Great War In British Literature:

The Great War in British Literature Adrian Barlow, 2000 The Great War of 1914-18 continues to fascinate readers and writers This book aims to explore the different ways in which this war has featured both as a genre and as a theme in British literature of the past century it asks what actually is the literature of the Great War and looks at different ways in which people have read this literature reacted to it and used it Publisher's description

Handbook of British Literature and Culture of the First World War Ralf Schneider, Jane Potter, 2021-09-20 The First World War has given rise to a multifaceted cultural production like no other historical event This handbook surveys British literature and film about the war from 1914 until today The continuing interest in World War I highlights the interdependence of war experience the imaginative re-creation of that experience in writing and individual as well as collective memory In the first part of the handbook the major genres of war writing and film are addressed including of course poetry and the novel but also the short story furthermore it is shown how our conception of the Great War is broadened when looked at from the perspective of gender studies and post colonial criticism The chapters in the second part present close readings of important contributions to the literary and filmic representation of World War I in Great Britain All in all the contributions demonstrate how the opposing forces of focusing and canon formation on the one hand and broadening and revision of the canon on the other have characterised British literature and culture of the First World War

British Literature of World War I, Volume 2 Andrew Maunder, Angela K Smith, Jane Potter, Trudi Tate, 2017-09-29 Given the popular and scholarly interest in the First World War it is surprising how little contemporary literary work is available This five volume reset edition aims to redress this balance making available an extensive collection of newly edited short stories novels and plays from 1914-19

The Great War and Modern Memory Paul Fussell, 2000 The year 2000 marks the twenty fifth anniversary of the publication of *The Great War and Modern Memory* winner of the National Book Award the National Book Critics Circle Award and recently named by the Modern Library one of the twentieth century's 100 Best Non Fiction Books Fussell's landmark study of WWI remains as original and gripping today as ever before a literate literary and illuminating account of the Great War the one that changed a generation ushered in the modern era and revolutionized how we see the world Exploring the work of Siegfried Sassoon Robert Graves Edmund Blunden David Jones Isaac Rosenberg and Wilfred Owen Fussell supplies contexts both actual and literary for those writers who most effectively memorialized WWI as an historical experience with conspicuous imaginative and artistic meaning For this special edition the author has prepared a new afterword and a suggested further reading list As this classic work draws upon several disciplines among them literary studies military history cultural criticism and historical inquiry it will continue to appeal to students scholars and general readers of various backgrounds

Modernism, Labour and Selfhood in British Literature and Culture, 1890-1930 Morag Shiach, 2004-02-26 Shiach examines the ways in which labour was experienced and represented between 1890 and 1930 There is a critical tradition in literary and historical

studies that sees the impact of modernity on human labour in terms of intensification and alienation Shiach however explores a series of efforts to articulate the relations between labour and selfhood within modernism Through readings of Sylvia Pankhurst and D H Lawrence Shiach shows how labour underpins the political and textual innovations of the period This study will be of interest to literary and cultural scholars alike

British Literature of World War I Andrew Maunder, Angela K. Smith, Jane Potter, Trudi Tate, 2017-05-24 Given the popular and scholarly interest in the First World War it is surprising how little contemporary literary work is available This five volume reset edition aims to redress this balance making available an extensive collection of newly edited short stories novels and plays from 1914 19 [A/AS Level English Literature A for AQA Student Book](#) Russell Carey, Anne Fairhall, Tom Rank, 2015-11-12 Created specifically for the AQA A AS level English literature A specification for first teaching from 2015 this print student book is suitable for all abilities providing stretch opportunities for the more able and additional scaffolding for those who need it Helping bridge the gap between GCSE and A level the unique three part structure focuses on texts within a particular time period and supports students in interpreting texts and reflecting on how writers make meaning

The Great War in Irish Poetry Fran Brearton, 2003 The Great War in Irish Poetry explores the impact of the First World War on the work of W B Yeats Robert Graves and Louis MacNeice in the period 1914 45 and on three contemporary Northern Irish poets Derek Mahon Seamus Heaney and Michael Longley Its concern is to place their work and memory of the Great War in the context of Irish politics and culture in the twentieth century The historical background to Irish involvement in the Great War is explained as are the ways in which issues raised in 1912 20 still reverberate in the politics of remembrance in Northern Ireland particularly through such events as the Home Rule cause the loss of the Titanic the Battle of the Somme the Easter Rising While the Great War is perceived as central to English culture and its literature holds a privileged position in the English literary canon the centrality of the Great War to Irish writing has seldom been recognised This book shows first that despite complications in Irish domestic politics which led to the repression of memory of the Great War Irish poets have been drawn throughout the century to the events and images of 1914 18 This engagement is particularly true of those writing in the troubled Northern Ireland of the last thirty years The second main concern is the extent to which recognition of the importance of the Great War in Irish writing has itself become a casualty of competing versions of the literary canon

