Fire in the Mind George Johnson,2010-10-06 Are there really laws governing the universe Or is the order we see a mere artifact of the way evolution wired the brain And is what we call science only a set of myths in which quarks DNA and information fill the role once occupied by gods These questions lie at the heart of George Johnson s audacious exploration of the border between science and religion cosmic accident and timeless law Northern New Mexico is home both to the most provocative new enterprises in quantum physics information science and the evolution of complexity and to the cosmologies of the Tewa Indians and the Catholic Penitentes As it draws the reader into this landscape juxtaposing the systems of belief that have taken root there Fire in the Mind into a gripping intellectual adventure story that compels us to ask where science ends and religion begins A must for all those seriously interested in the key ideas at the frontier of scientific discourse Paul Davies

Ideal Minds Michael Trask,2020-11-15 Following the 1960s that decade s focus on consciousness raising transformed into an array of intellectual projects far afield of movement politics The mind s powers came to preoccupy a range of thinkers and writers ethicists pursuing contractual theories of justice radical ecologists interested in the paleolithic brain seventies cultists and the devout of both evangelical and New Age persuasions In Ideal Minds Michael Trask presents a boldly revisionist argument about the revival of subjectivity in postmodern American culture connecting familiar figures within the seventies intellectual landscape who share a commitment to what he calls neo idealism as a weapon in the struggle against discredited materialist and behaviorist worldviews In a heterodox intellectual and literary history of the 1970s Ideal Minds mixes ideas from cognitive science philosophy of mind moral philosophy deep ecology political theory science fiction neoclassical economics and the sociology of religion Trask also delves into the decade s more esoteric branches of learning including Scientology anarchist theory rapture prophecies psychic channeling and neo Malthusianism Through this investigation Trask argues that a dramatic inflation in the value of consciousness and autonomy beginning in the 1970s accompanied a growing argument about the state s inability to safeguard such values Ultimately the thinkers Trask analyzes John Rawls Arne Naess L Ron Hubbard Hal Lindsey Philip Dick Ursula Le Guin Edward Abbey William Burroughs John Irving and James Merrill found alternatives to statism in conditions that would lend intellectual support to the consolidation of these concepts in the radical free market ideologies of the 1980s

The Oxford Handbook of Eschatology Jerry L. Walls Professor of Philosophy of Religion Asbury Theological Seminary,2007-10-31 Eschatology is the study of the last things death judgment the afterlife and the end of the world Through centuries of Christian thought from the early Church fathers through the Middle Ages and the Reformation these issues were of the utmost importance In other religions too eschatological concerns were central After the Enlightenment though many religious thinkers began to downplay the importance of eschatology which in light of rationalism came to be seen as something of an embarrassment The twentieth century however saw the rise of phenomena that placed eschatology back at the forefront of religious thought From the rapid expansion of fundamentalist forms of Christianity with their focus on the end times to the proliferation of apocalyptic new religious movements to the recent and very public debates about suicide martyrdom and paradise in Islam interest in eschatology is once again on the rise In addition to its popular resurgence in recent years some of the world's most important theologians have returned eschatology to its former

position of prominence The Oxford Handbook of Eschatology will provide an important critical survey of this diverse body of thought and practice from a variety of perspectives biblical historical theological philosophical and cultural This volume will be the primary resource for students scholars and others interested in questions of our ultimate existence **Does It Really**

Physicist Examines Hope in the Resurrection John F. Wilson,2016-12-22 John Polkinghorne ordained member of the Royal Society past President of Queen's College Cambridge Knight Commander of the Order of the British Empire 2002 Templeton Prize winner theoretical physicist and theologian writes in breathless style to unfold core Christian doctrine in dialogue with science His work deftly addresses how one would interpret and commend Christian faith in the contemporary world as he elucidates the key topics in the dialogue of religion with science Polkinghorne's work addresses the hope Christians have present and future in the faithfulness of a loving God who stands alongside them today and for all eternity Eschatological hope enables and empowers Christian life and emerges in God's resurrection of Jesus from the horrific crucifixion Polkinghorne ably supports his thesis with a strong argument for the resurrection built on the kenotic acts of God His thesis sees Christian eschatology as the advent of hope the heart of faith In Christian eschatology as argued by Polkinghorne and supported in the work of Jurgen Moltmann and Nicholas T Wright Christ's presence is not some far off event but present reality **Looking in the Other Direction** Teun van der Leer,2023-09-22 In this study Teun van der Leer tells

the story of the Believers Church Tradition a tradition mainly rooted in the so called Radical Reformation which prefers to be called a movement or rather a renewal movement Its name is a program a vision and a way of being church Based on extensive source research this book describes and analyzes the defining characteristics of this so called third type of church and investigates its ecumenical value With an extensive description of its nature of faith the church hermeneutical discernment and mission this book colors a movement within the church landscape that has never been mapped in such detail before As such the book provides an in depth introduction to this ecumenically important but still a bit underexposed movement and makes a substantial contribution to the ecumenical ecclesiological debate about the church and its future

Out of the Flame Betty Chisholm,2019-05-28 As number five in a family of seven children Betty Elizabeth was an adventurous and mischievous toddler An early fascination with fire left her tottering between life and death Facing a lifetime of medical interventions and adjustments she soon learned that scars pain and loneliness would leave her longing for peace something that seemed well out of reach Regrettable choices that included abortion and a broken marriage resulted in a downward spiral of hopelessness shame depression and attempted suicide Even the fame and potential fortune of her 1 hit on

the Country Music charts left her empty and searching Her dramatic journey to the cross and the naivet of her newly discovered walk with Jesus will leave you both laughing and crying Betty s story is one of God s amazing redemptive plan that has taken her across the globe behind prison bars and into healing favour and victory *Pentecostal Preaching and Ministry in Multicultural and Post-Christian Canada* Steven M. Studebaker,2019-11-07 Over the past forty years Canada has become an increasingly secular multicultural and religiously plural society Indeed the church in Canada and Pentecostals in particular face a challenging context for responding to the call to bear witness to Christ in the power of the Holy Spirit Like the disciples on the day of Pentecost however we need the Holy Spirit to come upon us and liberate us from our post Christian pessimism We need the Holy Spirit to enable us to proclaim the gospel to the nations people that are no longer at the ends of the earth but making their home in Canada This book engages this new context and considers and proposes ways that pentecostal Christians and churches can respond to the challenges of the increasingly post Christian multicultural secular and religiously plural context of Canadian society **The Age of Sex Crime** Jane Caputi,1987 The sexualized serial murder of women by men is the subject of this provocative book Jane Caputi argues that the sensationalized murders by men such as Jack the Ripper Son of Sam Hillside Strangler and the Yorkshire Ripper represent a contemporary genre of sexually political crimes The awful deeds function as a form of patriarchal terrorism disappearing women at a rate of some four thousand annually in the United States alone Caputi asks us not only to name the phenomenon of sexually political murder but to recognize sex crime in all of its various interconnecting manifestations *Nature Readers* Julia McNair Wright,1896
