Great Rail Non-journeys of Australia Colin Taylor, 1986      Transporting Moments: Mobility, Australian Railways and the Trained Society Colin Symes, 2015-04-06 Sociologists have suggested that being on the move entails a complex choreography comprised of passenger compartment signage announcements and posters Employing insights from mobility theory *Transporting moments* provides an account of railway culture from a passenger's perspective The book uses the context of commuting in Sydney at a time when elements of its intra urban rail network were being upgraded as its principal case study This upgrade covers its rolling stock infrastructure and linguistic landscape It is argued that understanding the rationale behind these changes requires an understanding of the historical and policy context in which the railways of Sydney's New South Wales and Australia are embedded This is also the case with the nation's long distance trains whose operators have fought hard to stave off competition from airliners and cars *Transporting moments* therefore presents strong case for preserving public transport as a more equitable and sustainable form of mobility Governments Australian or otherwise can use these insights for productive investment in their rail networks and public transportation service in general and for reducing the nation's addiction to the automobile With its invaluable insights into travelling on trains *Transporting moments* is a fascinating addition to the growing corpus of literature on day to day mobility      **Great Railway Journeys: The Flying Scotsman Route to Edinburgh** Roger Mason, 2024-09-15 The latest in Roger Mason's popular series documenting Britain's greatest railway journeys This time focusing on The Flying Scotsman Route to Edinburgh      *Australian Books* National Library of Australia, 1988      Lost Railway Journeys from Around the World Anthony Lambert, 2018-11-13 From the great cathedral like railway stations of the steam age to obscure lines built through spectacular landscapes to open up countries before the advent of motorised road transport this book is a celebration of our lost railway heritage and the lines that can no longer be travelled Through stunning images *Lost Railway Journeys from Around the World* evokes the romance and drama of these journeys taking the reader as close as they can possibly get to this lost world of dining cars sleeping cars station porters and international rail travel Organised by continent all of these routes have stories to tell and the lost journeys are captured in the old postcards and posters that accompany photographs drawn from collections and archives across the world

**The Trans-Australian Wonderland** A.G. Bolam, 2023-07-01 The first book written on the natural history of life on the Nullabor Plain was written by station master A G Bolam and first published in 1923. The author recollects his times with Aboriginal trackers and workers in and around Ooldeah as the great railway progressed from South Australia across to Western Australia and in doing so looks at animal and bird life and the unique geographical features of the Plain. Bolam studied the Ooldeah tribe and records their nomadic social life, their attitude to clothes and footwear, smoking, bartering, marriage, weapons, tools, whip making and water carrying. He records their approach to fire making and smoke signals, medicine and surgery, amusements, decorations, corroborees and ceremonies as well as deaths and burials. Of especial interest are his notes on message sticks, writing, tracking and procuring water in desert conditions. **Australia**, 2010.
