

**J**OURNEY into the exciting new world of lateral thinking—and uncover ways to use your brain that you've never dreamed possible.

Start with a strange-sounding situation, drawn from real life. Then try to find a logical explanation for the bizarre circumstances, if you can do it without getting sidetracked. Like a detective, you'll learn to change direction—to head sideways, and think laterally. To keep you hot on the trail, you can turn to the special section that offers clues and hints. When one trail turns cold, discover how to look for a new one.

Four types of puzzles are featured, from the fairly tough, tempting and intriguing, to the gruesome grisly, and on to the very challenging Diabolical. Lots of hilarious cartoons illustrate the puzzles to bring in some comic relief. Try them on your own, and then spring them on your friends. Watch how they squirm when you tell them the "easy" answer!
