Hugh Wilford, 2013-12-03 From the 9 11 attacks to waterboarding to drone strikes relations between the United States and the Middle East seem caught in a downward spiral And all too often the Central Intelligence Agency has made the situation worse But this crisis was not a historical inevitability far from it Indeed the earliest generation of CIA operatives was actually the region's staunchest western ally In America's Great Game celebrated intelligence historian Hugh Wilford reveals the surprising history of the CIA's pro Arab operations in the 1940s and 50s by tracing the work of the agency's three most influential and colorful officers in the Middle East Kermit Kim Roosevelt was the grandson of Theodore Roosevelt and the

first head of CIA covert action in the region his cousin Archie Roosevelt was a Middle East scholar and chief of the Beirut station The two Roosevelts joined combined forces with Miles Copeland a maverick covert operations specialist who had joined the American intelligence establishment during World War II With their deep knowledge of Middle Eastern affairs the three men were heirs to an American missionary tradition that engaged Arabs and Muslims with respect and empathy Yet they were also fascinated by imperial intrigue and were eager to play a modern rematch of the Great Game the nineteenth century struggle between Britain and Russia for control over central Asia Despite their good intentions these Arabists propped up authoritarian regimes attempted secretly to sway public opinion in America against support for the new state of Israel and staged coups that irrevocably destabilized the nations with which they empathized Their efforts and ultimate failure would shape the course of U S Middle Eastern relations for decades to come Based on a vast array of declassified government records private papers and personal interviews America s Great Game tells the riveting story of the merry band of CIA officers whose spy games forever changed U S foreign policy
