## Great Debates:

**Judaism's Great Debates** Barry L. Schwartz, 2012-07-01 Thanks to these generous donors for making the publication of this book possible David Lerman and Shelley Wallock D Walter Cohen Wendy and Leonard Cooper Rabbi Howard Gorin Gittel and Alan Hilibrand Marjorie and Jeffrey Major Jeanette Lerman Neubauer and Joe Neubauer Gayle and David Smith and Harriet and Donald Young Ever since Abraham's famous argument with God Judaism has been full of debate Moses and Korah David and Nathan Hillel and Shammai the Vilna Gaon and the Ba'al Shem Tov Spinoza and the Amsterdam Rabbis the list goes on Jews debate justice authority inclusion spirituality resistance evolution Zionism and more No wonder that Judaism cherishes the expression *machloket l'shem shamayim* an argument for the sake of heaven In this concise but important survey Rabbi Barry L Schwartz presents the provocative and vibrant thesis that debate and disputation are not only encouraged within Judaism but reside at the very heart of Jewish history and theology In his graceful engaging and creative prose Schwartz presents an introduction to an intellectual history of Judaism through the art of argumentation Beyond their historical importance what makes these disputations so compelling is that nearly all of them regardless of their epochs are still being argued Schwartz builds the case that the basis of Judaism is a series of unresolved rather than resolved arguments Drawing on primary sources and with a bit of poetic license Schwartz reconstructs the real or imagined dialogue of ten great debates and then analyzes their significance and legacy This parade of characters spanning three millennia of biblical rabbinic and modern disputation reflects the panorama of Jewish history with its monumental political ethical and spiritual challenges

[John Dewey's Great Debates - Reconstructed](#) Shane Ralston, 2011-11-01 Confirming his moniker as America's philosopher of democracy John Dewey engaged in a series of public debates over the course of his lifetime vividly demonstrating how his thought translates into action These debates made Dewey a household name and a renowned public intellectual during the early to mid twentieth century a time when the United States fought two World Wars struggled through an economic depression experienced explosive economic growth and spawned a grassroots movement that characterized an entire era Progressivism Unfortunately much recent Dewey scholarship neglects to situate Dewey's ideas in the broader context of his activities and engagements as a public intellectual This project charts a path through two of Dewey's actual debates with his contemporaries Leon Trotsky and Robert Hutchins to two reconstructed debates with contemporary intellectuals E D Hirsch and Robert Talisse both of whom criticized Dewey's ideas long after the American philosopher's death and finally to two recent debates one on home schooling and the other on U S foreign policy in which Dewey's ideas offer a unique and compelling vision of a way forward

*The 8 Great Debates of Bible Prophecy* Ron Rhodes, 2014-08-01 You've heard about the tribulation millennium rapture and antichrist but you may wonder what's all the debating about Do most Christians agree on the big issues And what about other topics dispensationalism interpretive views timing of events are they too complex for most folks to understand Not at all In this concise and easy to read review respected Bible teacher

Ron Rhodes identifies eight of the most important end times discussions. Avoiding complex arguments, he highlights the most important biblical passages, summarizes a few of the most popular interpretations, and provides succinct conclusions. He demonstrates that the Bible's end times teaching is intended to be a blessing for every believer. As you compare and contrast the various viewpoints, you'll be able to enjoy constructive conversations with other Christians and support your own informed convictions. You'll also enrich your reading of the Scriptures and see how passages fit together in God's great plan for the ages.

**Great Debates in Equity and Trusts** Alastair Hudson, 2014-08-26 This textbook is an ambitious and engaging introduction to the more advanced writings on equity and trusts, primarily designed to allow students to get under the skin of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and ultimately a clearer understanding. The aim of the book is therefore not to present a complete overview of theoretical issues in equity and trusts, but rather to illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable experts on key topics, and each chapter ends with a list of guided further reading.

