Great Longing The:

The Great Longing Marcel Möring,1995 In Holland after their parents die in a car accident two brothers and a sister are placed in different foster homes The novel chronicles the effect this has on their adult lives the narrator being the younger brother The Tragic Vision of African American Religion M. Johnson,2010-05-24 Many have used the term tragic to refer to African American religious and cultural experience After a studied meditation on and articulation of the tragic vision Johnson argues that African American Christian Consciousness is an expression of the tragic and a tragic expression of the Christian Faith The Well of Loneliness Radclyffe Hall,2023-12-21 Radclyffe Hall s The Well of Loneliness is a groundbreaking novel that explores the complexities of sexual identity and societal alienation in early 20th century England Written in a lyrical yet unflinching prose style the narrative follows Stephen Gordon a hermaphrodite who struggles with her identity amidst the oppressive constraints of a rigid society that demands conformity Set against the backdrop of a post World War I world grappling with changing social mores Hall s work intricately weaves themes of love loss and the quest for self acceptance challenging the era s prevailing attitudes toward homosexuality Its frank depiction of lesbian love was both revolutionary and controversial marking it as a formative text in LGBTQ literature Radclyffe Hall a prominent figure in the modernist literary movement and an openly lesbian writer brings her own experiences to bear in this poignant tale Born in 1880 to a wealthy family Hall faced significant personal challenges regarding her sexual orientation and societal expectations Her desire to articulate the inner lives of marginalized individuals was further fueled by the legal and social ramifications of her own identity making The Well of Loneliness not just a novel but a manifesto for those seeking solace in solitude This seminal work is essential reading for anyone interested in the evolution of gender and sexuality in literature Hall s indomitable spirit and meticulous storytelling invite readers to contemplate the human condition through the lens of love and longing The Well of Loneliness stands as both a poignant historical document and a timeless exploration of the search for belonging **A Cultural History of Democracy in the Renaissance** Virginia Cox,Joanne Paul,2022-12-15 This volume offers a broad exploration of the cultural history of democracy in the Renaissance The Renaissance has rarely been considered an important moment in the history of democracy Nonetheless as this volume shows this period may be seen as a democratic laboratory in many often unexpected ways The classicizing cultural movement known as humanism which spread throughout Europe and beyond in this period had the effect of vastly enhancing knowledge of the classical democratic and republican traditions Greek history and philosophy including the story of Athenian democracy became fully known in the West for the first time in the postclassical world Partly as a result of this the period from 1400 to 1650 witnessed rich and historically important debates on some of the enduring political issues at the heart of democratic culture issues of sovereignty of liberty of citizenship of the common good of the place of religion in government At the same time the introduction of printing and the emergence of a flourishing proto journalistic news culture laid the basis for something that

recognizably anticipates the modern public sphere The expansion of transnational and transcontinental exchange in what has been called the age of encounters gave a new urgency to discussions of religious and ethnic diversity Gender too was a matter of intense debate in this period as was specifically the question of women's relation to political agency and power This volume explores these developments in ten chapters devoted to the notions of sovereignty liberty and the common good the relation of state and household religion and political obligation gender and citizenship ethnicity diversity and nationalism democratic crises and civil resistance international relations and the development of news culture It makes a pressing case for a fresh understanding of modern democracy's deep roots

Soulcraft Bill Plotkin,2003 Since 1980 depth psychologist Bill Plotkin has been guiding women and men into the wilderness the redrock

canyons and snow crested mountains of the American West but also into the wilds of the soul He calls this work soulcraft There s a great longing in all people to uncover the secrets and mysteries of our individual lives to find the unique gift we were born to bring to our communities and to experience our full membership in the more than human world This journey to soul is a descent into layers of the self much deeper than personality a journey meant for each one of us not just for the heroes and heroines of mythology A modern handbook for the journey Soulcraft is not an imitation of indigenous ways but a contemporary nature based approach born from wilderness experience the traditions of Western culture and the cross cultural heritage of all humanity Filled with stories poems and guidelines Soulcraft introduces over 40 practices that facilitate the descent to soul including dreamwork wilderness vision fasts talking across the species boundaries council self designed ceremony nature based shadow work and the arts of romance being lost and storytelling *The Chakra System with the Minor Chakras* Harry Eilenstein,2022-08-17 Best known are the seven main chakras Root Chakra Hara Solar Plexus Heart Chakra Throat Chakra Third Eye and Crown Chakra But they are not the only chakras there are also for example the minor chakras in the arms and the legs Of particular interest are also the intermediate chakras between the main chakras which limit their lands like borders with gates that can pump the life force from one chakra to another and play an important role in the formation and resolution of trauma The chakras are the organs of the life force body Just as the physical body has a blood circulation the life force body also has a life force circulation the Kundalini which flows in the three central veins of the Sushumna and Ida and Pingala Furthermore there is a special form of secondary chakras that transform the images in the chakras into docking points for the outside world the kshetrams and the aura points They correspond to the sense organs and the hands of the physical body In order to be able to grasp this complex system which is nevertheless constructed in a very simple and coherent way in all its details and in its great elegance this book compares the knowledge of the chakras of different peoples the acupuncture points of Chinese Medicine the Marma points from Indian Ayurveda and the Rang Dr l points from Tibetan Medicine The result of these considerations is the description of the meaningful attitude in life after all the chakras are also the organs of the psyche and their healthy state therefore is also the healthy attitude of a person

The Cornhill Magazine ,1897 **Nietzsche and the Dionysian** Peter Durno Murray,2018-06-19 Nietzsche and the Dionysian argues that the shuddering mania of the affect associated with Dionysus in Nietzsche s early work runs as a thread through his thought and is linked to an originary interruption of self consciousness articulated by the philosophical companion In this capacity the companion can be considered a mask of Dionysus or one who assumes the singular role of the transmitter of the most valuable affirmative affect and initiates a compulsion to respond which incorporates the otherness of the companion In the context of such engagements Nietzsche envisages Dionysian or divine madness within an optics of life through which an affirmative ethics can be thought The ethical response to the philosophical companion requires an affirmation of the plurality of life formulated in the imperatives to be true to the earth and become who you are Such an

ethics compelled by the Dionysian affect grounds any future for humanity in the affirmation of the earth and life *The Greatest Classics Ever Written* Herman Hesse, Marcel Proust, Leo Tolstoy, Friedrich Nietzsche, Dante, Henrik Ibsen, Fyodor Dostoyevsky, Confucius, William Makepeace Thackeray, P.
