Earhart, 2015-06-01 This unique window on history employs hundreds of images and written records from Japanese periodicals during World War II to trace the nation's transformation from a colorful cosmopolitan empire in 1937 to a bleak total war society facing imminent destruction in 1945 The author draws upon his extensive collection of Japanese wartime publications to reconstruct the government controlled media's narrative of the war's goals and progress thus providing a close up look at how the war was shown to Japanese on the home front Many of these visual and written sources are rare in Japan and were previously unavailable in the West Strikingly the narrative remains consistent and convincing from victory to retreat and even as defeat looms large Earhart's nuanced reading of Japan's wartime media depicts a nation waging war against the world and a government terrorizing its own people At once informed scholarly and readily accessible this lavishly illustrated volume offers an accurate representation of the official Japanese narrative of the war in contemporary terms The images are fresh and compelling revealing a forgotten world by turns familiar and alien beautiful and stark poignant and terrifying **Aircraft of World War II** Les Perera, 2020-08-27 It is generally accepted that the Spitfire was not only a great fighter aircraft but was also a symbol of Britain's defiance of the Luftwaffe in the early years of WWII Britain had been slow to react to German rearmament in the 1930s Since WWI the RAF's front line aircraft were mainly used in the colonial policing role where their mostly 1920s technology was not an issue However the political appeasement of Hitler's Germany and subsequent lack of realisation had left the RAF ill equipped to combat the potential threat posed by the German build up Almost too late the government started to modernise Britain's ageing fighter force with orders for the Hurricane and Spitfire that were to prove invaluable in the defence of the country These aircraft together with others to follow began to replace the biplane fighters and bombers that would have been hopelessly outclassed in the forthcoming war Weapons technology radar and electronic countermeasures all played a part in Britain's ultimate victory Without the aircraft and the courage of the crews who operated them this outcome would not have been possible Some of the aircraft that served during that period are profiled in this illustrated book with archive photography There are many familiar names featured such as the Supermarine Spitfire Hawker Hurricane and Avro

Lancaster but also lesser known types including the Boulton Paul Defiant Fairey Battle and Westland Lysander

Eyewitness to World War II Neil Kagan, Stephen Garrison Hyslop, 2012 Personal writings and recollections of Roosevelt Hitler and Patton as well as letters composed by soldiers at battle and diaries of women serving in the military at home present an absorbing narrative that tells the entire history of the war from several perspectives Press Photography Award 1942-1998 Heinz-Dietrich Fischer, Erika J.
