## **Great Mysteries Of The West:**

**The Mythical West** Richard W. Slatta, 2001-11-20 This cultural journey down memory lane showcases how major Western figures events and places have been portrayed in folk legends art literature and popular culture Ever since the days of the 49ers and George Armstrong Custer the Old West has been America s most potent source of legend But it is sometimes hard to separate fact from fiction Did you know for example that Annie Oakley was a talented marksman who shot an estimated 40 000 rounds per year while practicing and performing for Buffalo Bill Cody s Wild West Show in the late 1800s Or that many interpreters believe that The Wonderful Wizard of Oz is not just a fairy tale but also a Populist allegory These are just two of the folk legends dissected and examined in this veritable cultural geography The volume covers everything from billionaire Howard Hughes and composer Aaron Copeland to Aztlan the legendary first city of the Aztecs and Area 51 the top secret U S Air Force base at Groom Lake Nevada that has fascinated UFO and conspiracy buffs *Scots in the North American West, 1790-1917* Ferenc Morton Szasz, 2000 Scots trappers dominated the fur trade often proving more loyal to clan than to trading company or nation Relying on centuries of experience raising livestock for British markets Scottish investors and managers became highly visible in the post Civil War western cattle industry with thriving outfits such as the Swan Land and Cattle Company in Wyoming They introduced new breeds to western ranching such as the Aberdeen Angus that remain popular today Similarly Scots herders dominated the western sheep industry running herds of over 100 000 animals Andrew Little s sheep ranch in Idaho was so famous that a letter addressed simply Andy Little USA found its intended recipient *Westward: A Fictional History of the American West* Dale L. Walker, 2004-05-28 In *Westward* the history of the Old American West unfolds in twenty eight original stories written especially for this unique collection commemorating the fiftieth anniversary of Western Writers of America Inc Featuring handpicked stories by four time Spur Award winning author Dale L Walker *Westward* is a time capsule of the Old American West from the first horse ever seen by a North American Indian to a man who escaped from the Alamo from the massacre at Mountain Meadows to Libbie Custer s great secret from the Apache Wars to the California gold rush And such luminaries of the West as Crazy Horse Jim Bridger Jedediah Smith King Fisher Doc Holliday Belle Starr John Wesley Hardin and the one black man to accompany the Lewis and Clark expedition are brought to life in these classic tales Here the ghosts of the Old West some already there others lured to that vast and trackless land of the setting sun will talk to you in this volume of short stories to be treasured **Great Mysteries of the West** Ferenc Morton Szasz, 1993 In this collection of essays 14 scholars review popular legends of the North American West putting them in proper cultural and historical context Provides a unique mix of cultural traditions including Anglo American Hispanic and Native American Photos and illustrations **Religion in the Modern American West** Ferenc Morton Szasz, 2002-01-01 When Americans migrated west they carried with them not only their hopes for better lives but their religious traditions as well Yet the importance of religion in the forging of a western identity has seldom been

examined In this first historical overview of religion in the modern American West Ferenc Szasz shows the important role that organized religion played in the shaping of the region from the late nineteenth to late twentieth century He traces the major faiths over that time span analyzes the distinctive response of western religious institutions to national events and shows how western cities became homes to a variety of organized faiths that cast only faint shadows back east While many historians have minimized the importance of religion for the region Szasz maintains that it lies at the very heart of the western experience From the 1890s to the 1920s churches and synagogues created institutions such as schools and hospitals that shaped their local communities during the Great Depression the Latter day Saints introduced their innovative social welfare system and in later years Pentecostal groups carried their traditions to the Pacific coast and Southern Baptists among others set out in earnest to evangelize the Far West Beginning in the 1960s the arrival of Asian faiths the revitalization of evangelical Protestantism the ferment of post Vatican II Catholicism the rediscovery of Native American spirituality and the emergence of New Age sects combined to make western cities such as Los Angeles and San Francisco among the most religiously pluralistic in the world Examining the careers of key figures in western religion from Rabbi William Friedman to Reverend Robert H Schuller Szasz balances specific and general trends to weave the story of religion into a wider social and cultural context Religion in the Modern American West calls attention to an often overlooked facet of regional history and broadens our understanding of the American experience

