**The Great Sex Divide** Glenn Daniel Wilson,1989-01-01      **The Book of Absolutes** William D. Gairdner,2008-08-21 A lively challenge to postmodern opinion that reveals satisfying and reliable certainties      *Making Sense of Modernity* Paul Edward Gottfried, Making Sense of Modernity      **Modern Love** Marcus Collins,2006-06 Private life has altered beyond all recognition during the past one hundred years Britain in 1900 was emerging from a Victorian era in which prudery patriarchal authority and pettifogging rules of etiquette were widely perceived to have circumscribed relations between men and women The twentieth century witnessed a reaction against this system of separate spheres spearheaded by reformers eager that the sexes become each other's equals and intimates Modern Love traces the trajectory of this new model of personal relationships over the course of the twentieth century from its emergence out of the crucible of the suffrage campaign through its reshaping by the women's liberation movement It explores its impact on smut merchants warring couples and teenagers as well as its reception by such diverse figures as Bertrand Russell and Germaine Greer It draws on sources as varied as suffragette propaganda banned sex manuals marriage counseling literature and pin up magazines Marcus Collins teaches modern British history at Emory University      **The Woman Composer** Jill Halstead,2017-07-05 Unlike previous anthologizing examinations of women and musical composition this book concentrates on the reasons why there have been and continue to be so few women composers Jill Halstead focuses on the experiences of nine composers born in the twentieth century Avril Coleridge Taylor Grace Williams Elizabeth Maconchy Minna Keal Ruth Gipps Antoinette Kirkwood Enid Luff Judith Bailey and Bryony Jagger to explore the physiological social and political factors that have inhibited women from pursuing careers as composers Is there a biological argument for inferior female creativity Do social structures such as marriage serve to restrict potential women composers Is the gender of a composer reflected in the music they write If so how would this manifest itself The conclusions that are reached are as complex and challenging as the questions that are raised This powerful and provocative book aims to open up debate on these issues which have all too often been avoided by critics and musicologists whose writings have perpetuated arguments that denigrate women's ability to compose By confronting these arguments this study will hopefully begin a reassessment of attitudes towards women and music so that women composers are less of a rarity by the end of the next century      **Gender and Choice in Education and Occupation** John Radford,2002-09-26 Despite many years of equality of choice boys and girls continue to differ in both the subjects they study at school and later in the careers they decide to pursue In this collection of papers by leading researchers from academic and practitioner backgrounds the current evidence from a range of fields is reviewed Drawing on both their own original research and that of others the contributors consider topics as diverse as subject choice in secondary school differences in brain functions between the sexes the comparison of men and women in management and recruiting women to science and technology      **Creation and Covenant** Christopher Roberts,2008-11-01 Does sexual difference

matter for marriage Are there good theological reasons why the two main characters in a marriage should be a male and a female or is marriage a more flexible covenant which any two people can keep Creation and Covenant analyzes latent but under examined beliefs about sexual difference in the theology about marriage which has been dominant for centuries in the Christian west The book opens by studying patristic theologies of marriage which rested on mostly implicit and often incompatible beliefs about sexual difference However Roberts argues that Augustine developed a coherent theology of sexual difference according it a shifting significance from creation to eschaton Roberts traces how Augustine s theology influenced and was developed by subsequent theologians such as Bernard of Clairvaux Luther Barth and John Paul II Finally Roberts engages today s debates about gay marriage Before becoming an academic Dr Roberts was a journalist On behalf of PBS television he covered both the Lambeth Conference in England and the World Council of Churches in Zimbabwe During those years he was disappointed by both the liberal and conservative arguments on homosexuality Left wingers seemed more interested in privacy autonomy and experience than in theology and right wingers seemed to have lots of prohibitions but little good news In the final chapters this book tries to do better inviting liberals to improve the standard of their arguments and explaining what is beautiful and persuasive about the traditional case
