The Indonesian Economy in Crisis NA NA, 2016-04-30 As the 1998 annual World Bank assessment soberly observed, 'No country in recent history let alone one the size of Indonesia has ever suffered such a dramatic reversal of fortune. Since the middle of 1997 we have witnessed momentous and tragic events in Indonesia. Nobody foresaw the events and many ordinary Indonesians have experienced a substantial decline in their living standards.' This book describes and analyzes Indonesia's most serious economic crisis against the general backdrop of economic decline in Southeast Asia. It also looks to the future considering Indonesia's immediate policy challenges to overcome the crisis and dwelling on some of the key longer term policy challenges raised by the crisis.

The Indonesian Economy Aris Ananta, Mulyana Soekarni, Sjamsul Arifin, 2011 Indonesia is one of the few countries that came through the global economic crisis in 2008/09 with positive economic growth. Despite some recorded positive domestic economic performances, Indonesia faces new challenges as its economy keeps growing and the global economy remains uncertain. A new economic development paradigm is needed to overcome old problems: poverty and unemployment, inadequate infrastructure, corruption, a complex regulatory environment, and unequal resource distribution among regions with global market opportunities. This book provides a new perspective on how Indonesian's economic policies should be developed by considering its past and future challenges. Firmanzah, Professor of Economics and Dean of Faculty of Economics, University of Indonesia, Aris Ananta, Mulyana Soekarni, and Sjamsul Arifin gather excellent researchers and practitioners to discuss important economic policy issues for Indonesia today. They discuss monetary and fiscal policies and real economic sector issues based not only on theoretical analysis but also on their day-to-day experience in economic management. By reviewing Indonesia's economic policy reform and subsequent Asian financial crisis and sub-prime loan crisis, the authors present a new economic development paradigm and explore economic strategy and policies for the new era. The book offers many timely lessons from history as well as the real policy experiences of the authors and guides readers in exploring economic policies under the globalized world economy. This book is very useful for both practitioners and researchers.

Indonesia's Economy Since Independence Kian Wie Thee, 2012 This book contains a collection of papers on various aspects of Indonesia's economic and its industrial development. It discusses the early independence period in the 1950s, the Soeharto era 1966-1998, and the ensuing two economic crises, namely the Asian Financial Crisis of 1997/98 and the Global Financial Crisis of 2008.

Human Dimensions of Indonesia's Economic Crisis and Foreign Assistance Peter McCawley, 1999 This paper covers the background to the crisis, the impact of the crisis, the impact

of the drought and the rice crisis and finally makes an assessment of the overall impact of the crisis *The Indonesian Crisis* Aris Ananta, 2002-12-05 The book focuses on the impact of the 1997-99 economic crisis on human development in Indonesia especially in 1998 its worst year Based on the definition used by the UNDP human development is analysed as covering human capital education and health and purchasing power In this book the concept of human capital is broadened to include freedom from fear health education and migration The first part of the book discusses the economic situation in Indonesia The second elaborates on what happened to human capital during the crisis and the third part examines its effects on purchasing power Because human development does not occur in a vacuum the fourth part discusses some emerging issues in Indonesia The book concludes with some thoughts on people centred development which may contribute to more sustainable development than the development concept that simply pursues high economic growth With this people centred development growth rates of about 3 to 4 per cent are adequate as long as Indonesia achieves success in human development