*The West's Greatest Gunslingers* Charles River Editors, 2025-05-22 Wyatt Earp has long been regarded as the embodiment of the Wild West Considered the toughest and deadliest gunman of his day Earp symbolized the swagger the heroism and even the lawlessness of the West notorious for being a law enforcer gambler saloon keeper and vigilante The Western icon is best known for being a sheriff in Tombstone but before that he had been arrested and jailed several times himself in one case escaping from prison and he was not above gambling and spending time in houses of ill fame The seminal moment in Earp's life also happened to be the West's most famous gunfight the Gunfight at the O K Corral which famously pitted Earp his brothers Morgan and Virgil and Doc Holliday against Billy Clanton Tom McLaury and Frank McLaury Though the gunfight lasted less than a minute it is still widely remembered as the climactic event of the period representing lawlessness and justice vendettas and a uniquely Western moral code For Earp the aftermath led to assassination attempts on his brothers one of which was successful touching off the Earp Vendetta Ride By the end of the 19th century Earp was already a poignant symbol of that time and day having permanently etched his name in the folklore of the West but he stayed out west engaging in everything from gold mining to vigilante justice on the Mexican border A living legend he even served as an advisor to early Hollywood which was already pumping out Western movies When he died in 1929 at the age of 80 one of the West's toughest fighters and one of its longest survivors had finally passed Of all the colorful characters that inhabited the West during the 19th century the man who has earned an enduring legacy as the region's quirkiest is John Henry Doc Holliday 1851-1887 a dentist turned

professional gambler who was widely recognized as one of the fastest draws in the West In fact the only thing that might have been faster than the deadly gunman s draw was his violent temper which was easily set off when Holliday was drunk By the early 1880s Holliday had been arrested nearly 20 times That said there were plenty of men in the West who gambled drank and dueled and Holliday may have been lumped in with those whose names were forgotten but for his association with Wyatt Earp It was this friendship that led to Holliday s role in the West s most famous shootout the Gunfight at the O K Corral as well as the Earp Vendetta Ride For those two events alone Holliday s legacy has endured and his unique characteristics have added a mystique legendary quality to it *The Western* Jeffrey M. Wallmann,1999 Wallmann s sweep through the western is a careful incisive and blessedly non theoretical examination of the implications of the western from the beginning to the present taking the reader deep into the heart of the subject and offering original and perceptive theories of how the western reflects the evolution of America BOOK JACKET **Larger Than Life** Ferenc Morton Szasz,2006 Larger than Life offers eleven essays that touch on New Mexico s history through its people places and events Old West Showdown Bill Markley,Kellen Cutsforth,2018-10-01 The real lives of the historic figures in Old West Showdown are shrouded in controversy and myth Was Jesse James a Southern Son fighting for the cause of the fallen Confederacy or a blood thirsty cutthroat justly pursued by the authorities Was Billy the Kid a misunderstood youth or a cold blooded killer Did Buffalo Bill Cody truly ride for the Pony Express as a young man Or was he just a blowhard who trumped up his own past in an attempt to seem more heroic in the eyes of audiences attending his Wild West shows In Old West Showdown dueling authors Bill Markley and Kellen Cutsforth draw on fact and folklore to present opposing viewpoints pertaining to controversies surrounding some of the most well known characters and events in the history of the Old West Ferenc Morton Szasz: A Celebration and Selected Writings Mark T. Banker,2018-09-17 Ferenc Morton Szasz was a lifelong student who became a professor of history at the University of New Mexico As a one year appointment at the Albuquerque campus evolved into a forty year career Szasz glimpsed the predictable unpredictability that he would eventually discern as one of history s most enduring and elusive traits The connections and consequences along the way forged a truly exceptional life and career A master of the United States history survey Szasz enthralled and inspired tens of thousands of students with energy enthusiasm provocative insights and good will Ambitious undergraduates regularly vied with graduate students for coveted seats in his upper level courses where he offered insights into World War II American religious history and popular culture Szasz s interests he insisted were the ideas of the people and how they shift over time In an era when historical scholarship became increasingly specialized he pursued an eclectic array of research interests and challenged his doctoral students to do the same The ten selections of Szasz s writings that are the primary content of this volume balance insights into history s great moments with attention to events and details often overlooked by more conventional historians Szasz s crisp accessible prose reveals both the unique and universal in the human experience and offers heartfelt glimpses into

