Communities of Imagination Catherine Diamond, 2016-11-30 Asian theatre is usually studied from the perspective of the major traditions of China Japan India and Indonesia Now in this wide ranging look at the contemporary theatre scene in Southeast Asia Catherine Diamond shows that performance in some of the lesser known theatre traditions offers a vivid and fascinating picture of the rapidly changing societies in the region Diamond examines how traditional modern and contemporary dramatic works with their interconnected styles stories and ideas are being presented for local audiences She not only places performances in their historical and cultural contexts but also connects them to the social political linguistic and religious movements of the last two decades Each chapter addresses theatre in a different country and highlights performances exhibiting the unique conditions and concerns of a particular place and time Most performances revolve in some manner around contemporary modernity questioning what it means for good or ill to be a part of the globalized world Chapters are grouped by three general and overlapping themes The first which

includes Thailand Vietnam and Bali is characterized by the increased participation of women in the performing arts not only as performers but also as playwrights and directors Cambodia Singapore and Myanmar are linked by a shared concern with the effects of censorship on theatre production A third group the Philippines Laos and Malaysia is distinguished by a focus on nationalism theatres are either contributing to official versions of historical and political events or creating alternative narratives that challenge those interpretations Communities of Imagination shows the many influences of the past and how the past continues to affect cultural perceptions It addresses major trends suggesting why they have developed and why they are popular with the public It also underscores how theatre continues to attract new practitioners and reflect the changing aspirations and anxieties of societies in immediate and provocative ways even as it is being marginalized by television film and the internet The book will be of interest to students and scholars of theatre and performance Asian literature Southeast Asian studies cultural studies and gender studies Travelers wishing to attend local performances as part of their experience abroad will find it an essential reference to theatres of the region

Forgotten Armies Christopher Alan Bayly, Timothy Norman Harper, 2005 In the early stages of the Second World War the vast crescent of British ruled territories stretching from India to Singapore appeared as a massive Allied asset It provided scores of soldiers and great quantities of raw materials and helped present a seemingly impregnable global defense against the Axis Yet within a few weeks in 1941 42 a Japanese invasion had destroyed all this sweeping suddenly and decisively through south and southeast Asia to the Indian frontier and provoking the extraordinary revolutionary struggles which would mark the beginning of the end of British dominion in the East and the rise of today's Asian world More than a military history this gripping account of groundbreaking battles and guerrilla campaigns creates a panoramic view of British Asia as it was ravaged by warfare nationalist insurgency disease and famine It breathes life into the armies of soldiers civilians laborers businessmen comfort women doctors and nurses who confronted the daily brutalities of a combat zone which extended from metropolitan cities to remote jungles from tropical plantations to the Himalayas Drawing upon a vast range of Indian Burmese Chinese and Malay as well as British American and Japanese voices the authors make vivid one of the central dramas of the twentieth century the birth of modern south and southeast Asia and the death of British rule

undergoing a resurgence in Southeast Asia's civil society and creative class today **Burma, Kipling and Western Music**
Andrew Selth, 2016-11-03 For decades scholars have been trying to answer the question how was colonial Burma perceived in and by the Western world and how did people in countries like the United Kingdom and United States form their views This book explores how Western perceptions of Burma were influenced by the popular music of the day From the First Anglo-Burmese War of 1824-6 until Burma regained its independence in 1948 more than 180 musical works with Burma related themes were written in English speaking countries in addition to the many hymns composed in and about Burma by Christian missionaries Servicemen posted to Burma added to the lexicon with marches and ditties and after 1913 most movies about Burma had their own distinctive scores Taking Rudyard Kipling's 1890 ballad Mandalay as a critical turning point this book surveys all these works with emphasis on popular songs and show tunes also looking at classical works ballet scores hymns soldiers songs sea shanties and film soundtracks It examines how they influenced Western perceptions of Burma and in turn reflected those views back to Western audiences The book sheds new light not only on the West's historical relationship with Burma and the colonial music scene but also Burma's place in the development of popular music and the rise of the global music industry In doing so it makes an original contribution to the fields of musicology and Asian Studies
