkins Laflamme turn to survey and interview data to explore how a nonreligious identity impacts a variety of aspects of daily life in the US and Canada in sometimes similar and sometimes different ways, offering insights to illuminate societal and political trends. With numbers of nonreligious people even higher in Canada than in the US, some believe that secular currents to the north foreshadow what will happen in the US. *None of the Above* asserts that a growing divide between religious and nonreligious populations could engender a greater distance in moral and political values and behaviors. At once provocative and insightful, this book tackles questions of coexistence, religious tolerance, and spirituality as American and Canadian society accelerate toward a more secular future.

The Pacific Region Jan Goggans, Aaron DiFranco, 2004-12-30. Robert Penn Warren once wrote, "West is where we all plan to go some day," and indeed, images of the westernmost United States provide a mythic horizon to American cultural landscape. While the five states—California, Oregon, Washington, Alaska, and Hawai'i—which touch Pacific waters do share commonalities within the history of westward expansion, the peoples who settled the region and the indigenous peoples they encountered have created spheres of culture that defy simple categorization. This wide-ranging reference volume explores the marvelously eclectic cultures that define the Pacific region. From the music and fashion of the Pacific Northwest to the film industry and surfing subcultures of southern California, from the vast expanses of the Alaskan wilderness to the schisms between native and
