Great Decisions 1991:

History's Greatest Decisions Bill Price, 2017-01-29 History's Greatest Decisions identifies and profiles the many important and difficult decisions leaders have made through history which shaped the world as we know it today One of the defining features of being human is our capacity for complex problem solving Most of the time we deal with mundane concerns like what to have for breakfast or which pair of shoes to wear but occasionally people face decisions about rather weightier matters History's Greatest Decisions is concerned with this second category those important and difficult decisions which only a very few people get to make and which can impact on the lives of millions of others and have the potential to change the world From our unknown ancestors who made the first stone tools to those people in Northern Ireland who managed to put aside their differences in order to create a better future for their children from the most powerful man in the world deciding not to start a nuclear war to a woman on a bus standing up for her rights refusing to move seats History's Greatest Decisions looks at well known and not so well known examples of people who made the crucial decisions and got them right

courts the fine words of the new Constitution could do nothing to stop him It would take a man to make those words good and America found him in John Marshall The Great Decision tells the riveting story of Marshall and of the landmark court case Marbury v Madison through which he empowered the Supreme Court and transformed the idea of the separation of powers into a working blueprint for our modern state Rich in atmospheric detail political intrigue and fascinating characters The Great Decision is an illuminating tale of America s formative years and of the evolution of our democracy **Tough Issues, Good Decisions - Stories and Writing Prompts** Lillian R. of 1990 cleared the way for negotiations toward a new post apartheid political order in South Africa But three years later the main parties have made little progress toward a compromise while violence escalates in the townships In this revealing study Marina Ottaway examines the new conflicts emerging in South Africa the factors influencing them and the probable outcome She shows that the black on white conflict that has made the country a pariah in the past has evolved into a much more complex state of affairs and explains that the transition is likely to take an unprecedented form Beginning with a brief history of the events since Mandela s release Ottaway provides a vivid account of the evolving conflict over apartheid She discusses the complexity of conflict resolution in a country where internal and external currents work against each other and where the struggle for power transcends any strides toward peace Ottaway thoroughly addresses the issues involved in South Africa s transition from apartheid She explains that the abolition of the pervasive system has more far reaching implications than originally thought South Africa explores the effects that the international climate of the 1990s has had on the country s transition Ottaway contends that the international community rejects apartheid but is unsympathetic to black demands for redistribution and has condemned the white government s vision of separate development but accepts ethnic nationalism as inevitable She describes the dramatic effects the new world order has had on South Africa and assesses what those changes will mean to the country s difficult transition

Dark Victory

Walden Bello,1998-12-20 Hunger and malnutrition stalk the countries of the South Over the last twenty years as the populations of these countries have increased so too has mass poverty on a grotesque scale In this fiercely critical study of Western aid giving Walden Bello offers a persuasive argument that recolonisation of the Third World has been carried out through the agencies of the International Banks Bello argues that neoliberalism or doctrinal free market ideology came to power in the United States with an agenda to discipline the Third World and the consequences of such a policy has resulted in lower barriers to imports the removal of restrictions on foreign investments privatisation of state owned activities a reduction in social welfare spending wage cuts and devaluation of local currencies Recipients of structural adjustment loans from the West have been forced to accept these policies with disastrous consequences Hailed as a classic study of global poverty Dark Victory is now reissued with a substantial new epilogue by the author
