Richard Bailey

Great White Lie Dishonesty Waste And Incompetence In The Medical Community:

Between Doctors and Patients Lilian R. Furst, 1998 Although there are many books on the mechanics of doctor patient interaction none has previously confronted the philosophical and psychological issues of power and trust that bind these figures One consequence of their changed relationship Furst asserts has been the decrease of interest in patients as individuals In this time of impersonal HMOs and spiraling health care costs she hopes that doctors and patients can learn from the past and eventually find a mutually beneficial balance of power that will see medicine as both a science and an art and will recognize human understanding as an integral element of healing The Great White Lie Walt Bogdanich, 1992 A Pulitzer Prize winning investigative reporter takes an in depth look at the mayhem greed and even murder in hospitals around the country Probably the best consumer s guide to hospital medicine ever written The Washington Post Selected by USA Today and Business Week as one of the top 10 books of the year *An American Health Dilemma* W. Michael Byrd, Linda A. Clayton, 2001-12-21 First published in 2002 An American Health Dilemma is the story of medicine in the United States from the perspective of people who were consistently officially mistreated abused or neglected by the Western medical tradition and the US health care system It is also the compelling story of African Americans fighting to participate fully in the health care professions in the face of racism and the increased power of health corporations and HMOs This tour de force of research on the relationship between race medicine and health care in the United States is an extraordinary achievement by two of the leading lights in the field of public health Ten years out it is finally updated with a new third volume taking the story up to the present and beyond remaining the premiere and only reference on black public health and the history of African American medicine on the market today No one who is concerned with American race relations with access to and quality of health care or with justice and equality for humankind can afford to miss this powerful resource **An American Health Dilemma: Race, medicine, and health care in the United States 1900-2000** W. Michael Byrd, Linda A. Clayton, 2000 This volume is a comprehensive collection of critical essays on *The Taming of the Shrew* and includes extensive discussions of the play s various printed versions and its theatrical productions Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play The issues discussed include gender authority female autonomy and unruliness courtship and marriage language and speech and performance and theatricality **Public Privates** Terri Kapsalis, 1997 The quintessential examination of women gynecology is not simply the study of women s bodies but also serves to define and constitute them From J Marion Sims s surgical experiments on unanesthetized slave women in the mid 19th century to the use of cadavers and prostitutes to teach medical students gynecological techniques Kapsalis focuses on the ways in which women and their bodies have been treated by the medical establishment 34 photos *ABA Journal*, 1995-11 The ABA Journal serves the legal profession Qualified recipients are lawyers and judges law students law librarians and associate members of the American Bar Association House Calls Patch Adams, 1998 A reminder that some

of the most important factors in healing are not high tech marvels but ordinary factors such as love compassion friendship and hope

Gesundheit! Patch Adams, 1998-10-01 The inspiring and hilarious story of Patch Adams's quest to bring free health care to the world and to transform the way doctors practice medicine Tells the story of Patch Adams's lifetime quest to transform the health care system Released as a film from Universal Pictures starring Robin Williams Meet Patch Adams M D a social revolutionary who has devoted his career to giving away health care Adams is the founder of the Gesundheit Institute a home based medical practice that has treated more than 15 000 people for free and that is now building a full scale hospital that will be open to anyone in the world free of charge Ambitious Yes Impossible Not for those who know and work with Patch Whether it means putting on a red clown nose for sick children or taking a disturbed patient outside to roll down a hill with him Adams does whatever is necessary to help heal In his frequent lectures at medical schools and international conferences Adams's irrepressible energy cuts through the businesslike facade of the medical industry to address the caring relationship between doctor and patient that is at the heart of true medicine All author royalties are used to fund The Gesundheit Institute a 40 bed free hospital in West Virginia Adams's positive vision and plan for the future is an inspiration for those concerned with the inaccessibility of affordable quality health care Today's high tech medicine has become too costly impersonal and grim In his frequent lectures to colleges churches community groups medical schools and conferences Patch shows how healing can be a loving creative humorous human exchange not a business transaction

Wasting Away Pat Armstrong, Hugh Armstrong, 2003 Wasting Away is a provocative text that examines and assesses the Canadian health care system It examines the development of the Canadian health care system and breaks the analysis down into accessible units who provides the institutions and the people who pays funding sources and who decides public private and patients
