**The Humanity of Christ** James P. Haley, 2017-10-12 This work is a critical analysis of Karl Barth's unique adoption of the concepts anhypostasis and enhypostasis to explain Christ's human nature in union with the Logos which becomes the ontological foundation that Barth uses to explain Jesus Christ as very God and very man The significance of these concepts in Barth's Christology first emerges in the Göttingen Dogmatics and is then more fully developed throughout the Church Dogmatics Barth's unique coupling together of anhypostasis and enhypostasis provides the ontological grounding flexibility and precision that so uniquely characterizes his Christology As such Barth expresses the Word became flesh as the revelation of God that flows out of the coalescence of Christ's human nature with his divine nature as the mediation of reconciliation This ontological dynamic provides the impetus for Barth's critique of Chalcedon's static definition of the union of divine and human natures in Christ from which Barth transitions to an active definition of these two natures Not only does anhypostasis and enhypostasis explain the dynamic union between the divine and human natures in Christ but also the dynamic union between Jesus Christ and his

Church which reaches its apex in the reconciliation of humanity with God in Christ The ontological foundation of anhypostasis and enhypostasis in Christ's union with his Church explains the importance of the royal man in understanding genuine human nature the exaltation of human nature and the sanctification of human nature **El-Hi Textbooks in Print**,1982 **Chinese Mythology** Anne Birrell,1999-04-26 In Chinese Mythology Anne Birrell provides English translations of some 300 representative myth narratives selected from over 100 classical texts many of which have never before been translated into any Western language Organizing the narratives according to themes and motifs common to world mythology Birrell addresses issues of source dating attribution textual variants multiforms and context Drawing on exhaustive work in comparative mythology she surveys the development of Chinese myth studies summarizes the contribution of Chinese and Japanese scholars to the study of Chinese myth since the 1920s and examines special aspects of traditional approaches to Chinese myth The result is an unprecedented guide to the study of Chinese myth for specialists and nonspecialists alike
