## **Great Travellers:**

Great Travellers, Volume 1 Various, 2016-02-22 Next to actual travel the reading of first class travel stories by men and women of genius is the finest aid to the broadening of views and enlargement of useful knowledge of men and the world's ways. It is the highest form of intellectual recreation with the advantage over fiction reading of satisfying the wholesome desire for facts. With all our modern enthusiasm for long journeys and foreign travel now so easy of accomplishment we see but very little of the great world. The fact that ocean voyages are now called mere trips has not made us over familiar with even our own kinsfolk in our new dependencies. Foreign peoples and lands are still strange to us. Tropic and Arctic lands are as far apart in condition as ever. Europe differs from Asia, America from Africa as markedly as ever. Man still presents every grade of development from the lowest savagery to the highest civilization and our interest in the marvels of nature and art, the variety of plant and animal life and the widely varied habits and conditions, modes of thought and action of mankind is in no danger of losing its zest. These considerations have guided us in our endeavor to tell the story of the world alike of its familiar and unfamiliar localities as displayed in the narratives of those who have seen its every part. Special interest attaches to the stories of those travellers who first gazed upon the wonders and observed the inhabitants of previously unknown lands and whose descriptions are therefore those of discoverers. One indisputable advantage belongs to this work over the average record of travel: the reader is not tied down to the perusal of a one man book. He has the privilege of calling at pleasure upon any one of these eminent travellers to recount his or her exploit with the certainty of finding they are all in their happiest vein and tell their best stories.

Rhetoric and Wonder in English Travel Writing, 1560-1613 Jonathan P.A. Sell, 2020-07-24 Rhetoric and Wonder in English Travel Writing 1560 1613 shows how rhetorical invention elocution and ethos combined to create plausible representations by generating intellectual and emotional significances which meaningful in consensual terms were consensually true However some traveller writers betrayed an unease with such representation rooted as it was in a metaphorical epistemology out of kilter with an increasingly empiricist age This book throws new light onto the episteme shift that ushered in modernity with its distrust of metaphor in particular and rhetoric s wordish descriptions in general In response to the empirical desiderata of scientific rationalism traveller writers textually or physically made their own bodies available as evidence of their encounters with wonder thus transforming themselves into wonderful objects The irony is that far from dispensing with rhetoric they merely put the accent on its more dramatic arts of gesture and action The body s evidence could still be doctored but its illusory truths were better able to satisfy the empirical demand for ocular proof The author s main purposes here are to complement and sometimes counter recent work on early modern travel literature by concentrating on its use of rhetoric to communicate meaning and to suggest how familiarity with the workings of rhetoric and its communicative and epistemological premises may enhance readings of early modern English literature generally
