Great Images Of British Printmaking:

Great Images of British Printmaking Raymond Lister, 1978 **The Print Before Photography** Antony Griffiths, 2016 A landmark publication beautifully illustrated with over 300 prints from the British Museum's renowned collection which traces the history of printmaking from its earliest days until the arrival of photography **British Prints** Ian Mackenzie, 1998 Originally published in 1987 this new edition of *British Prints* is a comprehensive dictionary of British printmakers working between 1650 and 1950. It covers eighteenth century mezzotint portraits, nineteenth century sporting aquatints and topographical views and original etchings and lithographs in the twentieth century. Since most prints in this period were either signed in the plate or individually signed in ink or pencil by the artist, it provides a convenient and accessible means to identify a printmaker, look up the concise biographical summary and ascertain the printmaker's range of work and relative stature as well as to obtain some idea of the likely value of the works. *British Prints* reached the status of bible within the antiques trade in its successful first edition and this new fully revised edition has been very quick to reprint due to the demand. *Prints and Printmaking* Antony Griffiths, 1996 Introductory text that touches on the basics of various printmaking techniques and briefly describes the history of each **British Journal of Photography**, 2007 *Prints and Printmaking* Raymond Lister, 1984 *Photography in Printmaking* Charles Newton, 1979 **Avant-garde British Printmaking, 1914-1960** Frances Carey, Antony Griffiths, Stephen Coppel, 1990 This study the first devoted primarily to the non-commercial printmaking of the period begins with the earliest abstract prints by artists such as Edward Wadsworth and David Bomberg. Outstanding among the achievements of the 1920s and 1930s are the spare linocuts of Ben Nicholson, the striking evocations of speed and modernity by Claude Flight and Cyril Power, the adventurous blueprints of John Banting and the Surrealist engravings of Stanley Hayter, while the 1940s and 1950s saw the monotypes of Robert Colquhoun, Alan Davie and William Gear, the etchings of Lucian Freud and Richard Hamilton and the remarkable variety of work produced by the St Ives group. The survey draws to a close with the experimental screenprints and lithographs of the sculptors Reg Butler, Eduardo Paolozzi, William Turnbull and Michael Sandle. Over 230 prints are discussed and illustrated and biographies and bibliographical information given for each of the 65 artists represented. Back cover *British Books in Print*, 1985