**Great Debates in Gender and Law** Rosemary Auchmuty, 2018-03-16 The first textbook to consider gender perspectives in relation to the whole undergraduate law curriculum in England and Wales. Gender is of central importance in every area of law and every area of people's lives, but is rarely mentioned in the formal LLB syllabus. This book is designed to fill some of those gaps. 18 chapters, written by experts in the field, cover all the core modules on the English LLB, together with 11 of the most popular options. Aimed at students and lecturers on undergraduate and postgraduate Gender and Law modules, the book will also be useful for all LLB and LLM students studying English law who may use it to accompany their studies from their first to their final year, and also for prospective law students, legal scholars from outside England and Wales, and scholars in other disciplines.

**Great Debates in American History: Civil rights, part 2; with an introduction by W. H. Page** Marion Mills Miller, 1913

**The Great Debates in Entrepreneurship** Donald F. Kuratko, Sherry Hoskinson, 2017-08-24 This volume presents some of the most important debates that exist in the field of Entrepreneurship today. It brings together leading scholars deriving contributions from special sessions designed by the Global Consortium of Entrepreneurship Centers (GCEC) to discuss both sides of these great debates.

**Great Debates in Criminal Law** Jonathan Herring, 2020-06-01 This textbook is an introduction to more advanced writings on criminal law, primarily designed to allow students to think critically and analyse specific topics. Each chapter is structured around key questions and debates that provoke deeper thought. It asks questions such as: Why do we have the laws that we have? Could the criminal law look differently? How should the law be applied to novel situations? Does the law in fact reflect prejudices? The aim of the book is not to present a complete overview of theoretical issues in criminal law, but rather to illustrate the current debates among those working in shaping the area. The text features summaries of the views of notable experts on key topics, and each chapter ends with a list of guided further reading.

New to this Edition: A new

debate on the law on body modification Fresh discussion of the law on dishonesty Important new case law on causation Detailed discussion of developments on the law on accessory Significant developments on the law on sexual offences

Great Debates in Tort Law Jonathan Morgan, 2022-11-17 Exploring the key discussions and arguments in tort law this book enables students to get a deeper and more rounded understanding of the subject Part of the Great Debates series it is an engaging introduction to the more advanced legal concepts such as negligent breach of duty and vicarious liability Each chapter is structured around questions and debates that provoke deeper thought It features summaries of the views of notable experts on key topics and each chapter ends with a list of further reading This book is ideal for use by ambitious students alongside a main course textbook encouraging them to think critically analyse the topic and gain new insights The development of these skills and the discursive nature of the series with an emphasis on contentious topics means the book is also useful for students when preparing their dissertations Suitable for use on courses at all levels this book helps students to excel in coursework and exams

**Great Debates in Contract Law** Jonathan Morgan, 2020-04-02 This textbook is an engaging introduction to the more advanced writings on contract law primarily designed to allow students to get under the skin of the topic and begin to build their critical thinking and analysis skills Each chapter is structured around key questions and debates that provoke deeper thought and ultimately a clearer understanding This edition has been extensively rewritten to include new cases and scholarship throughout New sections include no oral modification clauses substantive fairness regulation of standard form contracts and remoteness of damage in contract An excellent book for students of contract law who wish to know more the aim of the book is not to present a complete overview of theoretical issues in contract law but rather to illustrate the current debates which are currently going on among those working in shaping the area The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading New to this Edition Extensively rewritten to include new cases and scholarship throughout New sections and debates include no oral modification clauses substantive fairness regulation of standard form contracts and remoteness of damage in contract