British literature and archaeology, 1880-1930 Angela Blumberg, 2022-09-27 British literature and archaeology 1880 1930 reveals how British writers and artists across the long turn of the twentieth century engaged with archaeological discourse its artefacts landscapes bodies and methods uncovering the materials of the past to envision radical possibilities for the present and future This project traces how archaeology shaped major late Victorian and modern discussions informing debates over shifting gender roles facilitating the development of queer iconography and the recovery of silenced or neglected histories inspiring artefactual forgery and transforming modern conceptions of authenticity and helping writers and artists historicise

the traumas of the First World War Ultimately unearthing archaeology at the centre of these major discourses this book simultaneously positions literary and artistic engagements with the archaeological imagination as forms of archaeological knowledge in themselves **Krieg und Literatur/War and Literature Vol. XIV, 2008** Claudia Junk, Thomas F. Diplomacy in Postwar British Literature and Culture Caroline Zoe Krzakowski, 2023-05-16 In *Diplomacy in Postwar British Literature and Culture* Krzakowski examines how representations of British envoys diplomats officials and spies in fiction and non fiction by Rebecca West Lawrence Durrell Olivia Manning and John le Carr as well as in the films of Alfred Hitchcock respond to the political instability of the postwar period This study argues that the rise of international relations in the twentieth century shaped modern British fiction and film and offers a new way to trace the continuities between geopolitics and British cultural production in the aftermath of the Second World War

For No Reason at All Jeffrey A. Hinkelman, 2022-02-04 The years following the signing of the Armistice saw a transformation of traditional attitudes regarding military conflict as America attempted to digest the enormity and futility of the First World War During these years popular film culture in the United States created new ways of addressing the impact of the war on both individuals and society Filmmakers with direct experience of combat created works that promoted their own ideas about the depiction of wartime service ideas that frequently conflicted with established heroic tropes for the portrayal of warfare on film Those filmmakers spent years modifying existing standards and working through a variety of storytelling options before achieving a consensus regarding the fitting method for rendering war on screen That consensus incorporated facets of the experience of Great War veterans and these countered and undermined previously

accepted narrative strategies This process reached its peak during the Pre Code Era of the early 1930s when the initially prevailing narrative would be briefly supplanted by an entirely new approach that questioned the very premises of wartime service Even more significantly the rhetoric of these films argued strongly for an antiwar stance that questioned every aspect of the wartime experience For No Reason at All The Changing Narrative of the First World War in American Film discusses a variety of Great War themed films made from 1915 to the present tracing the changing approaches to the conflict over time Individual chapters focus on movie antecedents animated films and comedies the influence of literary precursors the African American film industry women centered films and the effect of the Second World War on depictions of the First Films discussed include Hearts of the World The Cradle of Courage Birthright The Big Parade She Goes to War Doughboys Young Eagles The Last Flight Broken Lullaby Lafayette Escadrille and Wonder Woman among many others Nineteenth-Century British Literature Then and Now Simon Dentith, 2016-05-06 Envisioning today's readers as poised between an impossible attempt to read texts as their original readers experienced them and an awareness of our own temporal moment Simon Dentith complicates traditional prejudices against hindsight to approach issues of interpretation and historicity in nineteenth century literature Suggesting that the characteristic aesthetic attitude encouraged by the backward look is one of irony rather than remorse or regret he examines works by Charles Dickens George Eliot Anthony Trollope William Morris and John Ruskin in terms of their participation in significant histories that extend to this day Liberalism class gender political representation and notions of progress utopianism and ecological concern as currently understood can be traced back to the nineteenth century Just as today's critics strive to respect the authenticity of nineteenth century writers and readers who responded to these ideas within their historical world so too do those nineteenth century imaginings persist to challenge the assumptions of the present It is therefore possible Dentith argues to conceive of the act of reading historical literature with an awareness of the historical context and of the difference between the past and the present while allowing that friction or difference to be part of how we think about a text and how it communicates His book summons us to consider how words travel to the reality of the reader's own time and how engagement with nineteenth century writers anticipation of the judgements of future generations reveal hindsight's capacity to transform our understanding of the past in the light of subsequent knowledge