humanity's paradoxical promises and perils Back cover      The Restless Sea Robert Kunzig,1999 The sea covers seven tenths of the Earth but we have mapped only a small percent of it The sea contains millions of species of animals and plants but we have identified only a few thousand of them The sea controls our planet's climate but we do not really understand how The sea is still the frontier and yet it seems so familiar that we sometimes forget how little we know about it Just as we are poised on the verge of exploiting the sea on an unprecedented scale mining it fertilizing it fishing it out this book reminds us of how much we have yet to learn More than that it chronicles the knowledge explosion that has transformed our view of the sea in just the past few decades and made it a far more interesting and accessible place      **The Non-Western Jesus** M. E. Brinkman, Henry Jansen, Lucy Jansen, 2014-12-18 The centre of gravity of contemporary Christianity has shifted to the southern hemisphere where with the exception of Latin America almost all Christians are minorities in their home countries Christians in Asia live amongst Muslim Hindu Buddhist Shamanist or Taoist majorities and this context shapes the local Christian theology The same is true in Africa where traditional religions and beliefs influence African Christians Central to this change in both Africa and Asia is the creation of a new Jesus one who accretes local beliefs and concerns and who in that process is transformed The Non Western Jesus reveals how a new theology with its own images and concepts is coming into being A wide range of embodiments of Jesus is examined Jesus as Avatara and Guru in the Indian context as Bodhisattva in the Buddhist context and Jesus within Asian Chinese Japanese Korean African and Indonesian religious contexts      *Strange Events in Western building* Qing Tian, 2019-12-09 A small white European building is located in the western part of the French Concession No one knows when or who built this little house and the old people who live around here say that it was there from the moment they could remember The owners of the houses changed several times all moving away for some unknown reason In the end they became ownerless houses and after a while there were rumors of ghosts This foreign building slowly became a haunted house Until five years ago a girl with a white umbrella was seen lugging heavy luggage inside but no one had seen her leave the building At night it was even darker inside the building Only the faint sounds of the piano could be heard occasionally during the day Since then no one dared to approach this place      Lamps of Western Mysticism Arthur Edward Waite, 2018-12-12 A truly modern path to the spirit as described by the author of this book does not imply alienation from the demands and requirements of everyday life but rather enhances man's ability to live that life more fully earnestly and fruitfully This development follows certain definite steps which have as their preliminary goal the harmonizing and balancing of the inner life in terms of objective ultimate reality Beyond this the path opens out to a still higher attainment culminating in that sublime conscious oneness with the divine described in writings of those men and women who have attained at least a first experience of this highest of all goals This book was written in order to open before us the prospect of this goal to outline at least the first steps on the path leading to it and to introduce us to some of the human beings who have achieved noteworthy results in this quest particularly in the Western World In simple

straightforward language he outlines the ideals and practice of the spiritual life from the standpoint of the man of the West as he is today a description entirely free of asceticism and the restrictions of theological dogma     *The Celtic Book of the Dead* Caitlin Matthews,1992-04-15 In the tradition of The Book of Runes and the Egyptian and Tibetan Books of the Dead this divination system contains 42 beautifully illustrated cards and a book that explains the meaning of the cards and how to use them for education and enlightenment Matthews has made many original contributions to the fields of Celtic and Arthurian research Boxed and shrink wrapped     *Historic Towns of the Western States* Lyman Pierson Powell,1901     *The Secret Teachers of the Western World* Gary Lachman,2015-12-08 This epic study unveils the esoteric masters who have covertly impacted the intellectual development of the West from Pythagoras and Zoroaster to the little known modern icons Jean Gebser and Schwaller de Lubicz Running alongside the mainstream of Western intellectual history there is another current which in a very real sense should take pride of place but which for the last few centuries has occupied a shadowy inferior position somewhere underground This other stream forms the subject of Gary Lachman s epic history and analysis *The Secret Teachers of the Western World* In this clarifying accessible and fascinating study the acclaimed historian explores the Western esoteric tradition a thought movement with ancient roots and modern expressions which in a broad sense regards the cosmos as a living spiritual meaningful being and humankind as having a unique obligation and responsibility in it The historical roots of our counter tradition as Lachman explores have their beginning in Alexandria around the time of Christ It was then that we find the first written accounts of the ancient tradition which had earlier been passed on orally Here in this remarkable city filled with teachers philosophers and mystics from Egypt Greece Asia and other parts of the world in a multi cultural multi faith and pluralistic society a synthesis took place a creative blending of different ideas and visions which gave the hidden tradition the eclectic character it retains today The history of our esoteric tradition roughly forms three parts Part One After looking back at the earliest roots of the esoteric tradition in ancient Egypt and Greece the historical narrative opens in Alexandria in the first centuries of the Christian era Over the following centuries it traces our other tradition through such agents as the Hermeticists Kabbalists Gnostics Neoplatonists and early Church fathers among many others We examine the reemergence of the lost Hermetic books in the Renaissance and their influence on the emerging modern mind Part Two begins with the fall of Hermeticism in the late Renaissance and the beginning of the esoteric counterculture In 1614 the same year that the Hermetic teachings fell from grace a strange document appeared in Kassel Germany announcing the existence of a mysterious fraternity the Rosicrucians Part two charts the impact of the Rosicrucians and the esoteric currents that followed such as the Romance movement and the European occult revival of the late nineteenth century including Madame Blavatsky and the opening of the western mind to the wisdom of the East and the fin de si cle occultism of the Hermetic Order of the Golden Dawn Part Three chronicles the rise of modern esotericism as seen in the influence of Rudolf Steiner Gurdjieff Annie Besant Krishnamurti Aleister Crowley R A Schwaller de Lubicz and many others Central is the

life and work of C G Jung perhaps the most important figure in the development of modern spirituality The book looks at the occult revival of the mystic sixties and our own New Age and how this itself has given birth to a more critical rigorous investigation of the ancient wisdom With many detours and dead ends we now seem to be slowly moving into a watershed It has become clear that the dominant left brain reductionist view once so liberating and exciting has run out of steam and the promise of that much sought after paradigm change seems possible We may be on the brink of a culminating moment of the esoteric intellectual tradition of the West