*International Relations and the First Great Debate* Brian Schmidt, 2013-08-15 This book provides an authoritative account of the controversy about the first great debate in the field of International Relations Of all the self images of International Relations none is as pervasive and enduring as the notion that a great debate pitting idealists against realists took place in the 1940s The story of the first great debate continues to structure the contemporary identity of International Relations yet in recent years revisionist historians have challenged the conventional wisdom that the field experienced such a debate Drawing on expert contributors working in Canada Europe the United Kingdom and the United States this book includes key participants in the historiographical controversy The book assembles the existing scholarship and provides a thorough analysis of the status of the first great debate in the history of International Relations It is an invaluable examination of the causes and future direction of idealist and realist arguments International Relations and the First Great Debate will be of

interest to students and scholars concerned with the foundations of International Relations      **Presidential Debates** United States. Congress. House. Committee on House Administration. Subcommittee on Elections, 1993      *Shapers of the Great Debate on the Civil War* Dan Monroe, Bruce Tap, 2005-07-30 With the conclusion of the Mexican War in 1848 the United States seemed poised to fulfill the manifest destiny that was on the lips of journalists and politicians Yet even before the war was over tensions over the issue of slavery erupted Slavery symbolized the social cultural constitutional and economic differences that were dividing the North and South Through four years of bloody civil war and the loss of over 600 000 lives the American republic decided the fate of slavery asserted the supremacy of the federal government over state authority and began to grapple with the difficult issues of reconstruction This work provides substantial biographical entries of 20 individuals who shaped and defined the debates during the Civil War period Political and military figures such as Abraham Lincoln and Robert E Lee writers such as Harriet Beecher Stowe and abolitionist reformers such as Frederick Douglass and George Fitzhugh are included With the conclusion of the Mexican War in 1848 the United States seemed poised to fulfill the manifest destiny that was on the lips of journalists and politicians Yet even before the war was over tensions over the issue of slavery erupted Slavery symbolized the social cultural constitutional and economic differences that were dividing the North and South Through four years of bloody civil war and the loss of over 600 000 lives the American republic decided the fate of slavery asserted the supremacy of the federal government over state authority and began to grapple with the difficult issues of reconstruction This work provides substantial biographical entries of 20 individuals who shaped and defined the debates during the Civil War period Political and military figures such as Abraham Lincoln and Robert E Lee writers such as Harriet Beecher Stowe and abolitionist reformers such as Frederick Douglass and George Fitzhugh are included Each biography provides a concise account of the subject's life followed by an analysis of the figure's role and contribution to the central issues of the day and concludes with a bibliography of secondary and primary sources available to students An appendix of over 180 additional biographies highlights the lives of others who played a role in the debates of the Civil War      *The Eighty Years' Crisis* Ken Booth, Michael Cox, Timothy Dunne, 1998 This book uses the agenda of E H Carr and most obviously extends the title of his classic book *The Twenty Years Crisis* as the point of departure to discuss aspects of the world historical crisis from the end of the First World War until the end of the 1990s This crisis identified by 80 years of destructive wars inequalities in life chances and today's casualties of the global political economy has shaped both the practices of international politics and the way they have been conceptualised and reconceptualised by specialists in International Relations A distinguished group of contributors have written about the development of the academic discipline of International Relations in the inter war years the Cold War and post Cold War eras ethics power and nationalism the conditions of peace and the roles of law and peaceful change and finally considering future prospects about globalization and the end of the old order      Televised Presidential Debates and Public Policy Sidney Kraus, 2013-10-11 With this second

edition Kraus continues his examination of formal presidential debates considering the experience of television in presidential elections reviewing what has been learned about televised debates and evaluating that knowledge in the context of the election process specifically and the political process generally He also examines the media and the role they occupy in presidential elections Because critics often refer to the Lincoln Douglas debates when reproaching presidential debates comparisons of the two are discussed throughout the book Much of the data and information for this accounting of televised presidential debates comes from the author's first hand experience as one who was involved with these debates as a participant observer on site at nearly all of the debates discussed Throughout these discussions emphasis is placed on the implications for public policy To suggest policy that will be accepted and adopted by politicians and the public is at best difficult Proposals for changes in public policy based on experience even when scientific data support those changes must be subjected to an assessment of the values and predispositions of the proponent These values and predispositions however may not necessarily inhibit the proponent's objectivity As such this review of television use in the presidential election process provides the context for examining televised debates

