Racing the Great White Way Katie N. Johnson, 2023-07-19 The early drama of Eugene O'Neill with its emphasis on racial themes and conflicts opened up extraordinary opportunities for Black performers to challenge racist structures in modern theater and cinema By adapting O'Neill's dramatic writing changing scripts to omit offensive epithets inserting African American music and dance or including citations of Black internationalism theater artists of color have used O'Neill's texts to raise barriers in American and transatlantic theater Challenging the widely accepted idea that Broadway was the white hot creative engine of U.S. theater during the early 20th century author Katie N. Johnson reveals a far more complex system of exchanges between the Broadway establishment and a vibrant Black theater scene in New York and beyond to chart a new history of American and transnational theater In spite of their dichotomous and at times problematic representation of Blackness O'Neill's plays such as *The Emperor Jones* and *All God's Children Got Wings* make ideal case studies because of the way these works stimulated traffic between Broadway and Harlem and between white and Black America These investigations of O'Neill and Broadway productions are enriched by the vibrant transnational exchange found in early to mid 20th century artistic production Anchored in archival research *Racing the Great White Way* recovers not only vital lost performance histories but also the layered contexts for performing bodies across the Black Atlantic and the Circum Atlantic

Rethinking the Great White North Andrew Baldwin, Laura Cameron, Audrey Kobayashi, 2011-09-21 Canadian national identity is bound to the idea of a Great White North Images of snow wilderness and emptiness seem innocent yet this path breaking volume shows they contain the seeds of contemporary racism *Rethinking the Great White North* moves the idea of whiteness to the centre of debates about Canadian history geography and identity Informed by critical race theory and the insight that racism is geographical as well as historical and cultural the contributors trace how notions of race whiteness and nature helped shape Canada's identity as a white country in travel writing and treaty making scientific research and park planning and within small towns cities and tourist centres These nuanced explorations of diverse historical geographies of nature not only revisit the past they offer a new vocabulary for contemporary debates on Canada's role in the North and the nature of multiculturalism

The Great White North?, 2007-01-01 This landmark book represents the first text to pay critical and sustained attention to Whiteness in Canada from an impressive line up of leading scholars and activists The burgeoning scholarship on Whiteness will benefit richly from this book's timely inclusion of the insights of Canadian scholars educators activists and others working for social justice within and through the educational system with implications far beyond national borders Over 20 leading scholars and activists have contributed a diversity of chapters offering a concerted scholarly analysis of how the complex problematic of Whiteness affects the structure culture content and achievement within education in Canada Contributors include James Frideres Carl James Cynthia Levine Rasky and Patrick Solomon The book critically examines diverse perspectives contexts and the construction and application of societal and institutional practices

both formal and informal that underpin inequitable power relations and disenfranchisement. Its relevance extends beyond the Canadian context as those in other global settings will find abundant and poignant lessons for their own transformative work in education with a particular focus on social justice. Awards for The Great White North: The publication Award Canadian Association for Foundations in Education 2009 Canadian Race Relations Foundation Award of Distinction 2008 *Revisiting The Great White North?* Darren E. Lund, 2015-01-20. Returning seven years later to their original pieces from this landmark book, over 20 leading scholars and activists revisit and reframe their rich contributions to a burgeoning scholarship on Whiteness. With new reflective writings for each chapter and valuable sections on relevant readings and resources, this volume refreshes and enhances the first text to pay critical and sustained attention to Whiteness in education with implications far beyond national borders. Contributors include George Sefa Dei, Tracey Lindberg, Carl James, Cynthia Levine Rasky, and the late Patrick Solomon. Courageously examining diverse perspectives, contexts, and institutional practices, contributors to this volume dismantle the underpinnings of inequitable power relations, privilege, and marginalization. The book's relevance extends to those in a range of settings with abundant and poignant lessons for enhancing and understanding transformative social justice work in education. *Revisiting The Great White North* offers terrific grist for examining the persistence of Whiteness even as it shapes shifts. Chapters are comprehensive, theoretically rich, and anchored in personal experience. Authors' reflections on the seven years since publication of the first edition of this book complexify how we understand Whiteness while simultaneously driving home the need not only to grapple with it but to work against it. Christine Sleeter, Professor Emerita, California State University, Monterey Bay. Our understanding of racial inequities in education will be impoverished unless we look deeply at White privilege, its variation in different contexts, and resistances to change. Such is the call in this important book by Lund, Carr, and colleagues whose analyses within Canadian contexts framed and re-framed for this captivating revised edition will be useful to educators and scholars around the world. Read this book today. Kevin Kumashiro, Dean, School of Education, University of San Francisco. President, National Association for Multicultural Education. Darren Lund and Paul Carr have given the contributors to their original 2007 text the opportunity to revisit, rethink, reconceptualize, and reframe their earlier work. The result is an interesting, invigorating, and unsettling group of chapters that challenge readers to also revisit and rethink their own ideas about Whiteness, privilege, and power. Teachers, administrators, policymakers, and researchers will all benefit from this critical work. Sonia Nieto, Professor Emerita, Language Literacy and Culture College of Education, University of Massachusetts Amherst. Lund and Carr bring together a superb collection of authors who collectively challenge readers to go beyond liberal platitudes about race until educators confront the political, social, and economic consequences of inequitably distributed privilege; the path towards equality and freedom will remain elusive. By immersing us in the discourse of Whiteness, the essays in this book illuminate that very path. Joel Westheimer, University Research Chair, Professor, Faculty of Education, University of Ottawa. *White Space* Daniel J.

Keyes,Luis L.M. Aguiar,2021-12-15 Much attention has been paid to race in the Canadian metropolis but how are the workings of whiteness manifested in the rural urban White Space analyzes the dominance of whiteness in the Okanagan Valley of British Columbia to expose how this racial notion sustains forms of settler privilege today Contributors to this perceptive collection critique the cultural economics of whiteness and white supremacy The first half documents the historical construction of whiteness how settlers and their ancestors have sought to exalt pioneers by erasing non whites from the region s heritage while Indigenous people resist this white out The second half explores the persistence of whiteness as an organizing principle in the neoliberal deindustrialized present White Space moves beyond appraising whiteness as if it were a solid and unshakable category Instead it offers a powerful demonstration of how the concept can be re envisioned resisted and reshaped in contexts of economic change *Encyclopaedia Londinensis, Or, Universal Dictionary of Arts, Sciences, and Literature* ,1825 **30 Big-Idea Lessons for Small Groups** Michael Rafferty,Colleen
