Great Garden, No Sweat! John Patrick, 1994-01-01 *Big Plans* Kenneth Kolson, 2021-04-27 Similar in spirit to Lewis Mumford's *The City in History* and Jane Jacobs' *The Death and Life of Great American Cities* wonderful funny idiosyncratic Frederick R Steiner author of *The Living Landscape* *Big Plans* The Allure and Folly of Urban Design springs from the idea that human aspirations for the city tend to overstate the role of rationality in public life Inspired by the architectural and urban criticism of such writers as Lewis Mumford Jane Jacobs and John Brinckerhoff Jackson Kolson adopts a user's perspective on issues of urban design an approach that highlights both the futility of social engineering and the resilience of the human spirit A book that should be read by all those people and there seem to be more of them as week chases week who are thinking about the fate of lower Manhattan right now Bloomberg News Kenneth Kolson has lots of material Some of what's been built in cities lately is astonishing and not in a good way The Boston Globe Kolson is a passionate critic of urban schemes with well founded skepticism about the role rationality has played in designing them Journal of the Society of Architectural Historians A fascinating read about the utopian goal of *Big Plans* and the dystopian reality of lived experience Design Issues

Garden Plots Shelley Saguario, 2017-05-15 Shelley Saguario's unique book illustrates the persistent presence of gardens in literature Gardens in fiction do not simply represent a familiar theme Saguario contends but are bound up with wider aesthetic and ideological issues As with literary forms so too are gardens subject to transformations Encompassing a wide array of twentieth and twenty first century authors including Virginia Woolf Eudora Welty Carol Shields J M Coetzee Toni Morrison Leslie Marmon Silko Jamaica Kincaid Don DeLillo and Philip K Dick this book's preoccupations are signalled in the evocatively titled chapters Botanical Modernisms Natural History and Postmodern Grafting Postcolonial Landscapes How Does Your Cyber Garden Grow and Coevolutionary Histories the Poetics of a Paradox Informed by postcolonial formalist feminist and psychoanalytic theories *Garden Plots* is a must read for all those alive to the space gardens inhabit in the literary landscape

Victorian Visions of Suburban Utopia Nathaniel Robert Walker, 2020-11-17 The rise of suburbs and disinvestment from cities have been defining features of life in many countries over the course of the twentieth century In Victorian Visions of Suburban Utopia Nathaniel Walker asks why did we abandon our dense complex urban places and seek to find the best of the city and the country in the flowery suburbs While looking back at the architecture and urban design of the 1800s offers some answers Walker argues that a great missing piece of the story can be found in Victorian utopian literature The replacement of cities with high tech suburbs was repeatedly imagined and breathlessly described in the socialist dreams and science fiction fantasies of dozens of British and American authors Some of these visionaries such as Robert Owen Edward Bulwer Lytton Edward Bellamy William Morris Ebenezer Howard and H G Wells are enduringly famous while others were street vendors or amateur chemists who have been all but forgotten Together they fashioned strange and beautiful imaginary worlds built of synthetic gemstones lacy metal colonnades and unbreakable glass staffed by robotic servants and teeming with flying carriages As varied as their futuristic visions could be Walker reveals how most of them were unified by a single desperate plea for humanity to have a future worth living we must abandon our smoky poor chaotic Babylonian cities for a life in shimmering gardens