**Handbook of International Relations** Walter Carlsnaes, Thomas Risse, Thomas Risse-Kappen, Beth A Simmons, 2002 NEW IN PAPERBACK FEBRUARY 2005 The most systematic and wide ranging survey of the multi faceted field of International Relations yet produced It is sure to become a standard reference work and teaching text and is unlikely to be superseded at any time in the near future It should be considered as essential reading International Affairs The Handbook of International Relations published 2002 in hardback quickly established itself as the benchmark volume providing a state of the art review and indispensable guide to the study of international relations It is now released in paperback in order to be accessible to students in classroom use Divided into three parts the volume reviews both the historical philosophical analytical and normative roots to the discipline and the key contemporary topics of research and debate today The first part introduces the major approaches within the field and unpacks many of the on going debates within the discipline including those between rationalist and constructivist approaches The second part moves on to explore the key concepts and contextual factors important to the subject from concepts like the state and power to international and transnational actors debates around globalization and contending feminist perspectives The final part reviews a number of the key substantive issues in international relations and is designed to complement the analytical tools and perspectives presented in Parts I and II Examples of the many topics included are foreign policy war and peace security nationalism and ethnicity finance trade development the environment and human rights

**Great Debates in EU Law** Jeremias Adams-Prassl, Sanja Bogojevic, 2022-05-30 This book introduces students to the great debates in EU law Rather than simply presenting traditional approaches that provide descriptions often in historical order of substantive and constitutional elements of Union law this book clusters material around these debates in an engaging and lively way By offering concise analyses of core dilemmas and tensions in EU law the book provides a different kind of introduction one that helps students

place the discussions within a boarder context and narrative The authors have found in their teaching that students often struggle with individual aspects and materials without understanding broader narratives which are traditionally developed in monographs or journal articles that are beyond the reach of undergraduate readers

**50 Big Debates in Reproductive Medicine** Roy Homburg,Adam H. Balen,Robert F. Casper,2021-12-16 One of modern healthcare s most controversial areas reproductive medicine is an emerging discipline that fosters hugely divergent opinions on topics such as laboratory techniques clinical management and ethical considerations Highlighting over 50 contentious topics in reproductive medicine this book presents expertly argued opinions are presented for and against often with diametrically opposing views about management Debates such as these are being increasingly used as learning tools helping participants develop their critical thinking skills and showing that context is vital when making decisions Issues discussed include limits on IVF provision ethical queries about sex selection embryology and ovarian stimulation Authors are authorities in their field combining years of experience with fresh and innovative ideas to structure their arguments Readers will gain an insight into topical controversies critically evaluating the different sides to enhance their own clinical practice

**Shapers of the Great Debate on Jacksonian Democracy** Paul E. Doutrich,2004-03-30 The successful conclusion of the War of 1812 ushered in a new age of American history the Jacksonian era This book explores the background motives and goals of political and social leaders who dominated this era Divided into three categories Whigs Democrats and Writers and Reformers biographies of Henry Clay Ralph Waldo Emerson James Knox Polk Andrew Jackson and others are included Debates over such issues as westward expansion the Second Bank of the United States Indian policies and slavery are discussed from opposing viewpoints Americans of the Jacksonian era upheld traditions and values of their forefathers while also embracing the unlimited opportunity of the future During this era profound political divisions emerged within the nation with the core debate focused on the extent of the federal government s power Americans debated such issues as the degree to which the federal government could compel states to implement federal legislation administer expansion policy regulate trade and manage the economy Interwoven within these debates were questions about the legitimacy of slavery This book explores the background motives and goals of political and social leaders who dominated this era Debates over such issues as westward expansion the Second Bank of the United States Indian policies and slavery are discussed from opposing viewpoints Students and general readers will find this reference tool useful in describing the lives and views of individuals who directed the course of the nation during the Jacksonian era
