Lamrim Year Lama

Yeshe, Lama Zopa Rinpoche, 2021-06-07 Lamrim Year is an essential guide for meditators who want to develop their mind in the graduated path to enlightenment. This unique study program provides a 365 day outline of the graduated path in a clear practical format that is suitable for both individual and group practice. The daily quote and text have been selected from four decades of teachings by Lama Yeshe and Lama Zopa Rinpoche, both published and unpublished, and offer a taste of their teaching style and scope. Each day's teaching concludes with a recap summarizing the main points for reflection. The interdependent elements of Lamrim Year are designed to support meditators of various capabilities in establishing and maintaining regular lamrim study and practice until stable realizations are achieved. The text closely follows the lamrim outline in the renowned book *Liberation in the Palm of Your Hand* by Pabongka Rinpoche. Engaging Buddhism Jay L. Garfield, 2014-12-22 This is a book for scholars of Western philosophy who wish to engage with Buddhist philosophy or who simply want to extend their philosophical horizons. It is also a book for scholars of Buddhist studies who want to see how Buddhist theory articulates with contemporary philosophy. **Lam Rim Volume 3** Gelek Rinpoche, 2005-08-16 Lam Rim 3 Volume 3 introduces the medium scope of the spiritual path aligned with Buddha's famous Four Noble Truths: ordinary life is in nature suffering; there are specific causes for that suffering; these can be eliminated; and one can follow a reliable method and arrive at liberation, the state free of suffering. Lam Rim, the graduated path or roadmap to enlightenment, is a foundational teaching of Tibetan Buddhism outlining the progression of spiritual practices needed to attain full enlightenment by breaking it down into three scopes: initial, medium, and Mahayana. Based on the *Liberation in the Palm of your Hand*, an oral teaching by the famous Pabongka Rinpoche, Gelek Rinpoche, with characteristic wit and humor, lays out the path in easy-to-understand everyday terms: a lamrim teaching for our times. **Buddhist Ethics and the Bodhisattva Path** Stephen Harris, 2023-10-19 Santideva's 8th century Mahayana Buddhist classic, the *Guide to the Practices of Awakening*, Bodhicaryavatara, has been a source of philosophical inspiration in the Indian and Tibetan traditions for over a thousand years. Stephen Harris guides us through a philosophical exploration of Santideva's masterpiece, introducing us to his understanding of the compassionate bodhisattva who vows to liberate the entire universe from suffering. Individual chapters provide studies of the bodhisattva virtues of generosity, patience, compassion, and wisdom, illustrating the role each plays in Santideva's account of well-being and moral development. Harris also provides in-depth analysis of many of Santideva's most influential arguments, demonstrating how he employs reasoning as a method to cultivate moral character. As the first book-length English language philosophical study of Santideva's most influential text, this will be essential reading for students and scholars of Buddhist ethics, as well as for anyone interested in intercultural ethics and the philosophy of well-being. Becoming Buddhist Glenys Eddy, 2012-02-02 What does it mean to be a Western Buddhist? For the predominantly Anglo-Australian affiliates of two Western Buddhist centres in Australia, the author proposes an answer to this question and finds support for it from interviews and her own participant observation experience. Practitioners' prior experiences of

experimentation with spiritual groups and practices and their experiences of participation practice and self transformation are examined with respect to their roles in practitioners appropriation of the Buddhist worldview and their subsequent commitment to the path to enlightenment Religious commitment is experienced as a decision point itself the effect of the individual s experimental immersion in the Centre s activities During this time the claims of the Buddhist worldview are tested against personal experience and convictions Using rich ethnographic data and Lofland and Skonovd s experimental conversion motif as a model for theorizing the stages of involvement leading to commitment the author demonstrates that this study has a wider application to our understanding of the role of alternative religions in western contexts

Tibetan Logic Katherine Rogers,2009-03-16

Within Tibetan Buddhism has arisen a system of education and a curriculum designed to enable the student to develop a path of reasoning a consciousness trained in reasoned analysis until capable of understanding first the meaning of religious texts and eventually the true nature of reality An important aspect of Tibetan logic is that it is used to develop new and valid knowledge about oneself and the world Included here is a translation of a text by Pur bu jok the Thirteenth Dalai Lama s philosophy tutor on the topic of Signs and Reasonings a manual introducing beginners to the principles vocabulary and concepts of the system of logic The purpose of Pur bu jok s text is to lay a foundation for understanding how valid cognition is acquired What is validity How is valid knowledge acquired What can be known Further what knowledge can be acquired through reasoning that will lead one to spiritual development and even to buddhahood Katherine Rogers has enriched the translation with commentary by several eminent scholars of the Ge luk pa order revealing a marvelous path that draws one into the heart of the Tibetan approach to knowledge and self transformation It is fundamental to Tibetan thought that true knowledge is practical useful and ultimately transforming and liberating Such knowledge is far from obvious but it can be attained through correct reasoning Thus logic is an important tool a part of the spiritual path leading ultimately to complete self transformation

Tsong-kha-pa's Final Exposition of Wisdom Jeffrey Hopkins, 2014-02-25 In fourteenth and fifteenth century Tibet there was great ferment about what makes enlightenment possible since systems of self liberation must show what factors pre exist in the mind that allow for transformation into a state of freedom from suffering This controversy about the nature of mind which persists to the present day raises many questions This book first presents the final exposition of special insight by Tsong kha pa the founder of the Ge luk pa order of Tibetan Buddhism in his medium length Exposition of the Stages of the Path as well as the sections on the object of negation and on the two truths in his Illumination of the Thought Extensive Explanation of Chandrakirti s Supplement to Nagarjuna s Treatise on the Middle It then details the views of his predecessor Dol po pa Shay rap Gyel tsen the seminal author of philosophical treatises of the Jo nang pa order as found in his Mountain Doctrine followed by an analysis of Tsong kha pa s reactions By contrasting the two systems Dol po pa s doctrine of other emptiness and Tsong kha pa s doctrine of self emptiness both views emerge more clearly contributing to a fuller picture of reality as viewed in Tibetan Buddhism Tsong kha pa s Final Exposition of Wisdom brilliantly explicates ignorance and wisdom explains the relationship between dependent arising and emptiness shows how to meditate on emptiness and explains what it means to view phenomena as like illusions
